GENERAL INFORMATION

HISTORY OF TRINITY CHRISTIAN COLLEGE

In 1952 a group of 10 business leaders and professionals committed to Christian education decided to establish a junior college in the Chicago area that would uphold Christian higher education from a Reformed world-and-life view and prepare students for transfer to four-year liberal arts colleges. By April 1956, this visionary group had drafted a constitution and incorporated as the Trinity Christian College Association. Membership in the Association was granted to all who accepted the constitution, including its Reformed Christian theological basis, and who contributed $25 per year to support it. Those membership criteria and that minimum contribution remain the same today.

The first board of trustees was elected in 1959, and they purchased the Navajo Hills Golf Course in suburban Palos Heights, Illinois, as its campus. After remodeling the former clubhouse and pro shop, the College opened that fall with a class of 37 students taught by five full-time and five part-time faculty, led by an academic dean who also served as the chief executive officer. In 1966 Dr. Alexander De Jong was appointed as the first president. After he returned to the pastorate in 1968, the academic dean again served as acting president. In 1969 Dr. Gordon R. Werkema was appointed to be the second president, continuing until January 1973. The third president, Dr. Dennis Hoekstra, served from 1973 until 1979. After a year with an acting president, the board appointed Dr. George Van Groningen as the fourth president, who served a four-year term. Dr. Kenneth B. Bootsma served from 1984 until 1996, followed by Dr. AJ Anglin, who served from 1996 until his retirement in 2002. After a year of interim presidency in 2003, the board appointed Dr. Steven Timmermans as the seventh president of Trinity Christian College.

As the response of the community grew and students embraced the College’s unique perspective, it became evident that Trinity Christian College was fulfilling a greater need beyond providing a solid liberal arts foundation for two-year students. In 1966, the board initiated the process for the College to become a four-year, degree-granting institution. The first baccalaureate degrees were awarded in May 1971.

Trinity Christian College developed a cohesive approach to its core curriculum of philosophy, history, English, and theology. In the years since its original vision was conceived, the College has kept abreast of the changing educational landscape by offering a broader scope of courses and programs that would fulfill the College’s mission more effectively. The curriculum has expanded to include business, education, nursing, and social work in addition to its traditional liberal arts focus. A program of evening classes designed specifically for adult students was added in 1999; today it offers degrees in business and education. The addition of these new programs reflects not only the College’s physical growth but also an expanding awareness of the role and responsibilities the College assumes in its service to the larger Chicago community and the world. As Trinity’s academic offerings have diversified, the College has attracted an increasingly wide-ranging student body whose church backgrounds, once predominantly from Reformed denominations, represent a denominational variety as diverse as American society.

As the College grows and adds new programs, it is the united goal of board, administration, staff, and faculty members that Trinity continue in the tradition established by its founders nearly 50 years ago, as a Christian liberal arts college offering accredited programs in a broadening range of disciplines.

With more than 30 majors, Trinity offers a variety of educational and ministerial experiences, including a Semester in Spain program in Seville, Spain, as well as interim trips to the Philippines, South Africa, Jamaica, Italy, China, and France; and hands-on internships with corporations and nonprofit organizations. The College’s proximity to the resources of metropolitan Chicago offers students an exceptional “classroom” that provides experiential learning opportunities. Intercollegiate sports for men and women, student-run ministry programs, and a full scope of creative expression in fine arts and student publications complete the Trinity experience on the 50-acre, tree-lined campus in a quiet suburban neighborhood.

In February 2001, the College dedicated the Martin and Janet Ozinga Chapel, a facility that serves as a cultural and spiritual focal point for the entire student body, as well as the greater community. The building provides the music program with practice and rehearsal rooms and houses the campus ministries department. A 46-rank pipe organ dominates the stage in the 1189-seat auditorium, while a smaller, Tracker organ resides in the recital hall. The Grand Lobby has hosted a variety of meetings and banquets beneath a striking stained-glass window, one of a quartet of windows throughout the building designed to celebrate Trinity’s mission in Reformed higher education. In spring 2002, the Heritage Science Center opened, a 38,000-square-foot facility that provides classroom and lab space for chemistry, biology, and physics programs, as well as additional classrooms and a lecture hall for technology and computer science studies. Alumni Hall was completed in summer 2004 to meet the increased demand for on-campus housing. The new building was named in honor of Trinity graduates.
MISSION OF TRINITY CHRISTIAN COLLEGE

The mission of Trinity Christian College is to provide biblically informed liberal arts education in the Reformed tradition. Our heritage is the historic Christian faith as it was reshaped in the Reformation, and our fundamental basis of governance and instruction is the infallible Word of God as interpreted by the Reformed standards. The Reformed worldview affirms the biblical truths that creation is the work of God, that our world has fallen into sin, and that redemption is possible only through the gracious work of Christ. From these beliefs arise the convictions that those who teach and learn are called to be co-workers with Christ in subjecting all cultural activities to the reign of God, and that genuine education must involve the whole person as a thinking, feeling, and believing creature.

In all programs, including the liberal arts and sciences, professional and pre-professional preparation, we strive to offer the highest quality of instruction to prepare students for excellence in further study and careers beyond Trinity. We seek to graduate students who are well-equipped to bring the discipline of rigorous academic work into their chosen vocations and the practice of Christlike service toward others into their personal and public lives. All programs are grounded on a core of foundational studies that address the enduring issues and questions of human experience and teach students to explore and apply the implications of a Reformed world-and-life view to all areas of learning, living, and working. Students are encouraged to evaluate their lives in relationship to God, to others, and to all of creation. Since we view vocation as a divine calling, we offer, in addition to traditional liberal arts and sciences, a variety of professional majors, and all professional programs include experiential application in off-campus field education or internships. We actively encourage students to take advantage of the cultural and professional opportunities of the Chicago area and to gain a better understanding of contemporary urban issues.

Our focus is upon those students whose needs, strengths, and goals correlate with Trinity’s strengths as an independent Christian liberal arts college of Reformed character. Our principal student population will be those of traditional college age, with a large proportion living on campus. A secondary population will be served by programs designed for non-traditional adult learners and graduate students. Although we expect to grow in numbers, we also seek growth in pursuit of academic quality and not simply growth for its own sake.

In keeping with a philosophy of education that is based on these principles, all members of the academic community—faculty, staff, and students—endeavor to provide an educational environment of Christian integrity and love that enhances and supports the entire learning experience. We seek committed Christian faculty members who strive to grow continuously in their faith and Christian perspective on learning, who demonstrate effective teaching skills, who commit themselves to foster the total development of students as individuals, and who practice scholarship as a contribution to the education of a larger constituency.

Because our mission in Christian higher education recognizes no racial or cultural boundaries, we consciously seek to develop a multiracial, multinational, and multidenominational student body. The major criteria for admission are academic potential, an explicit desire to participate in the unique Trinity experience, and a readiness to be an active member of a community based on the biblical requirements of justice, humility, and love.

COMMITMENT TO CAMPUS DIVERSITY

Trinity Christian College seeks “to provide biblically informed liberal arts education in the Reformed tradition” in an environment characterized by Christian integrity and love. We consciously seek to develop a “multiracial, multinational, and multidenominational student body” (Trinity Christian College mission statement).

Trinity affirms its commitment to work toward greater diversity of its students, faculty, staff, and administrators, particularly with regard to race, ethnicity, and cultural diversity. Not only do we seek diversity, but also acceptance, redemption, and new creation.

We educate in the hope of the final restoration of all things. The scene from Revelation 7 shapes our community, teaching, research, and influence. Trinity Christian College seeks diversity to reflect God’s creation, to demonstrate His reign, and to anticipate His new creation. Thus, Trinity Christian College seeks to welcome, encourage, and support those who wish to contribute to and benefit from our mission. We aim for members of this college community who come from different geographical areas and represent differences in ethnicity and race while they are rooted in a Reformed Christian worldview and perspective.

Trinity Christian College not only welcomes such qualities in its community, but in fulfilling its mission and in preparing people who will live in radically diverse environments, we also seek to actively recruit and include a variety of people in all aspects of our academic life; in boards, administration, faculty, staff, and student body.

Trinity acknowledges that inclusivity, diversity, and openness in the context of a Reformed Christian worldview enhance the preparation our students receive for life and service in a multicultural and global world.
Trinity's commitment to diversity will be evident in:

- the governance of this institution. We believe that the commitment to diversity must be evident in the actions of those who are called to govern.
- the appointments of faculty, staff, and administrators who have a Reformed Christian perspective. We believe that a diverse body of staff, faculty, and administrators is foundational to sustaining an academic community.
- student recruitment and admissions. We believe that the students recruited to Trinity must give evidence to the diverse society in which we live.
- our place in the larger community. We believe that Trinity, as an institution of higher learning, must promote the unity of God’s family.
- its events and publications. We believe that Trinity’s publications and cultural offerings should promote diversity.
- its efforts to review actions on an annual basis. We believe that accountability and evaluation are important aspects of this plan.

COMPLIANCE OF LEGAL REQUIREMENTS

Trinity Christian College, in accordance with Title VI of the Civil Rights Act of 1964, operates in a non-discriminatory manner with regard to race, color, age, or national origin. Furthermore, as required by Title IX of the 1972 Education Amendments, Trinity Christian College does not discriminate on the basis of sex in its educational programs, activities, or employment policies. Trinity Christian College also provides equal opportunity for qualified handicapped persons in accordance with the requirements of Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Trinity Christian College supports the Family Educational Rights and Privacy Act (FERPA) of 1974 and the rights accorded and the privacy guaranteed the student by this Act. Students who are currently enrolled at Trinity or formerly enrolled students, regardless of their age or status in regard to parental dependency, are protected under FERPA.

ACCREDITATION AND MEMBERSHIPS

Trinity Christian College is a four-year, degree-granting institution operating under a charter granted by the state of Illinois in 1959. Under this charter the College has approval to award both the bachelor of arts and the bachelor of science degrees in appropriate fields.
ADMISSION TO TRINITY CHRISTIAN COLLEGE

CAMPUS VISITS

Students interested in enrolling in Trinity Christian College are welcome to visit campus at any time. Students are encouraged to sign up for destination Trinity, a special overnight event usually held twice a month throughout the school year. Beginning on a Thursday, destination Trinity takes students to downtown Chicago and back to Trinity for an upbeat, student-led praise and worship. After a night in the residence halls, students and their parents are welcome to participate in activities scheduled throughout the morning, including a tour, class visit, chapel, meeting with a professor, and lunch in the dining hall. Sign up online for destination Trinity at www.trnty.edu.

Individual visits can be arranged at any time throughout the year and may include an overnight stay in the residence halls, meals in the dining hall, appointments with faculty and coaches, chapel, and a campus tour. For further information contact the Admissions Office, Trinity Christian College, 6601 West College Drive, Palos Heights, IL 60463; phone 708.239.4708 or 866.TRIN.4.ME; or e-mail kara.bruxvoort@trnty.edu.

