ABOUT THIS PROGRAM

The Spanish program provides education in the language, literature, and culture of the Hispanic world from a Christian perspective.

All Spanish courses stress the four language skills of speaking, reading, writing and listening. Advanced courses give more concentrated attention to further study of language, literature, history, or culture. Graduates gain the knowledge, training and practical experience for continued study at the graduate level, and Spanish education graduates are prepared to teach at all levels of Spanish from kindergarten through 12th grade. A minor or a second major in Spanish augments vocational skills and enhances employment opportunities in business, ministry, government, law, social work, and health industry, among others.

All students who major in Spanish or Spanish education are required to attend the Semester in Spain (SIS) program in Seville to complete their major coursework requirements. The SIS program is optional for students who double major in Spanish for the Professions or minor in Spanish. A cumulative 2.5 GPA is required for students to attend Semester in Spain.
