ABOUT THIS PROGRAM
The mission of the Trinity Christian College business department is to provide, within a
Reformed Christian liberal arts context, a comprehensive foundation in business theory
and practice to prepare students for their vocation and/or graduate studies. The mission
of the business department echoes the mission of Trinity Christian College which states “We
strive to offer the highest quality of instruction to prepare students for excellence in further
study and careers beyond Trinity.” The business department uses a servant-leadership
perspective as it introduces students to the foundational areas of business practice. This
perspective encourages students to evaluate business practices by applying Christian
principles to consider the impact of business practices on society.

The entrepreneurial management major prepares students to become effective
contributors to organizations and to identify and develop strategic solutions to organizational
opportunities.

The entrepreneurial management degree program is accredited by the Accreditation
Council for Business Schools and Programs (ACBSP).