APPLICATION PROCEDURE

Students may apply for admission to Trinity Christian College by submitting a Trinity “Application for Admission” form (available from the Trinity admissions office or online at www.trnty.edu), a non-refundable $20 application fee, a high school (or college) transcript, and scores from ACT or SAT I tests (ACT is preferred; subsection scores are used for placement purposes) to the admissions office. Recommended application date is January 15 to ensure priority consideration for scholarships and financial aid.

Students are encouraged to begin the application process as early as possible. High school students should apply during the first semester of their senior year. International students should contact the admissions office as early as possible prior to the intended semester of enrollment to learn about special admissions criteria. Students who meet admissions criteria are admitted on a “rolling” basis, beginning September 1 for matriculation for the following academic year.

The College maintains a policy of nondiscrimination on the basis of race, color, national origin, sex, disability, or age, as required by Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975.
GENERAL REQUIREMENTS

To gain admission to the College, applicants must demonstrate their academic ability. High school students must be eligible to receive a high school diploma at the end of their senior year. An official high school transcript is required to be considered for admission. In addition to a transcript, high school students must provide the College with an official score report from the ACT or the SAT I. Transfer students must provide official transcripts from every college attended. Students transferring 24 hours or more of credit will be evaluated based on their college records. Students who have earned the community college degrees commonly known as the ‘transfer associates’, specifically, the associate of arts or the associate of science, can be accepted into the College as juniors. See the Academic Regulations section of this catalog for details.

ACCEPTANCE INTO THE COLLEGE

Acceptance will be unconditional, conditional (Bridge Program), or unclassified.

1. Unconditional Acceptance—New Freshmen
Unconditional admission to freshman standing requires:

a. receipt of a completed Trinity application for admission and a non-refundable $20 application fee;

b. receipt of a high school transcript* showing
   1) a minimum of 16 units of credit,
   2) a cumulative GPA of 2.0 or above on a 4.0 scale,
   3) average or above-average grades in English and mathematics,
   4) a college-preparatory course of study with
      a) three or four years of English and mathematics
      b) two or three years of science and social studies
      c) two years of a foreign language (highly recommended)

* Home-schooled students may substitute an academic portfolio plus verification that the home-school program has been completed. If the student has been part of an association that issues transcripts, a transcript should be sent.

Students who have not completed high school may submit results of the General Educational Development examination (GED). If the GED is completed successfully, the student may be eligible for admission.

c. receipt of an official record of either ACT or SAT I scores (no minimum scores have been established; however, the average composite score for new freshmen is 23 on ACT or 1060 on SAT I);

d. a personal interview with an admissions counselor.

International students, in addition to the above, must submit the following:

1) a TOEFL score of at least 500 paper-based and 222 computer-based reported on an official score sheet, if English is not the student’s primary language;

2) an audiotape recording of themselves that includes a reading and a short description of themselves, both in English;

3) a two-page handwritten essay on a topic assigned by the admissions office; and

4) an evaluation of academic transcripts (high school or college) by Educational Credential Evaluators, Inc., P.O. Box 92970, Milwaukee, WI 53202-0970, USA. Phone 414.289.3400. ECE charges a fee of $135 USA for each evaluation.

Trinity Christian College awards transfer credit for work successfully completed at accredited institutions. To receive credit for coursework earned at other accredited institutions, new students should request that transcripts be sent directly to Trinity’s admissions office. The registrar evaluates courses for general education and elective credit. After the student has been admitted, it is the student’s responsibility to meet with the appropriate department chair or adviser to have major or minor courses evaluated. Course descriptions and syllabi may be required in order to evaluate courses.

12
www.trnty.edu
13
admissions@trnty.edu
After enrolling at Trinity, students who plan to take courses at another college or university and have the transfer credits apply toward a Trinity degree should fill out a transfer credit pre-approval form prior to taking the course(s). Students should request that transcripts be sent directly to the registrar’s office before the next enrollment period.

The guidelines for accepting transfer credit are as follows:

a. The courses must be academic and similar in nature to courses offered at Trinity Christian College. Trinity reserves the right to accept or reject courses for transfer credit. Remedial or vocational courses are not transferable.

b. Accepting courses for transfer and applying them toward degree requirements are separate considerations. Courses that transfer as elective credits may not be applicable to specific requirements.

c. Only coursework with a grade of C (2.0) or better is accepted. Courses taken for a grade of pass, credit, or satisfactory do not transfer unless the transcript indicates that the grade is equivalent to at least a C. Although a minimum grade is required, grades do not transfer. The grade-point average is computed only on work offered by or through Trinity Christian College.

d. Graduation honors are computed on Trinity work only.

e. A maximum of 65 hours of credit may be transferred from an accredited two-year college.

f. Degree residency requirements:
   1. All students must complete at least 45 semester-hours at Trinity.
   2. Traditional students must complete at least 12 hours of the major and six hours of the minor at Trinity.
   3. Traditional students must complete at least 12 of the last 20 hours at Trinity.

A maximum of 32 semester hours may be obtained through the transfer of non-classroom or test-based credit. Some students are able to earn college credit in certain subjects. This may be earned in any of the following ways:

a. Advanced placement – At the time of admission, first-year students may submit scores from an Advanced Placement (AP) examination conducted by the College Board. A score of 3 or better is required to receive college credit. The amount of credit granted depends on the particular test taken as noted below.

b. International Baccalaureate (IB) – IB credit will be given to students who receive a grade of 5 or greater on higher-level classes. No credit is given for subsidiary-level work.

c. Ontario Academic Courses (OAC) – Credit is granted for courses that have appropriate Trinity equivalents and in which the student has earned a grade of 75 or higher. General education requirements may be waived in cases where the student has earned a grade of 60 to 74.

d. College Level Examination Program (CLEP) – A satisfactory score as determined by the American Council on Education (ACE) is required to receive credit through CLEP. The amount of credit granted depends on the particular test taken.

e. Military service – Trinity awards credit for educational experiences during military service according to the recommendations of the American Council on Education as published in the “The Guide to the Evaluation of Military Experiences in the Armed Services.” The amount and type of credit awarded is dependent upon the training completed and the compatibility of the credit recommendations with other Trinity transfer credit policies.

3. Conditional Acceptance (Bridge Program)

A limited number of incoming freshmen who do not meet the above requirements for unconditional admission may be considered for admission into the College with the understanding that they will participate in the Bridge Program for the first semester. This special category is for students who have weaker high school records and/or test scores but seem to possess the determination and discipline needed to succeed in college. An on-campus interview may be required.

All conditions described in the Academic Regulations section of this catalog will apply to the student in the Bridge Program.

A limited number of transfer students who do not meet the requirements for unconditional admission also may be eligible for conditional acceptance. See the Financial Aid section of this catalog for guidelines.

4. Unclassified Admission

Any interested person may take courses for credit as an unclassified student. Courses are available either days or evenings. To enroll as an unclassified student, complete a regular application form. No transcripts are necessary.

Current high school students may enroll as unclassified students for no more than 6 semester hours of credit per semester provided they have 1) a cumulative GPA of 3.0 or above on a 4.0 scale, and 2) approval of the high school. Normally the high school will have a dual enrollment agreement with Trinity Christian College. As an unclassified student, one cannot receive a degree from Trinity Christian College. If at a later date an unclassified student decides to work toward a degree at Trinity, the student must apply through the admissions office for admission as a degree-seeking student.

Financial aid is not available for unclassified students.
5. Teacher Certification

Students who have earned a bachelor's degree may enroll at Trinity to obtain teaching certification for the state of Illinois. Any interested person must complete the application for admission, pay the $20 application fee, and submit official transcripts from all colleges attended. Transcripts will be evaluated to determine which courses are needed for certification.

Teacher certification students may apply for a limited amount of financial aid through the financial aid office if they plan to enroll for at least six semester hours of credit.

READMISSION

Students who have interrupted their studies at Trinity for one semester or more must complete an application for readmission through the admissions office.

TUITION DEPOSIT

Applicants who have been accepted as students must deposit $100 toward tuition. The deposit serves as a declaration of intent to enroll and is deducted from the tuition payment due on the day of registration. The tuition deposit is due May 1 or 10 days after acceptance for students admitted after May 1.

IMMUNIZATIONS

By Illinois law, all students registering for the first time at a public or private college or university are required to present evidence of immunity against measles, mumps, rubella, and tetanus-diphtheria. Students are permitted to register without immunization documents, but Trinity Christian College will not be permitted to re-enroll students for a second semester who have failed to present appropriate evidence by that time. This does not include students enrolled less than half-time.

REGISTRATION

Information regarding registration will be sent to newly admitted students before their first semester of enrollment. First-time freshmen who are enrolling at Trinity for the first time for a fall semester and have made a tuition deposit will be eligible to participate in Blueprints, the summer registration program. Blueprints is a two-day event that includes registration for classes, academic advising, an overnight stay in the residence halls, meals in the dining hall, programs for parents, and opportunities to get to know other incoming freshmen and transfer students. Information about Blueprints is available through the admissions office. For those who do not participate in Blueprints, a registration packet will be mailed immediately following Blueprints weekend. Students will be provided with the name and phone number of their academic adviser along with specific dates to call and register for classes.
More than 90 percent of Trinity Christian College students receive financial aid to help them meet the costs of their education. Eligible students may receive scholarships, grants, work opportunities, educational loans, or any combination of these. Applicants and current students should review the following pages carefully to see in which areas they might be eligible and should be applying.

Trinity has many college scholarships. Included are merit-based scholarships awarded for honors students, leadership scholarships awarded for participation in extracurricular activities, and special scholarships. All entering students are automatically considered for honors scholarships when their applications are reviewed. Other scholarships have special application forms that the applicant must complete. See the scholarship section of this catalog on the following pages for more detailed information.

To apply for any type of need-based federal and/or state financial aid to attend Trinity Christian College, submit the Free Application for Federal Student Aid (FAFSA) and the Trinity Financial Aid Form. (Non-U.S. citizens should complete the Trinity Financial Aid Form but not the FAFSA.) Trinity recommends that new students complete the FAFSA by February 15 and continuing students by April 1. Information, assistance, and all forms are available from the admissions and financial aid offices. Any appeals regarding financial aid matters should be made to the financial aid office.

Students in Trinity’s adult studies and Semester in Spain programs should refer to their program handbooks for information about available financial aid. The information in the following pages applies only to students in Trinity’s traditional liberal arts program.

**STATE-SPONSORED PROGRAMS**

**Illinois Monetary Award Program (MAP)**
The MAP is an Illinois state-sponsored program that offers grants of up to $4,471 to need-based Illinois students. Awarded amounts are based on the number of credit hours for which the student enrolls. Recipients must be enrolled at least half-time to qualify. To apply, complete the FAFSA.

