Program: Accountancy
Degree: Bachelor of Science

ABOUT THIS PROGRAM
The mission of the Trinity Christian College business department is to provide, within a Reformed Christian liberal arts context, a comprehensive foundation in business theory and practice to prepare students for their vocation and/or graduate studies. The mission of the business department echoes the mission of Trinity Christian College which states “We strive to offer the highest quality of instruction to prepare students for excellence in further study and careers beyond Trinity.” The business department uses a servant-leadership perspective as it introduces students to the foundational areas of business practice. This perspective encourages students to evaluate business practices by applying Christian principles to consider the impact of business practices on society.

The accountancy degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP).
