**Program: Philosophy**  
**Degree: Bachelor of Arts**

### About This Program

The Philosophy Department is a scholarly community dedicated to cultivating Christian discernment. In our work of looking beyond surface ideas and actions to the deeper conceptual, cultural-historical, and religious commitments on which they rely, we embody the mission of Trinity Christian College “to provide biblically informed liberal-arts education in the Re-formed tradition.” Our cultivation of conceptually, culturally-historically, and religiously attuned discernment both fosters the Reformed faith-thought tradition’s attentiveness to worldview and contributes to the broader philosophical tradition’s commitment to responsible and responsive reason.