**The Silas Purnell Illinois Incentive for Access (IIA)**
The Silas Purnell Illinois Incentive for Access (IIA) Program provides assistance to students who have a limited ability to pay for college. Its purpose is to improve access and retention for students, and possibly to reduce the amount borrowed by them.

The IIA Grant provides up to $500 for freshmen who have a zero (0) expected family contribution (EFC) as determined by the results of the FAFSA. Recipients must be enrolled at least halftime to qualify.

**Illinois Future Teacher Corps (IFTC) Program**
The IFTC Program encourages academically talented students to pursue teaching careers in the State of Illinois. Selection criteria include cumulative grade point average (GPA), expected family contribution (EFC), minority student status, and renewal status.

Applicants may receive additional award dollars if they are studying in a teacher-shortage discipline and agree to teach at a hard-to-staff school. For the 2005-06 academic year, scholarship awards are as follows:
- up to $5,000 for individuals who agree to teach in a teacher-shortage discipline; or
- up to $5,000 for individuals who agree to teach in a hard-to-staff school; or
- up to $10,000 for individuals who agree to teach in a teacher-shortage discipline at a hard-to-staff school.

In all cases, the scholarship cannot exceed the cost of attendance. A recipient may receive up to four semesters or six quarters of assistance. A student must agree to teach for no less than five years at a non-profit Illinois public, private, or parochial preschool, or an Illinois public elementary or secondary school. This is a five-year commitment no matter the amount of the scholarship received. If the teaching obligation is not fulfilled, the scholarship converts to a loan at a five-percent interest rate and the entire amount received, prorated to the fraction of the teaching obligation not completed, must be repaid.

**The Minority Teacher of Illinois (MTI) Scholarship**
The Minority Teacher of Illinois (MTI) Scholarship Program is one of the Teacher Education Scholarship Programs administered by ISAC. The MTI Scholarship Program encourages academically talented minority students to pursue careers as teachers at nonprofit Illinois preschool, elementary and secondary schools. The program also aims to provide minority children with access to more minority role models.

The scholarship awards up to $5,000 per academic year for a maximum of eight semesters or 12 quarters of assistance. A student must sign an agreement promising to begin teaching within one year for each year of scholarship assistance received at a non-profit Illinois public, private, or parochial preschool, elementary or secondary school. No less than 30 percent of the enrolled students should be minority students, as certified by the Illinois State Board of Education. The student shall teach on a continuous basis for the required period of time.
If the teaching obligation is not fulfilled, the scholarship converts to a loan at a five percent interest rate and the entire amount received, prorated to the fraction of the teaching obligation not completed, must be repaid.

FEDERALLY SPONSORED PROGRAMS

Federal Subsidized Stafford Loan Program
Under this program students may acquire educational loans from preferred lenders that are sponsored by the federal government. This loan is a need-based award. The amounts of this loan are based on a student’s academic grade level. Students are given the option of deferring all interest while they are in college. Repayment of the principal and interest begins six months after leaving college. The interest rate is variable, with a typical cap of 8.25 percent. To apply, students must complete the FAFSA and contact the financial aid office for a Stafford Loan Request Form.

Federal Unsubsidized Stafford Loan Program
This loan is not based upon need. Students must make periodic interest payments while they are in school. Other terms are similar to the subsidized Stafford Loan.

Federal Perkins Loan
These federal loans are disbursed by the Trinity financial aid office. Preference goes to new freshmen. The interest rate is five percent, and repayment does not begin until nine months after leaving college. To apply, complete the FAFSA.

Federal College Work-Study
Under the federally sponsored College Work-Study program, eligible students may obtain on-campus employment by which they can earn up to $1,400 per academic year. To apply, complete the FAFSA.

Federal Nursing Student Loan
These federal loans are disbursed by the Trinity financial aid office. Preference goes to new freshmen. The interest rate is five percent, and repayment does not begin until nine months after leaving college. To apply, complete the FAFSA.

Federal Pell Grant
The Pell Grant is a federally sponsored program that offers grants of up to $4,050 to eligible students. To apply, complete the FAFSA.

Federal Supplemental Educational Opportunity Grants (SEOG)
The purpose of the SEOG program is to provide grants to students who demonstrate extreme financial need. To apply, complete the FAFSA.

Federal PLUS Loan Program
A PLUS is a non-need-based loan that parents may take out on behalf of the dependent student. The interest rate is variable. Inquire at the financial aid office for information and an application.

OTHER PROGRAMS

Education Assistance Limited (EAL) Scholarships
These scholarships are available to students as part of the need-based scholarship program. To apply, complete the FAFSA.

TRINITY-SPONSORED PROGRAMS

Athletics Scholarships
Athletics awards are available in various amounts. Awards are given to students based on their athletic ability. Interested students should contact the athletics director for more information. Students receiving an athletics award are not eligible for any other institutional aid.

Founders’ Scholarships
Two renewable full-tuition scholarships are awarded each year to first-time freshmen with a minimum high school grade-point average of 3.8 on a 4.0 scale; 30 ACT or 1320 SAT; demonstrated leadership in church, school, or community; and evidence in the students’ lives of faith in Jesus Christ as their Lord and Savior. To apply, submit the special application including personal essay, pastor’s letter of reference, and two teacher recommendations.

Greater Chicago Christian Leadership Scholarships
Two renewable full-tuition scholarships are awarded each year to incoming freshmen from under-represented populations who have demonstrated academic excellence, leadership, and Christian commitment. Refer to the GCCLS brochure, available from the admissions office, for application information.

Honors Scholarships
Honors Scholarships are offered to students with exceptional high school records and high scores on the ACT or SAT. Students with exceptionally high scores should apply for the Founders’ Scholarships.) Qualified new students are eligible for the following Honors Scholarships: President’s Honors at $4,000, Dean’s Honors at $3,500, Women’s Guild Honors at $2,500, and Faculty Honors at $1,500. These first are offered to students based on their previous academic record and Trinity’s estimation of their
ability to succeed at the college level. To renew, students must achieve the following grade-point averages: President’s Honors, 3.7; Dean’s Honors, 3.7; Women’s Guild Honors, 3.5; and Faculty Honors, 3.3. Renewal will be made at the end of each academic year, based on cumulative GPA, after records have been examined. No special application is needed. Renewable for a normal four-year course of study.

Leadership Awards
Awards of $500 to $5,000 are available to entering students who demonstrate leadership and success in music, journalism, and student organizations, and who are unconditionally admitted to Trinity. These awards are given to students who agree to participate in similar activities while in college. Entering students must complete the scholarship application form. Included with this form is a place for a high school sponsor, coach, director, or adviser to write a recommendation. Students wanting to apply should ask the sponsors who best know their skills to write this recommendation. Unconditional acceptance to Trinity is necessary to be considered for leadership scholarships. These awards can be renewed each year for a normal four-year course of study if the student: (1) maintains a college grade-point average as described in the “Criteria for Student Financial Aid;” (2) participates at a satisfactory level in the activity or area of the award; and (3) remains a full-time student. Leadership scholarships are renewed yearly based on a sponsor’s or coach’s evaluation.

Scholarships Based on Major
Biology, chemistry, and English scholarships are available to students who meet the criteria. Awards range from $500 to $3,000; recipients are determined by a department chairperson. A scholarship application and essay are required.

Canadian/International Grants
Qualified Canadian and international students receive a grant of $2,500 ($1,250 per semester) for college-charged tuition, room, and board. Payments of fees from Canadian and international students to Trinity must be made in U.S. dollars. Complete the Trinity Canadian/International Financial Aid form to receive this grant.

Church Grants
Grants are provided to students if they or their parents are members of a supporting church. Contact the financial aid office for more information.

Trinity Grants
The Trinity Grant is available to students who demonstrate financial need. To be considered for a Trinity Grant, a student must demonstrate extreme financial need by means of the FAFSA. The financial aid office calculates the Trinity Grant after all other scholarships and government financial aid have been included in the needs analysis process. Amounts range from $200 to $4,500. It is recommended that new students complete the FAFSA by February 15 to receive priority consideration for need-based aid; returning students by April 15.

High School Waiver Policy
A high school waiver is available for a senior student to attend Trinity Christian College equal to one-half of the cost for one class only. Please contact the financial aid office for details. In the case of a student eligible for both a dependent waiver and a high school waiver, the limit is one-half.

Senior Citizens’ Free Tuition Program
Any person aged 65 or older, regardless of his or her income level, is eligible to register for any classroom course offered by Trinity Christian College on the main campus free of charge, subject only to availability of seats in the class. This tuition waiver does not include courses in applied fields such as music or art, or internships, which require special fees. This program is for unclassified students only and allows a qualified person to audit, without credit, one course per semester. (Senior citizens desiring credit must complete all necessary registration forms in the admissions office and the registrar’s office. Tuition waiver is limited to one course per semester.) To register for this program, contact the advancement office.

FINANCIAL AID FOR OFF-CAMPUS PROGRAMS

Semester in Spain
Students enrolling in the Semester in Spain program will be charged the full Trinity semester charge.

Semester in Spain, Rehoboth Student Teaching, and Chicago Semester
Students enrolling in these programs may use 100 percent of their Trinity financial aid and attribute it to these program costs. Moreover, if a student attends the Semester in Spain program twice, 100 percent of Trinity financial aid may be attributed both times.

CCCU Off-Campus Semester Programs
Students attending any CCCU off-campus program may attribute 50 percent of financial aid awarded by Trinity for the given semester to the program. If, however, participation in a CCCU off-campus program is a requirement for a Trinity major, minor, or concentration, then 100 percent of Trinity financial aid may follow.

Other Off-Campus Semester Programs
Trinity students attending other off-campus semester programs may not apply any of their Trinity financial aid to these other programs. If, however, participation in an off-campus program is a requirement for a Trinity major, minor, or concentration, then 100 percent of Trinity financial aid may follow.
Additional Scholarships

Trinity students attending a second off-campus semester program may not apply their Trinity financial aid to these other programs. An exception is if the second program is either Chicago Semester or Semester in Spain, then 50 percent of Trinity financial aid for the given semester may be used. Another exception is if the second program is required for a Trinity major, minor, or concentration.

ADDITIONAL SCHOLARSHIPS

The following special named and endowed scholarships are available to students who meet the qualifications outlined. Renewable scholarships are for a normal four-year course of study. Application forms for freshman scholarships are available in the admissions office. Scholarship application forms for new students are available starting September 1. Returning student scholarship applications are available after second semester begins.

Absolute Vision Care Scholarship: Up to three renewable awards are offered each year to students with at least a 3.0 GPA who will work (flexible hours) at Absolute Vision Care while completing their degrees. Awards range from $500 to $1,500 per semester, depending on students' level of knowledge, commitment, and hours worked. Special application forms are available in the business office.

Alumni Association Scholarship: One renewable award of $500 is given each year to an incoming freshman whose parent is an alumnus or alumna. Involvement in college life is expected for renewal.

