SALT the Life of Another

As SALT enjoys its eighth year of offering educational experiences, we are grateful for the hundreds of people who have come to our campus to learn and to grow. Over the last several years this program has grown exponentially and has touched the lives of many “seasoned” adults. Thank you for participating.

Trinity Christian College has decided to use some SALT to enhance the life of a current student. As you register for your courses and trips this semester, you may notice a slight increase in the fee. This increase will be used to establish a scholarship to benefit a Trinity student who has demonstrated a financial need.

SALT continues to enrich lives, foster relationships, and create the opportunity for individuals in the area to share their knowledge, talents, and experience in a welcoming atmosphere.

I look forward to seeing all the familiar faces, as well as the new ones, this spring!

Joyfully serving,

Ruth De Bruyn

Then on to Shipshewana’s Menno-Hof Museum for a revealing look into the lives of the Amish and Mennonites. Our bus tour will bring us back in time as we delve into the history of Jackson Park and the unforgettable story of Dr. Holmes and the victims that he stalked. The carillon at the Rockefeller Chapel is a 72 bell instrument that is played, if you haven’t heard a bell played this way - it’s haunting. If you prefer to listen to the concert on the lawn instead of from inside the chapel, please bring a blanket to sit on. We will enjoy a delicious hot lunch prepared for us by the Washburne Culinary Institute students at the Parrott Cage Restaurant located in the South Shore Cultural Center.

FREE BOOK DISCUSSION

PEARL BUCK IN CHINA
by Hilary Spurling

Thursday, May 23
10-11:15 a.m.

Discussion leader:
Laura Budd, from the Palos Heights Public Library

Location: Trinity’s Administration Building, Fireside Room

Weaving a colorful tapestry of Pearl Buck’s life with strands of Chinese history and literature, Spurling vividly correlates Buck’s experiences of China’s turbulent times to her novel. Growing up in a missionary family in China, Buck lived through the upheavals of the Boxer Rebellion and China’s civil war, two marriages, and a daughter with a degenerative disease; her close-up view of the horrors of China’s extreme rural poverty made her an American literary celebrity as well as a Pulitzer and a Nobel Prize winner when she enshrined her observations of China in the Good Earth trilogy. The vast historical backdrop of this biography of the writer informs, but never overwhelms its remarkable elusive subject.

- No fee
- Complimentary refreshments provided
- Registration required
- Book available for purchase at Trinity’s Bootsma Bookstore Café or at your local library.

Why are people fascinated with the book of Revelation? How did the first Christians understand its message 2,000 years ago? What tools do we need to interpret its message? This seminar explores these and other key questions about the most disputed book in the Bible. Our emphasis will be on reading Revelation as a highly creative literary piece with a powerful and, at times, subversive message. Moving beyond the “crystal ball” approach to biblical prophecy, we examine the social, political, religious, cultural, and literary dimensions of Revelation. In so doing we will attempt to understand what the book, after all, was trying to “reveal” and how it might be used by the church today.

The Great War was over. The world was made safe from democracy. Johnny was marching home and the Great Experiment was about to begin. Underlining the United States were social and political forces that were to change the fabric of the country. The automobile, jazz music, the Charleston, the Red Scare were about to change the makeup of the United States. The restrictions of the Good Old Days, the social mores and accepted practices were to fall to new political ideologies and the horrors and aftermath of the Great War. Although gangsters and prohibition are part of the Roaring 20s, there are more changes that occurred during this decade. Join us as we discuss this fascinating time in history.

Tuesday, April 30, May 7, 14
9:30-10:45 a.m.
Instructor: Rev. Phillip Leo, pastor at Calvin Christian Reformed Church
Location: CL203

The original idea behind suburban life was to get away from the challenges of life in an urban setting. However, the social problems that have historically been associated with the city are increasingly visible and unavoidable in the suburbs. Homelessness, hunger, joblessness, and poverty have embedded themselves into the suburban setting and are easily found if you know where to look. This presents a particular challenge for suburban churches who often do not have a long history of addressing matters of social justice. In this class, we will seek to understand this shift in suburban culture, the call to social justice, and how churches in the “Burbs” go about pursuing social justice.
