Trinity alumni excel. They are nurses in the most advanced healthcare facilities, award-winning teachers in schools across the country, successful business executives in global companies, and service-oriented professionals making a difference throughout the world. Alumni have also continued their studies at first-choice institutions like the University of Chicago and Yale. Trinity’s Career Development Center will give you a great head start and a competitive edge for life after graduation.

MIND, BODY, AND SPIRIT

It’s about you as a whole person. Being fully engaged— that’s what you can expect from your college education. And Trinity Christian College will exceed your expectations. While you focus on your major, you will also explore and learn much more about the world around you and what passionately interests you. Whether it’s the sciences, arts, or humanities, college-level study means hard work, but you’re not in it alone. Your professors will help you reach your maximum potential and be fully prepared for the next big steps of your life.

REAL OPPORTUNITIES FOR REAL EXPERIENCE

Imagine working in a Chicago high-rise overlooking Michigan Avenue or student teaching your own lesson plan to a class of fourth graders. Every — yes, every — traditional Trinity student learns through experience outside the classroom, including internships at companies, nonprofits, hospitals, and schools throughout Chicagoland or through hands-on research, guided by dedicated professors. You may be an accounting intern testing new software at a global risk management firm, or you may conduct substantive research on gene expression with a gifted Trinity faculty mentor.

Your professors will help you reach your maximum potential and be fully prepared for the next big steps of your life.

GET THE MOST OUT OF BEING CLOSE TO CHICAGO

At Trinity, you’re in one of the most exciting metropolitan regions in the world. In about 30 minutes, you can be jogging along Lake Michigan’s breathtaking shoreline, taking pictures at the “Bear” in Millennium Park, or exploring the Art Institute of Chicago, the #1 museum in the world. And there’s always a sports team to cheer on! The city and its suburbs offer you an expansive “classroom” of culturally-rich neighborhoods, world-class music, theater, and art, and endless internship and future employment opportunities.

ALUMNI CAREERS AND CALLINGS

Trinity alumni excel. They are nurses in the most advanced healthcare facilities, award-winning teachers in schools across the country, successful business executives in global companies, and service-oriented professionals making a difference throughout the world. Alumni have also continued their studies at first-choice institutions like the University of Chicago and Yale. Trinity’s Career Development Center will give you a great head start and a competitive edge for life after graduation.
GROW IN FAITH EVERY DAY

Trinity is a Christian college. We’re so serious about faith that it’s in our name. From the lecture hall to the residence hall, Trinity provides a supportive community where you can openly share and explore what you believe and why you believe it. Your professors care about your spiritual growth as much as they care about your learning. Faith is integrated into the curriculum and taught in a way that deepens your understanding of how everything in our world belongs to God and how your Christian faith has an impact on every aspect of your life.

CHOOSE YOUR ADVENTURE-OF-A-LIFETIME

Through Trinity’s numerous study abroad programs, you’ll have the opportunity to be immersed in another culture and expand your global perspective. You could become an honorary “member” of a Spanish family in the ancient city of Seville. Or you may intern in Quito, Ecuador as you serve a developing nation and venture into the Amazon jungle. This is a unique time in your life—make the most of it.