Alumni Excellence Scholarship: Two renewable awards of $1,000 are given each year to incoming freshmen whose parents are alumni. Involvement in college life is expected for renewal.

AuSable Institute of Environmental Studies: Institute fellowships of $1,200 are available for participation in this summer program. See Biology and Chemistry listings for program description.

AuSable Institute of Environmental Studies: Institute Scholarships of $400 are available for participation in this summer program. See Biology and Chemistry listings for program description.

Connie Bakker Memorial Scholarship: One award of $1,500 is given to an education major with financial need. The recipient is selected by the financial aid office. Preference will be given to students from the Illiana area.

Mary Beth Bootsma Memorial Scholarship: Two awards of $1,750 are given to students who exhibit Mary Beth's love for learning, reading, and writing. Priority will be given to junior or senior women interested in journalism and communication arts.

Gerda Bos English Scholarship: An award of $250 is available to a junior or senior education student with a major or minor in English who has demonstrated academic ability, Christian qualities, and service to the college community through extracurricular activities. The recipient is selected by the English department.

Campus Ministry Scholarship: Two awards of $1,000 are given to returning students. Recipients are selected by the chaplain on the basis of involvement in campus ministry. Preference will be given to pre-seminary students and students with financial need.

Community Foundation of Northwest Indiana Scholarship: Two awards of $1,250 are given to junior or senior nursing students who maintain a minimum GPA of 3.0 and demonstrate financial need.

Cross-Cultural Scholarship: Five awards are available each year for continuing Trinity students who plan to participate in a cross-cultural summer ministry without pay. The scholarship is given to help offset loss of summer income. The award is $250 per week of participation in a cross-cultural ministry, with a requirement of four to eight weeks of participation.

Josephine Davids Memorial Business Scholarship: One $1,000 scholarship is awarded each year to an entering freshman with a declared business major. The recipient is chosen based on financial need, Christian commitment, and average or above average academic performance. Renewal for three additional years is based on continuing as a business major and maintaining a GPA of at least 2.0 overall and 2.3 in business courses. Complete the FAFSA.

Clarence Davids and Joyce Vander Bent Davids Business Scholarship: One $1,000 scholarship is awarded each year to an entering freshman with a declared business major. The recipient is chosen based on financial need, Christian commitment, and average or above average academic performance. Renewal for three additional years is based on continuing as a business major and maintaining a GPA of at least 2.0 overall and 2.3 in business courses. Complete the FAFSA.

Harry and Alice DeVries Memorial Scholarship: A one-time award of $2,500 will be given each year to a freshman with a solid academic background who displays a need for assistance. Recipient will be chosen by the financial aid office.

Nancy Drenth Nursing Scholarship: Two awards of $1,000 each will be given to juniors or seniors in the nursing program. Students must demonstrate need and have a cumulative GPA of at least 3.0. Recipients are chosen by the nursing department and the financial aid office.
The Education and Adult Studies Intern Teaching Scholarship: One award of $250 is presented annually to two students, one in the traditional program and one in the adult studies program; students must be teaching during the fall or spring of the next academic year.

Dorothy Geurink Memorial Scholarship: Four $1,000 non-renewable awards are given to new student-athletes from western Michigan. To apply, complete the scholarship application form.

Global Student Leadership Scholarship: Awards given to international students, preferably freshmen, who demonstrate financial need and a Christlike example of leadership. Recipients are chosen by a scholarship committee.

Hewitt Foundation Business Scholarship: One $1,000 award is given to a full-time business major with a concentration in human resources and/or information systems who demonstrates a genuine commitment to Christ. Recipient must have a 2.8 GPA, with preference given to those with financial need.

Dennis and Jeni Hoekstra Scholarship: A $1,000 scholarship is awarded each year to a junior or senior education major with an interest in teaching in a Third World country or an inner-city school.

Elizabeth Anne Hoelzel Memorial Scholarship: A one-time award of $1,000 will be given annually to a promising senior nursing student who demonstrates compassion, care, and skill in his/her professional activities. Recipient is selected by the director of the nursing program.

Ben Hofman Memorial Scholarship: A one-time award of $1,000 will be given annually to a junior or senior special education major. Recipient is selected by the special education faculty and the financial aid office. Priority is given to students with financial need.

Hoitenga-Roelofs Nursing Scholarship: One $1,200 scholarship is awarded annually to a senior who shows commitment to nursing as a lifelong calling to serve Jesus Christ through competent and compassionate service to people of all cultures.

Hollander Consulting Inc. Information Technology Scholarship: One $1,000 award is given to a business major with an emphasis on information systems or computer science.

John and Effie Huitsing Memorial Scholarship: A scholarship of $1,600 will be awarded to an international student or recent immigrant who desires a Christian education and has an interest in the Christian faith. Recommendation required from a pastor or recent educator concerning personal integrity, promise of academic success, and a desire to serve others. The scholarship is renewable if requirements are met. The recipient is chosen by the financial aid office.

Jennie Huizenga Memorial Scholarship Program: Approximately 10 $1,400 scholarships are awarded annually to freshmen from CSI schools. Awards are renewable and are granted to eligible students who have outstanding financial need. New students applying for this award should fill out the scholarship application form and the FAFSA by February 15 to receive priority consideration. Returning students should file the FAFSA by April 1.

Carol and Henry Kamp/Edith and Clarence Schemper Organ Scholarship: One scholarship of $1,000 is awarded to a junior or senior who shows Christian commitment and contribution to church organ music programs, as well as the Trinity organ music program. The applicant does not need to be a music major; a minimum cumulative GPA of 2.5 is required.

Harry and Barbara Kampenga Scholarship: One award of $500 is given each year to a junior or senior student from the southeast Wisconsin area. The student must have a cumulative 3.0 GPA. Preference will be given to a student majoring in nursing or education. The chairpersons of the nursing and education departments will choose the recipient of the award.

David Koole Memorial Scholarship: A one-time award of $750 is given to an upperclass student in the business department. Preference will be given to a senior who typifies the devotion, spirit, and commitment of David Koole. Minimum GPA of 2.5 required. The recipient is selected by the business department.

Rich Kooy Scholarship: One $750 non-renewable scholarship is awarded to an academically strong math or computer science major with a demonstrated faith commitment. Preference will be given to a sophomore. The recipient is chosen by the math and computer science departments.

Tom J. Krygsheld Memorial Scholarship: One $1,400 non-renewable scholarship is awarded annually to a junior or senior education major planning to teach mathematics or one of the natural sciences at the junior or senior high school level.

Lanting Family Transportation Scholarship: One renewable scholarship of $2,500 is awarded annually to support students majoring in business who show great leadership potential and commitment to a strong work ethic. Recipients will be determined by the chairperson of the business department and the financial aid office.

Alf and Marion Larsen Memorial Nursing Leadership Scholarship: A $1,400 scholarship is awarded annually to a senior nursing student who demonstrates peer leadership, professional excellence, and Christian witness in the clinical setting.

Bassam Michael Madany Scholarship: One $1,200 non-renewable scholarship is awarded each year to a returning international student. The recipient is chosen by the financial aid office and the dean of students, based on financial need, Christian commitment, and academic performance.
**Additional Scholarships**

**Mephibosheth Scholarship:** This scholarship is for a student who has a permanent physical impairment. Renewable awards of up to $2,500 will be given to qualified students.

**Stephen P. and Charlotte H. Mitchell Scholarship:** An award of $2,000 is given to a new student who shows potential for outstanding athletic leadership in college activities. The award may be renewed for a normal four-year course of study.

**Ronald Oosting Teaching Scholarship:** One award of $500 is given to a freshman who plans to major in mathematics or mathematics education. Preference will be given to applicants who also participated in the Trinity Math Triathlon as a middle school student.

**Frank M. Ozinga Memorial Scholarship:** One $1,000 scholarship is awarded annually to a freshman seeking a career in law or the political arena. Preference is given to students from Evergreen Park, Illinois. Recipient selected by the financial aid office.

**Janet DeMaa Ozinga Memorial Scholarship:** Thirteen awards of $1,000 per year are awarded to students selected on the basis of outstanding musical ability to participate in the Trinity Honors Ensemble, a mixed group of 12 singers and an accompanist. The scholarship application form and a performance tape are required. Freshmen and upperclass students may apply. These scholarships are renewable based upon a yearly competition and re-application.

**Norman Ozinga Memorial Nursing Scholarship:** One $500 renewable scholarship is awarded annually to a freshman who is interested in obtaining a degree in nursing.

**Race Relations Multi-Racial Student Scholarships:** Under the auspices of the Christian Reformed Church, grants of $500 to $2,000 per year are provided to students of minority races who are within the fellowship of the Christian Reformed Church. Inquiries concerning this award should be addressed to Trinity’s director of financial aid.

**Trinity Quilters’ Art Scholarship:** One $500 award is available to a junior or senior art major with a 3.0 GPA.

**Roelofs Freshman Nursing Scholarship:** Four $500 scholarships will be awarded to entering freshmen who have genuine Christian commitment to serve others through the profession of nursing.

**Maxine Schmidt Memorial Scholarship:** A $500 scholarship is awarded annually to a senior nursing student who demonstrates commitment to professional excellence, service to those in need, and lifelong learning.

**Will Slager Memorial Scholarship:** One award of $1,000 is given annually to a graduate of Chicago Christian High School who maintained a B average or above and participated in at least two varsity sports. Renewable for three additional years if the student participates in athletics at the college level.

**Clarence Solle Memorial Scholarship:** A scholarship of $1,800 will be awarded to an outstanding senior education student with a minimum GPA of 3.0 who plans to teach in a Christian elementary school. Recommendations are required from the director of teacher education, dean of students, and two other faculty members.

**Student Memorial Scholarship:** An $1,800 non-renewable award is presented to a returning junior or senior of outstanding Christian character. This scholarship honors the memory of Trinity students Keith Albers, Ralph H. De Jong, and Dale Friesema. The recipient is recommended by the student development office and approved by the financial aid office.

**Clara and Margaret Stavinga Memorial Scholarship:** One award is given annually to a business or accounting major is awarded each year to an entering freshman. Recipients are chosen by the financial aid office.

**Char Sytsma Memorial Scholarship:** One award of $1,000 will be given to a junior or senior majoring in special education. The award may be renewed for a normal four-year course of study.

**TAC Scholarships:** The Trinity Athletics Club makes $1,000 to $3,000 awards to new outstanding student-athletes. These scholarships may be renewed for three more years if requirements are met.

**Clarence “Doc” Triezenberg Memorial Scholarship:** A $500 scholarship for a business or accounting major is awarded each year to an entering freshman. Recipients are chosen on the basis of academic excellence in high school and strong Christian faith. A college GPA of 3.3 or higher is required for renewal.

