Minor: Educational Studies

ABOUT THIS PROGRAM
The education studies minor is designed for students who are interested in the teaching and learning process but do not want teacher licensure. This minor may be of particular interest to church and ministry leadership majors who may eventually be responsible for education programs; for math, history, or English majors interested in teaching at the college level; and for communication or business majors pursuing careers that may someday involve training coworkers. Students interested in working with children in park districts, non-profits, or after-school programs or as para-professionals will also find this minor helpful for their professional growth. Due to program overlap, students who major in elementary education or special education cannot minor in education studies.
