Complete Your Degree in 3 Years

S A V E U P T O $ 3 1 , 0 0 0 *

WHAT OPTIONS EXIST AT TRINITY?

3 Years (Including 2 Summers)

Complete your degree in 3 years (including 2 summers). Take advantage of planned programs in social work, mathematics, criminal justice, Spanish, and psychology. Interested in exercise science, finance, marketing or entrepreneurial management? Complete your degree in 3.5 years (including 2 summers).

Advice: The 3 and 3.5 years programs are designed for students who are admitted unconditionally. Check with your advisor.

Master's Degree in Counseling Psychology 3+2 Program

Interested in counseling psychology? Consider our 3+2 program, which allows you to complete both your bachelor's degree and master's degree in counseling psychology in 5 years (including 2 summers).

ARE THERE WAYS I CAN complete a bachelor’s degree in other majors in less than 4 years? Yes!

Take Summer School Courses

Trinity offers many courses each summer at a significantly reduced rate, some of which are online. Or, take courses at an institution close to your home.

Think Ahead

If you are taking courses at a different institution, complete the Transfer Credit Pre-Approval Form before taking the courses.

Take Advantage

Full-time students may take up to 18 credits each semester for the same tuition as 12!

Advice: Meet with your advisor. Some students prefer to take less than 18 credits in order to participate in campus-based activities.

Start Strong

If you are a high school student, consider Advanced Placement (AP) courses and tests, the College Level Examination Program (CLEP), a dual enrollment high school-college program, or International Baccalaureate (IB) courses.

Just Ask Us

Meet with a Trinity advisor to understand how these options fit into your major and minor requirements. All students have a faculty advisor who is available to assist with course selection and planning for graduation. The Trinity community – professors, the Cooper Career Center, student development, the registrar's office – is prepared to walk alongside you as you pursue God's calling.

* Savings estimate is based on 2012-13 tuition and fees for the regular academic year tuition and summer course tuition as well as average room/board costs and estimates for textbooks, travel, and other personal expenses. This savings estimate does not include adjustments that would reduce tuition costs through grants or scholarships.