**Trinity Multicultural Scholarship:** Two awards of $1,000 will be given annually to entering freshmen who are members of minority races from the greater metropolitan Chicago area and accepted to the College unconditionally. These scholarships may be renewed for three more years provided the recipient achieves an acceptable GPA.

**Vander Ark Family Scholarship:** An award is given annually to a student-teacher in the teacher education program.
Van Der Laan Brothers Scholarship: Three awards of $1,000 each are given to returning juniors and seniors with strong academics and financial need. Not renewable. To apply, file the FAFSA.

Keith Vander Pol Memorial Scholarship: A renewable award is given to a student from southern California with financial need. Amount of award varies. The recipient is chosen by the financial aid office.

Maurice Vander Velde Memorial Junior Scholarship: Up to five awards of $1,200 will be given to upperclass students chosen by selected departments as Vander Velde Junior Scholar research assistants. Assistants are chosen to work closely with a professor in a research project and participate in a special Interim course. A special application is required.

Ed Vander Weele Memorial Scholarship: One $1,100 scholarship is awarded to a junior or senior who is accepted into the teacher education program, exerts positive Christian influence among peers, and shows high potential for teaching success.

Gary VanDyke Scholarship: One scholarship of $500 is awarded to a returning junior or senior biology major who has a commitment to Christian stewardship. The applicant must show an interest in attending graduate school and/or pursuing a career in ecology, botany, or environmental science.

VanDyken Family Scholarship: One scholarship of $1,000 is awarded to an incoming freshman with strong leadership ability who is academically challenged. Students will be recommended by their admissions counselor, and the recipient will be chosen by the financial aid office. The scholarship application and a recommendation from a professional at the applicant’s high school are required.

Bass Van Gilst Memorial Christian Service Scholarship: A renewable award of $1,000 for an incoming student (preference given to a freshman) from central Iowa who demonstrates a life of service to others through school, church, civic, or other charitable activities. To qualify for renewal the recipient should exhibit the life of a model Christian servant and demonstrate continued service throughout his/her college career. To apply, submit the scholarship application and a letter of recommendation from a pastor and/or director of a charitable organization.

Harry G. Vermeer Scholarship: Two $500 renewable scholarships are available for freshmen from the Pella, Iowa, area who have been accepted as full-time students at Trinity.

Dewey G. Westra Scholarship: A $1,000 renewable scholarship will be given annually to a student majoring in education, church education, business, or information systems. The recipient is chosen by the financial aid office and the chairperson of the appropriate academic department.

Wisconsin Scholarship: One renewable award of $1,000 will be given to a freshman from Wisconsin. Preference is given to minorities, women, and students with financial need. To apply, complete the FAFSA.

Catherine Yonker Memorial Scholarship: One award of $1,300 will be given annually to a member of the Trinity community recognized for contributions toward accomplishing Christian race relations and cross-cultural understanding. Nominations to the ethnic diversity committee by either faculty, staff, administration, or students are required.

COLLEGE POLICY REGARDING TRINITY-SPONSORED GRANTS

Part-Time Status and Scholarships
All Trinity scholarships and awards are awarded to full-time students taking a minimum of 12 hours per semester and paying full-time tuition. Students who take less than 12 hours during a semester will have their Trinity scholarships and awards applied as follows: Students enrolling for 9, 10, or 11 hours per semester may receive 65 percent of the institutional grants and institutionally controlled monies they would have received as full-time students. Students taking less than nine hours will not be eligible for institutional monies. Students who change from full-time to part-time status or leave the College during a term will receive reduced awards.

Criteria for Student Financial Aid
In order for a student to receive state, federal, or institutional funds at Trinity, he or she must maintain satisfactory academic progress. The guidelines are:

1. A student must be enrolled as a degree-seeking student. Recipients who enroll less than full-time will be awarded any government aid on a reduced basis according to government guidelines. A recipient who changes from full-time to part-time status or leaves the College during a term will receive reduced awards. Trinity's adult studies program students are not eligible for Trinity-sponsored grants or scholarships.

2. Recipients must demonstrate satisfactory academic progress each semester. The minimum expected standard for full-time is 12 hours per semester. The maximum time frame is 12 semesters for a traditional full-time student.

3. A student must continue to make satisfactory academic progress according to both the qualitative and quantitative standards described on the next page.
a. Qualitative measure is based on cumulative GPA. To maintain satisfactory academic progress, a student must maintain the following minimum grade-point averages:

<table>
<thead>
<tr>
<th>Cumulative Hours Attempted</th>
<th>Minimum GPA Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 29</td>
<td>1.5</td>
</tr>
<tr>
<td>30 - 59</td>
<td>1.7</td>
</tr>
<tr>
<td>60 - 89</td>
<td>1.9</td>
</tr>
<tr>
<td>90 or more</td>
<td>2.0</td>
</tr>
</tbody>
</table>

b. Quantitative measure is based on cumulative hours completed. To maintain satisfactory academic progress, a student must complete courses attempted successfully according to the following minimum standards:

<table>
<thead>
<tr>
<th>Cumulative Hours Attempted</th>
<th>Minimum Percentage Successful Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 30</td>
<td>50%</td>
</tr>
<tr>
<td>31 - 45</td>
<td>55%</td>
</tr>
<tr>
<td>46 - 60</td>
<td>60%</td>
</tr>
<tr>
<td>61 - 75</td>
<td>65%</td>
</tr>
<tr>
<td>76 - 90</td>
<td>70%</td>
</tr>
<tr>
<td>91 - 105</td>
<td>75%</td>
</tr>
<tr>
<td>106 - 120</td>
<td>80%</td>
</tr>
<tr>
<td>121 - 150</td>
<td>85%</td>
</tr>
</tbody>
</table>

Note: “Cumulative Hours Attempted” used for calculating quantitative progress is defined as hours for which a student is enrolled on the 10th day following the official registration day for each semester.

4. Students who fall below either the qualitative or quantitative standards will be placed on probation. Students are allowed to receive one semester of aid while on probation. If the student remains below the standards for a second consecutive semester on probation, the student will not be eligible for aid until regular academic standing is again attained.

5. An exception is made for new freshmen whose acceptance was conditional. If the registrar allows the student to remain for a second semester on probation, aid will continue for this second semester as well.

6. Transfer students who are accepted on probation may receive one semester of aid while on probation, but they must attain Trinity’s regular academic standing by the end of their first semester in order to continue receiving aid.
In efforts to provide an engaging and holistic education experience for all students, Trinity residences are staffed by both professional and student residence life staff. Wellness programming is provided to stimulate students’ academic, spiritual, social, and cultural growth. Full-time live-in professional residence directors are employed in each of the residences to foster the student development and community involvement as well as to provide non-professional counseling, conflict resolution, and facility management. It is our desire that all students experience the benefits of this community by participating in the residential living opportunities that Trinity Christian College offers.

Chicago Weekend Activities
Student committees plan regular weekend activities that take advantage of the rich cultural and social resources of the Chicago metropolitan area. This may include ethnic dining, outdoor ice skating downtown, shopping, theatre, concerts, museums, the gallery district, or major professional sports events.

Intramural Athletics
Trinity students consider the intramurals program to be one of the more popular campus activities. The wide variety of recreational activities provides students, faculty, and staff the opportunity to participate in both co-ed and single-sex sports throughout the entire academic year.

Student involvement is an especially important aspect of the program. Seventy percent of the students participate in one or more intramural activities during the academic year. Along with the intramurals director, several student assistants are responsible to promote, organize, and conduct intramural activities. A fitness center is available to students in Alumni Hall.

Intercollegiate Athletics
Students at Trinity have the opportunity to participate on intercollegiate teams in several sports. Men’s and women’s soccer, cross country, and women’s volleyball are offered in the fall; men’s and women’s basketball in the winter; softball, baseball, and track and field in the spring.

Trinity is a member of the National Association of Intercollegiate Athletics (NAIA), the National Christian College Athletic Association (NCCAA), and the Chicagoland Collegiate Athletic Conference (CCAC).

Campus Center
The Molenhouse Student Center serves as the focal point for student services and activities. The lower level contains the campus post office, bookstore, and snack shop. Admissions, financial aid, and business offices are located on the main floor.
Student Government
The Student Association supervises student organizations and promotes student involvement in Trinity life through its committees on student activities, concerts, multicultural awareness, academic affairs, student publications, service, and student ministries. It also receives reports from students serving on faculty and college committees. Officers and upperclass representatives are elected each spring for the following year. Freshmen student representatives are elected in the fall. A representative from the Student Association serves as an observer at meetings of the Board of Trustees. The Student Association offices and conference room are located in the lower level of South Hall.

Student Publications
Students are encouraged to staff the Courier, Trinity’s student newspaper, and the Allelu, the yearbook. These publications are directed by the Student Association.

Student Rights and Community Standards
Appeal procedures for students with academic grievances or questions concerning disciplinary actions are detailed in the Student Handbook, which is distributed to all students each year. In addition, policies concerning sexual standards and conduct, including sexual harassment and AIDS education, are available through the student development office. Campus Crime Act summaries are also available in the student development office or on the security department Web site.

STUDENT SERVICES

Services for Student Success

Academic Counseling: The SSS center offers academic counseling to all Trinity Christian College students.

Peer Tutoring: Both individual and group tutoring are available to Trinity students at no personal cost.

Peer Mentoring: A peer mentor may be requested by any student seeking help with organizational and time-management skills.

Disability Services: Students who are accepted academically to the College and have documented disabilities — such as visual, hearing, or mobility impairments, learning disabilities, attentional disorders, chronic disease or psychological disorders — can receive services by contacting the director of the SSS center. Accommodation plans and communication of needs to the faculty are included in the services offered.

Services to students with conditional acceptance: Academic support is offered through consultation with the director of the SSS center and communication with faculty members.

First-year students with conditional acceptance: The Bridge Program offers an intensive pre-orientation week of early intervention. All first-year students who are accepted conditionally to the College also may be expected to enroll in Student Development 101 Academic Wellness and Success, a one-credit course offered through Services for Student Success, designed to sharpen academic skills and ease the transition into college academic life.

Services for International Students
The student development office, located in the Pro Shop, provides support for incoming international students’ documentation, and advice and information on international student issues.

Business Office
The business office is located on the main floor of the administration building. All billing statements are generated from this office. Here, students also may do the following: pay tuition; cash personal and payroll checks; turn in time sheets from campus jobs; pay parking fines; change meal plans; sign loan checks; and notarize documents.

Cooper Career Center
The Cooper Career Center, located in Groot Hall, is open to everyone in the Trinity community. With the guidance of Center staff, students discover what they do well and enjoy, explore career options and internships, and develop strategies to make their career search efficient and successful. Vocational testing and career guidance software is available. The Career Library offers information on employers, salaries, and employment trends. The Center serves as the clearinghouse for graduate school and entrance exam information, and assists in the application process.

