ABOUT THIS PROGRAM
The social work program at Trinity Christian College prepares students for community-centered generalist social work practice. Pulling from the historical roots of the profession and the Reformed Christian perspective, the program emphasizes that community well-being is essential to a common good, that each community has gifts and assets, and we are called to participate in the life of a community. Opportunities for students to fulfill their callings to Christ-like service are present through numerous service learning and field education experiences in the Chicagoland area.

Accredited by the Council on Social Work Education (CSWE), the Trinity Christian College Social Work Program leads to a Bachelor of Social Work (BSW) degree. Please contact the department chairperson for more information about program accreditation.
