Palos Heights, IL 60463
ACADEMIC FOCUS

This program offers History 103 American and Western Civilization. Students will earn three credits toward the general education requirement in History. The course will be taught at Trinity’s Chicago Semester location at 11 East Adams Street, by the intersection of Adams and Wabash.

Learning activities in these courses will connect students with the urban resources of Chicago.

The entire program will consist of three weeks of coursework beginning with an orientation, class sessions, and Trinity sponsored cultural, service, and worship activities. Courses will be taught by full-time Trinity faculty.

ELIGIBILITY

The Chicago Trinity Adventure will admit 8-12 students based on the following criteria:

- 24 or above ACT score
- Completed all application forms and the application essay
- Submitted a letter of recommendation

This program is only available to incoming freshmen who have already been accepted to Trinity.

About this Program

The Chicago Trinity Adventure is a three-week program in August designed for incoming freshmen who excel academically and are highly motivated. During this structured, residential experience, students will establish friendships, earn credits, and familiarize themselves with cultural and service opportunities in Chicago.

Living and learning together will enable students to explore the city’s academic and professional resources, engage in social and spiritual fellowship, and encourage each other in discovering God’s plan for their future vocations.

When the Chicago Trinity Adventure ends, students will find continued support through the required Freshman Orientation and First Year Forum programs on campus.

LIVING IN CHICAGO

Students will reside in studio or one bedroom apartments near the downtown offices of Trinity’s Chicago Semester location. Two to three students will share each apartment.

In the interest of truly experiencing city life, students will use public transportation only; use of automobiles is not permitted. Trinity will provide each student with an unlimited CTA transit pass during the program.

An experienced student development coordinator from Trinity will live in the same location for the duration of the program. The on-site coordinator will organize and lead Chicago cultural excursions, be available for student needs, and provide support for students outside of class including worship, service, and recreational activities.

COST

Total cost will be $1,995, which will cover three credit hours, a student activity fee for sponsored cultural events, transportation, and housing. Students will be responsible for books, recreational costs, and meals (except for a light breakfast which will be provided).