The Center provides workshops on résumé and cover letter preparation, interviewing, and job search strategies. Each spring the Center sponsors the Career Networking Event, matching alumni with juniors and seniors for mock interviews. A panel of alumni offers networking and job search tips, and provides strategies for an effective job search in specific disciplines.

Trinity’s Cooper Career Center is a member of the Illinois Small College Placement Association, which provides joint services with 28 other small colleges in Illinois. Among those services are Interview Network for Chicago area employers, a résumé referral program, job listings, and CareerFest and TeacherFest, annual local job fairs.

Among those services are Interview Network for Chicago area employers, a résumé referral program, job listings, and CareerFest and TeacherFest, annual local job fairs.
Counseling
The services of professional Christian counselors are available to students through local agencies. Personal counseling with graduate student interns is available on campus. Contact the student development office for further details.

Accident and Health Insurance
All students registered for more than six credit hours per semester are required to carry health and accident insurance. Students who have personal family coverage are required to sign a waiver at time of registration. Students who are not covered under their personal family plan will be required to enroll in Trinity’s student plan. Details can be obtained by contacting the business office.

All accidents and health problems requiring medical attention are referred to the student’s family physician for local students, or to a physician of the student’s choice. The College is not liable for injuries sustained by students in their activities as students, even if such injuries occur on campus premises, in laboratory work, or in physical education classes. The College does not undertake to be the insurer of its students, and its liability under law must be based on fault. It is necessary, in order to establish the liability of the College for such injuries, to show that the student was free from any negligence or carelessness that may have contributed to the injuries. Accordingly, students are advised to be certain that they are covered by personal accident and health insurance.

Library
The Jennie Huizenga Memorial Library houses a collection of 77,000 volumes, 19,000 microfiche, and 400 periodicals, as well as video cassettes, DVDs, and compact discs. Library computers provide access to numerous local and off-site resources through the campus network and Internet connection.

Trinity's online union catalog, ILLINET Online, provides access to library materials contained in 65 academic libraries throughout Illinois. Students, faculty, and staff may place interlibrary loan requests online, with most delivery times averaging a week or less. Numerous subject-specific databases and full-text electronic journals also are available through the library’s Web page. In addition, students have on-site access to many other libraries through reciprocal borrowing arrangements with libraries in the Suburban Library System and LIBRAS, two consortia of public and academic libraries in the greater Chicago area.

Several rooms are provided in the library for group study and seminars. There are two listening/viewing rooms; spacious, comfortable reading areas; and seating for 120 at study tables and carrels.

The library normally is open Monday through Thursday from 8 a.m. to 11 p.m., Friday from 8 a.m. to 4:30 p.m., Saturday from 9:30 a.m. to 4:30 p.m., and Sunday from 8 p.m. to 11 p.m. Hours are subject to change during holidays and breaks; please call ahead to confirm.

More information is available on the College Web site, [www.trnty.edu/library](http://www.trnty.edu/library).

Library Instruction
A program of library instruction is offered to students enrolled in the core courses. Sessions are designed to introduce students to ILLINET Online and relevant databases. Professors may request that a librarian provide additional instruction for upper division courses to inform students about advanced research skills and specialized materials for individual subject areas.

Bookstore
The bookstore is located in the lower level of the Molenhouse Student Center and provides most campus needs: textbooks, collateral reading materials, sportswear, cards and posters, school supplies, art supplies, gift items, candy, and basic toiletries. (Students are not required to use the College bookstore. Any bookstore that carries the necessary textbooks may be used.)

Dining Hall
The dining hall, located on the east side of the administration building, is open to everyone in the Trinity community and their friends and family. Open for breakfast, lunch, and dinner every day, the dining hall provides a pleasant gathering place for all to enjoy a variety of great foods. Brochures are available in the dining hall for additional information, including hours of operation, meal plans, and pricing.

Mailroom
All student mailboxes are located on the lower level of the Molenhouse Student Center. Mailboxes are secured by combinations that are assigned at the beginning of the year. Postage may be purchased. Packages are received and sent from this mailroom during the hours of 10 a.m. to 4 p.m., Monday through Friday, and Saturdays for mail pickup only after 12 p.m.
EXPENSES

Trinity’s Financial Contribution
To help keep tuition affordable for students, Trinity Christian College gratefully receives gifts from many individuals, churches, corporations, and foundations. The College raises more than $1,750 annually — $7,000 over a four-year period — for each student enrolled.

Tuition and Related Fees, 2005-2006
Tuition charges per semester:

Full-time program of 12 to 18 semester-hours ................................................................. $ 8,493
Part-time program of 1 hour ............................................................................................. $  570
Part-time program of 2 hours ............................................................................................ $ 1,140
Part-time program of 3 hours ........................................................................................... $ 1,710
Part-time program of 4 hours ........................................................................................... $ 2,280
Part-time program of 5 hours ............................................................................................ $ 2,850
Part-time program of 6 hours ........................................................................................... $ 3,420
Part-time program of 7 hours ............................................................................................ $ 4,200
Part-time program of 8 hours ............................................................................................ $ 4,800
Part-time program of 9 hours ............................................................................................ $ 5,715
Part-time program of 10 hours .......................................................................................... $ 6,350
Part-time program of 11 hours .......................................................................................... $ 7,095
Each credit-hour over 18 .................................................................................................... $  570

Specialized Program Charges
Internship in Business (one semester) .................................................................................. $ 8,493
Internship in Teaching (one semester) .................................................................................. $ 8,493
Chicago Semester Program (one semester) ...................................................................... $ 8,493
Study-Abroad Programs (one semester) ............................................................................ Varies

1 Students in this off-campus program are responsible for room and board costs. These costs are approximately the same as on-campus charges. The Chicago Semester Center will assist in arranging for approved housing.

2 Study-abroad program charges for tuition, room, and board vary from program to program. Extra charges for travel and other miscellaneous costs must be paid by the student; details of these costs may be obtained from the Cooper Career Center. Full payment of room, board, tuition, and travel expenses is required at the time of registration for all study-abroad programs.

Miscellaneous Charges
Private music lesson fee per semester-hour 1........................................................................ $  270
Private music lesson fee per semester-hour ........................................................................ $  570
Private music lesson fee, audit only ................................................................................... Varies
Clinical nursing fees (per semester for juniors and seniors) .............................................. $  100
Auditing fee per semester hour 2 ....................................................................................... $  90
Bad check 3 ....................................................................................................................... $  10
Change in registration (student-initiated) 4 ........................................................................ $  5
Change or replacement of meal ticket (student-initiated) .................................................. $ 10
Deferred payment fee ....................................................................................................... $  25
Deferred payment delinquency fee .................................................................................... $  25
Electronic portfolio fee (education majors and minors) ................................................... $  30
Graduation fee (robes, diplomas, etc. ) 5 .............................................................................. $100
Late registration fee (non-refundable) .............................................................................. $  25
Transcripts (first one free) 6 ............................................................................................. $  2
Foreign transcripts 7 ......................................................................................................... $120
Accident/Health Insurance 8 ............................................................................................. $ 705
First Year Forum 9 ........................................................................................................... $175

1 A student’s qualification to receive credit is determined by the music faculty prior to enrollment. Charges are the same whether enrolled for credit or non-credit.
2 Students may audit a course only with permission of the registrar. Full-time students are permitted to audit a course at no cost.
3 Trinity accepts personal checks for the convenience of students and parents. Any check negotiated with the College that is not honored by the individual’s bank shall be subject to the penalty charge. The student is held responsible for payment of the unredeemed check.
4 The change of registration fee is charged beginning on the seventh calendar day after registration each time a student adds or drops a class. Before the change is issued, the student must secure approval from the registrar.
5 This fee is required for all students who graduate, whether they participate in the commencement ceremonies or not.
6 Requests for transcripts must be in writing and cannot be honored unless payment accompanies the written request. No official transcript is issued for students owing money to the College.

www.trnty.edu
admissions@trnty.edu
If a student has attended a foreign secondary school or college, he or she must supply both the original transcripts from those schools and an English translation of each transcript, and a $120 evaluation fee to Trinity’s admissions office. The $120 fee must be in U.S. currency and is non-refundable. No person’s file that includes a transcript from a school outside the United States will be processed without this fee.

Students who do not provide proof of insurance coverage will be required to purchase coverage through Trinity.

One credit-hour course required of all new students.

**Interim Fees**

Interim is considered an extra course that a student may take without additional charge if full tuition is paid for either semester. Students who are suspended at the end of the fall semester will not be eligible to participate in interim for that year. When a student does not pay full tuition for either semester, a charge of $1,140 is made for interim tuition payable at registration prior to the beginning of the interim. Such payment will be applied to the second semester registration fee in the event the student elects to take 12 or more hours.

Part-time students who have earned at least 24 hours at Trinity may be eligible to have the interim tuition waived.

No housing refunds for interim are allowed; no meal-ticket refunds for interim will be granted except for those students enrolled in an officially approved out-of-town interim program.

**Room and Board Fees**

Rates for room and board are as follows:

<table>
<thead>
<tr>
<th></th>
<th>Semester 1</th>
<th>Semester 2</th>
<th>Per Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Room rent</td>
<td>$1,700</td>
<td>$1,700</td>
<td>$3,400</td>
</tr>
<tr>
<td>17-meal plan</td>
<td>$1,600</td>
<td>$1,600</td>
<td>$3,200</td>
</tr>
<tr>
<td>12-meal plan</td>
<td>$1,500</td>
<td>$1,500</td>
<td>$3,000</td>
</tr>
<tr>
<td>8-meal plan</td>
<td>$1,350</td>
<td>$1,350</td>
<td>$2,700</td>
</tr>
</tbody>
</table>

The dining hall is closed during Thanksgiving, Christmas, and spring vacations. The residence halls are closed during Christmas and spring vacations only.

A $75 refundable room deposit is required of all resident students at registration to cover room damage and unpaid telephone bills. With proper care of the room, the complete amount will be returned after graduation. Room deposits cannot be applied toward tuition or other fees.

These figures represent the number of weekly meals allowed from Sunday through Saturday. In addition, meal plans include annual allowances called FLEX dollars that can be used in Trinity’s snack shop. The 17-meal plan includes $250 annual FLEX dollars, $200 in the 12-meal plan, and $150 in the 8-meal plan.

**Payment of Financial Obligations**

Tuition, room and board, and all other fees are to be paid in full in U.S. funds at the time of registration each semester. Grants and other financial aid are applied to student accounts at the beginning of each semester, which will reduce the amount due. Any student who cannot pay in full is charged a deferred payment fee of $25. This agreement provides for payment of one-third down of student-generated (non-grant/financial aid) funds owed with the balance due in two equal payments six weeks and 12 weeks after registration. A delinquency fee of $25 is assessed for each payment date not met. No student is allowed to enroll without meeting the required payments as set forth above. Any student whose account is delinquent will not be permitted to register for the following semester, and all requests to release grade reports and official transcripts will be denied.

Students who enroll in a study-abroad program are required to make payment in full at registration for tuition, room, board, and travel expenses.

**Tuition Coverage at Other Colleges**

Under certain circumstances, Trinity Christian College will pay tuition charges for students to take a course at another college. Before such payment is approved, all the following conditions must be met:

1. The required course is in the course schedule to be offered but has been canceled, or the course has been identified by the College as available only through arrangement with a specific neighboring institution.

2. The course is a required course in the student’s major, minor, or concentration.

3. The course has been approved by the department chairperson and the registrar as equivalent to the Trinity course for which it is a substitute.

4. The student has not changed majors, minors, or concentrations within the previous two years.

5. The student entered Trinity as a freshman or transferred at least two years prior to needing the course. Students who transfer to Trinity are required to meet the prerequisites for their majors, minors, and concentrations within the same time frame as those who enter as freshmen and therefore are not covered normally under this policy.
6. The student has been a full-time student for the previous two years.

7. The institution where the course will be taken has been approved by the dean of academic services.

8. Tuition will be paid contingent on the student completing the course. If the student drops the course before completion, the student will be billed for full payment of the tuition paid to the other college.

Withdrawal, Refunds, and Return of Funds

Any student who is suspended or dismissed by College authorities shall not be entitled to any refund of tuition or room charges.

**Tuition**

Any student who desires to withdraw from one or more classes must obtain written approval from the registrar's office. The date on which such written approval is received from the registrar determines the amount of refund, and failure by the student to obtain such approval makes the student ineligible for any refund. Refunds for approved withdrawals shall be based on the following schedule:

<table>
<thead>
<tr>
<th>Week of Withdrawal</th>
<th>Amount of Total Tuition Charge Refunded</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before end of 2nd Friday</td>
<td>100%</td>
</tr>
<tr>
<td>Before end of 3rd Friday</td>
<td>80%</td>
</tr>
<tr>
<td>Before end of 4th Friday</td>
<td>60%</td>
</tr>
<tr>
<td>Before end of 5th Friday</td>
<td>40%</td>
</tr>
<tr>
<td>Before end of 6th Friday</td>
<td>20%</td>
</tr>
<tr>
<td>Thereafter</td>
<td>None</td>
</tr>
</tbody>
</table>

Any student who reduces his or her semester hours to less than 12 with written approval of the registrar's office shall receive a refund for the difference in total tuition charges according to the above schedule. Any student who withdraws completely during the first full week of classes will be charged an administrative fee of $200.

**Housing**

Any student who desires to withdraw for personal reasons during the semester shall receive a refund of the unused charges less $150, provided he or she has obtained written approval from the student development office. Such withdrawals shall be dated as of the end of the calendar week in which the student moves out of the room.

**Board**

Any student who desires to withdraw for personal reasons during the semester shall receive a refund of the unused charges provided he or she has obtained written approval from the student development office. Such withdrawals shall be dated as of the end of the calendar week in which the student moves off campus.

**Title IV Aid Recipients**

If a student withdraws or is expelled from Trinity before 60 percent of the semester has passed, then the College or the student may be required to return some of the federal funds awarded to the student. If the student received financial assistance from outside of his/her family, then a portion of the refund will be returned to the grant, scholarship, or loan source from which the assistance was received.

If a student will be withdrawing, then the student should visit the registrar's office and complete the appropriate forms.

Trinity's refund policy exists for calculating the refund of institutional charges. The federal "Return of Title IV Funds" formula dictates the amount of Federal Title IV aid that must be returned to the federal government by the College and the student. The federal formula is applicable to a student receiving federal aid other than Federal Work Study if that student withdraws at or before the 60 percent point of time in the semester. The student also may receive a refund of institutional charges through Trinity's refund policy. The amount of refund of institutional charges will be the greater of the amount the College must return to federal Title IV programs or the amount determined by Trinity's refund policy.

The federal formula requires a return of Title IV aid if the student received federal financial assistance in the form of a Pell Grant, Supplemental Educational Opportunity Grant, Federal Stafford Loan, or PLUS Loan, and withdrew on or before completing 60 percent of the semester. The percentage of Title IV aid to be returned is equal to the number of calendar days remaining in the semester divided by the number of calendar days in the semester. Scheduled breaks of more than four consecutive days are excluded.

If any funds are to be returned after the return of Title IV aid, they will be used to repay Trinity funds, state funds, other private sources, and the student in proportion to the amount received from each non-federal source as long as there was no unpaid balance at the time of withdrawal. If there was an unpaid balance, then all aid sources will be repaid before any funds are returned to the student.

Note: If funds are released to a student because of a credit balance on the student's account, then the student may be required to repay some of the federal grants if the student withdraws.

Worksheets used to determine the amount of refund or Return of Title IV aid are available upon request. Examples are also available in the financial aid office.

**Appeal Process**

Any student who desires may appeal the calculated refund to the vice president for business affairs, outlining any special circumstances that should be considered.
Student Classification
Students who have been admitted to the College are classified according to the number of semester hours of credit they have earned as follows:

- Freshman: fewer than 30 hours
- Sophomore: at least 30 but fewer than 60 hours
- Junior: at least 60 but fewer than 90 hours
- Senior: 90 hours or more

Students are unclassified if they have not been admitted as degree-seeking students but are enrolled on a limited basis.

Academic Adviser
When a student is admitted to the College, a faculty adviser is appointed to give the student assistance in developing a program and to monitor progress toward completion of that program. During registration periods before each semester, the adviser will help select courses that meet the goals of the student’s program. The initial adviser appointment is made on the basis of the student’s interests as stated on the application form. A student may visit the registrar’s office to request a change of adviser whenever interests or goals change.

Student Load
The student load is normally 16 hours per semester. A heavier load is permitted only with the approval of the adviser. A student’s previous academic record and current employment responsibilities are important factors in the number of semester hours he or she is permitted to take. Twelve hours is the minimum number for classification as a full-time student.

Attendance
Students are expected to attend all class and laboratory sessions for which they are registered. While faculty members are not required to take attendance, no system of “cuts” is recognized. A student’s attendance record will affect the instructor's evaluation of his or her classwork. Any anticipated absence on the part of the student must be cleared with the instructor. Penalty or makeup privileges for absences are left to the discretion of the instructor.
In the case of a prolonged absence, it is the duty of the student to notify his or her instructors and the office of the dean of students. Faculty members are requested to bring to the attention of the dean of students an absence on the part of a student that can be considered detrimental to the student's academic performance.

Each instructor is expected to emphasize in the syllabus the importance of class attendance and to inform the students of policies and procedures regarding absences, makeup privileges and the extent to which class attendance will be factored into the final grade for the student’s performance. It is the responsibility of the student to inform the instructor of the reasons for all class absences.

All student absences due to athletics participation, musical group performances, field trips, attendance at conferences, etc., must be cleared through the registrar’s office prior to that occasion by the instructor, coach, or director. Such absences shall be requested at least two weeks in advance of the date(s) desired and shall include the names of all persons involved and the pertinent details relating to dates, times, and schedules. The registrar’s office will distribute this information to the faculty.

 Auditing
A student may elect to audit a course rather than take it for credit. Permission to audit a course must be obtained from the registrar. An auditor may attend all classes and participate in all activities of the course but does not have an obligation to fulfill any of the requirements of the course, nor does the instructor have an obligation to evaluate the auditor’s work. Full-time students are permitted to audit a course at no cost. All others will be charged $90 per credit hour.

 Grading System
One of the following grades will be issued for each course taken at Trinity and will appear on the official transcript:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Interpretation</th>
<th>Grade Points Per Semester-Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Unsatisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
<tr>
<td>H/P/F</td>
<td>Honors/Pass/Fail in selected courses</td>
<td>0</td>
</tr>
<tr>
<td>AU</td>
<td>Audit</td>
<td>0</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete (hours included in GPA calculation)</td>
<td>0</td>
</tr>
<tr>
<td>W</td>
<td>Authorized withdrawal (2nd - 6th week of the semester)</td>
<td>0</td>
</tr>
<tr>
<td>WP</td>
<td>Authorized withdrawal passing (after 6 weeks of the semester)</td>
<td>0</td>
</tr>
<tr>
<td>WF</td>
<td>Authorized withdrawal failing (after 6 weeks of the semester)</td>
<td>0</td>
</tr>
<tr>
<td>R</td>
<td>Repeated course</td>
<td>0</td>
</tr>
</tbody>
</table>

Plus (+) grades add 0.3 grade points per hour and minus (-) grades subtract 0.3 grade points per hour.

Grade-point average is determined by dividing the number of grade points earned by the number of semester hours attempted. To meet graduation requirements, a student must earn at least 125 hours with a minimum cumulative grade-point average of 2.0.

 Academic Honors
Academic achievement of full-time students is recognized each semester by publication of a Dean’s List. To qualify for this honor, a student must achieve a semester GPA of 3.5 or better.

Academic achievement upon completion of a degree program is recognized at graduation and on the final transcript in the following categories:

- Graduating with honors: GPA of 3.500 to 3.699
- Graduating with high honors: GPA of 3.700 to 3.849
- Graduating with highest honors: GPA of 3.850 or higher

To qualify for one of these honors, the graduating student must have completed a minimum of 60 semester-hours at Trinity.

 Repeated Courses
The policy for repeating a course to improve a previously earned grade includes the following provisions:

1. The repeated course is subject to regular registration and financial policies.
2. The higher grade earned will be used to determine the student’s GPA and academic status. The lower grade will be shown along with a notation indicating a repeated course, which will no longer affect the calculation of the cumulative GPA.
3. A grade earned at Trinity cannot be replaced by transferring the equivalent course from another college.

 Changes in registration, withdrawals from courses, and requests for an incomplete grade must be done in the registrar’s office at the student’s initiative.

 Changes in Registration
Through the first full week of classes, courses may be dropped or added without any charge for the registration change, but appropriate tuition charges will apply. After the first full week a charge will be assessed for any change in registration. After the 10th day of a semester, students may add a course only with permission of the instructor and the registrar.
Withdrawal from Courses
A student may withdraw from a course without a transcript entry through the first full week of the semester. After the 10th day of the semester, every registered course will have a transcript entry. Normally a student is not permitted to withdraw from a course after the 10th week of the semester.

Incomplete Grades
A temporary grade of I is given only when the student is not able to complete required coursework for reasons deemed acceptable by the instructor. A student must request permission from the instructor to receive an I grade and identify, with the instructor, the precise work that remains to be done and the deadline for completion. The work must be made up within the time period agreed upon by the student and instructor, but in no case may it be more than 60 days after the end of the semester in which the I grade was given. If the work is not made up within the time period allowed, the instructor will submit a grade on the basis of the student’s performance in the course to date, and this grade will be recorded on the student’s transcript. The hours for each I grade are counted as attempted hours in calculating the GPA.

Academic Probation
A student who fails to meet either the minimum required cumulative grade-point average or the minimum standards for academic progression at the end of a given semester will be placed on academic probation for the following semester. During the probationary semester, the student will be permitted to take no more than 13 semester hours.

The minimum GPA levels required to be in good academic standing are these:

<table>
<thead>
<tr>
<th>Cumulative Hours Attempted</th>
<th>Minimum GPA Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 29</td>
<td>1.5</td>
</tr>
<tr>
<td>30 - 59</td>
<td>1.7</td>
</tr>
<tr>
<td>60 - 89</td>
<td>1.9</td>
</tr>
<tr>
<td>90 or more</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Freshmen who were admitted on probation may be permitted a second semester of probation if they earn at least a 1.0 GPA.

The minimum standards for academic progression at the end of a semester are based on the number of cumulative semester hours earned as a percentage of the cumulative semester hours attempted up to that point. This includes all courses with a W, WP, or WF grade as well as all repeated courses.

To be in good academic standing, the student must satisfy the following:

<table>
<thead>
<tr>
<th>Cumulative Hours Attempted</th>
<th>Minimum Percentage Successful Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 30</td>
<td>50%</td>
</tr>
<tr>
<td>31 - 45</td>
<td>55%</td>
</tr>
<tr>
<td>46 - 60</td>
<td>60%</td>
</tr>
<tr>
<td>61 - 75</td>
<td>65%</td>
</tr>
<tr>
<td>76 - 90</td>
<td>70%</td>
</tr>
<tr>
<td>91 - 105</td>
<td>75%</td>
</tr>
<tr>
<td>106 - 120</td>
<td>80%</td>
</tr>
<tr>
<td>121 - 150</td>
<td>85%</td>
</tr>
</tbody>
</table>

Academic Dismissal
The following conditions regulate the academic dismissal of a student from the College:

1. A student who fails to meet the minimum GPA requirement or the minimum progression standard at the end of a probationary semester will be dismissed from the College.

2. Any student, at any level, who earns less than a 1.0 GPA in any semester will be dismissed from the College.

3. Students who are dismissed at the end of the fall semester will not be eligible to participate in the interim session for that year.

Appeal of Academic Dismissal
A student who wants to appeal a dismissal decision must observe the following procedures:

1. The appeal must be made in writing and addressed to the registrar within five days after receiving notice of dismissal. The registrar will refer the appeal to a hearing committee for disposition before the registration date of the next semester.

2. The basis of the appeal must be truly extraordinary circumstances such as serious and documented illness or injury, family crisis, or unique academic difficulty for which a specific remedy plan has been included in the appeal letter.

Students readmitted on the basis of an appeal will be on probation and subject to the probation policy stated above.
ACADEMIC PROGRAM

General Educational Assumptions

The specific courses that make up an individual student’s degree program are a unique selection depending upon that person’s educational interests and needs. In consultation with a faculty adviser, each student is encouraged to choose those courses that best meet his or her educational and vocational goals.

One of the guiding principles of program planning at Trinity is that every student should study one or two areas in sufficient depth to master that discipline beyond the level of a general survey and build the foundation for further academic or vocational work. Every student, therefore, is required to complete a major program, and most are required to complete a minor area as well.

A good education includes more than a major. A well-educated person must have knowledge and understanding that includes more than specialization, and true meaning can be grasped only when knowledge is seen in the context of a coherent whole. Thus all students, in all programs, are required to complete a set of courses outside the major, both in fixed requirements (the core curriculum) and distributive electives.

The core curriculum is based on the premise that certain studies are foundational to all academic work: philosophy, theology, history, English composition, and literature. Students are encouraged to complete these courses in the early years of their studies, so that major courses can build on the knowledge and insights gained in these foundational studies. The general distribution requirements address the need for breadth and variety to enable students to appreciate the diversity of the creation and discover interests and aptitudes beyond their major fields of study. Finally, because the concept of vocation is viewed at Trinity as a calling by God to service in one’s occupation, students are helped to understand the dynamic application of their studies to lives of service in their chosen vocations. The field education requirement enables students to experience the workplace with the aim of fulfilling this goal.

General Educational Outcomes

The Trinity faculty and staff view education as an integrated whole, with each component complementing and building upon the others. This integration pertains to all areas of the academic program as well as student life outside the classroom. It is our goal that each student will grow as an individual at Trinity, as a student, and as a member of the college community. It is our further expectation — and challenge — that each student will strive for excellence and seek with diligence to accomplish the goals of the Trinity experience. To that end, we articulate the following educational outcomes for the curriculum and student life. These outcomes are based on the principles and philosophy of education that underlie the perspective presented by Trinity, and they inform the general education requirements as well as infuse the theoretical foundations of the individual disciplines.

Based on the mission and purposes of Trinity Christian College, these learning outcomes represent the goals of the Trinity experience, including the major program, general educational requirements, professional preparation, and student activities outside the classroom. It is the aim of a Trinity education that graduates will exhibit, at a high level of competence and commitment, the following 15 outcomes in five broad areas.

Learning Outcomes and Educational Excellence

1. In the area of Biblical Perspective, the Trinity graduate will:
   a. Articulate how God is revealed in creation as well as in the Bible
   b. Apply the biblical framework of “creation-fall-redemption-new creation” to issues in the major field.
   c. Demonstrate an understanding of biblical principles of ethical integrity

2. In the area of Worldview Analysis, the Trinity graduate will:
   a. Analyze contemporary worldviews.
   b. Evaluate historic expressions of worldview.
   c. Articulate a Christian worldview in the major field of study.

3. In the area of Cultural Engagement, the Trinity graduate will:
   a. Value artistic and literary expression as articulation of cultural identity and a form of service to God.
   b. View participation in social and political institutions as integral to one’s personal role as citizen and servant of God.
   c. Analyze broad historical and cultural commitments and their implications for the major field of study.
   d. Work effectively with the concepts of mathematics and modern science that are basic to living as responsible Christians in a technological society.
   e. Assume responsibility for lifelong learning, personal and professional development, and personal wellness.

4. In the area of Effective Communication, the Trinity graduate will:
   a. Communicate competently in written and oral formats.
   b. Value competent written and oral expression as means of effective interaction and engagement in God’s world.

5. In the area of Diversity, the Trinity graduate will:
   a. Appreciate the significance of diversity in historical and cultural expressions.
   b. Analyze societal inequalities and the Christian’s role in working for social justice.
Honors Program
The Honors Program at Trinity seeks to challenge and support academically gifted students through seminars, unique opportunities within the major program, and participation in co-curricular activities. Requirements include at least 15 semester hours, as follows:

1. Four honors courses that satisfy general requirements:
   a. English 108 (Honors Writing), 3 hours
   b. Philosophy 108 (Honors Philosophy), 3 hours
   c. Two interim courses, 2 hours each. At least one honors interim is offered each year.

2. At least one honors seminar, to be taken in the sophomore, junior, or senior year, 3 hours.

3. At least two semester hours of honors work in the major. This requirement may be fulfilled by taking a designated honors course in the major, by taking an additional hour of honors credit attached to two regularly scheduled major courses, or by participating in the Vander Velde Junior Scholars program. Arrangements for fulfilling this requirement are made by contract with a supervising faculty member in the major and the director of the Honors Program.

Co-curricular activities. Honors students are invited and encouraged to attend a selection of on- and off-campus cultural, social, and intellectual events.

Admission and Retention Criteria
Incoming freshmen are invited to apply for admission to the Honors Program if they have a minimum ACT composite score of 28 and are either in the top 10 percent of their graduating class or have at least a 3.5 grade-point average (4.0 scale). Students who do not meet these criteria or who are not formally part of the program may apply to the director of the Honors Program for permission to enroll in honors courses.

Trinity students may apply after their freshman year if they have a cumulative GPA of at least 3.5. Transfer students who transfer fewer than 35 credits and have a minimum ACT composite score of 28 and at least a 3.5 GPA in college-level coursework may apply also. The Honors Committee will evaluate all applications on the basis of the applicants’ essays.

To remain in the Honors Program from year to year, students must earn at least a 3.3 cumulative GPA at the end of each academic year.

Honors Graduates
Students who satisfactorily complete the 15 semester hours of honors courses described above and have at least a 3.5 cumulative GPA upon graduation will have a notation added to their transcripts that they are graduates of the Trinity Christian College Honors Program. This recognition is in addition to a designation of graduation honors that is based on GPA alone.

General Graduation Requirements
All major programs at Trinity lead to the awarding of the bachelor’s degree, normally after four years of study. The bachelor of arts (B.A.) is granted to those completing requirements in the traditional liberal arts disciplines, and the bachelor of science (B.S.) is awarded in four specialized areas: accountancy, business, nursing (B.S.N.), and social work (B.S.W.). General graduation requirements are the same for each degree, except that a minor is not required for the B.S. The following requirements must be fulfilled to earn a degree from Trinity:

1. A minimum of 125 total semester-hours of credit with passing grades.

2. A minimum grade-point average (GPA) of 2.0 (C) in total attempted hours and in all courses applied to the major.

3. All students, upon entering Trinity, are required to participate in the First Year Forum program for one credit-hour.

FYF 111: First Year Forum
This course is designed to help new students transition academically and socially into the life of Trinity Christian College. It has three goals: to enroll students into an initial community of scholarship that contributes to active engagement in the learning process; to introduce students to Trinity’s vision of God’s world and their roles in that world; and to challenge students to be proactive in using their lives in service to God and His world. Students transferring in more than 30 hours of college credit will be placed in a specially designed section titled “Framing Your Future.”

4. A core curriculum of general education courses is required of all students and includes the following:
   a. 6 hours in theology. Students with a sufficient Bible knowledge background will take Theology 103, 104, and 105. Those with less Bible knowledge will take Theology 101 and 104 in the freshman year and 103 in the first semester of the sophomore year. These courses study the central themes of Scripture, which are foundational to Christian academic work, and examine the major Christian traditions.
   b. 6 hours in Philosophy 101-102, Philosophical Foundations. These courses treat foundational questions in a systematic manner and examine Western philosophical perspectives pertaining to God, reality, and humanity. 101 should be taken in the second semester of the freshman year and 102 in the first semester of the sophomore year. Students admitted to the Honors Program will take Philosophy 108 in place of Philosophy 102.
   c. 6 hours in History 103-104, Historical Foundations. These courses treat historical eras in the Western tradition and discuss the history of basic ideas and institutions within that tradition. This sequence is normally taken in the sophomore year.
2) one full year of college-level modern language study

3) one semester overseas

4) one semester in the Chicago Semester Program, with a cross-cultural internship.

k. 4 hours of interim courses — one two-hour course in two of the 10-day January interim periods, which are scheduled between the Christmas break and the second semester. Here, a student concentrates on a single course, providing an opportunity for alternative educational coursework that emphasizes non-traditional, experiential learning supplemental to the regular course offerings. This may involve sessions on campus, local field trips, and/or some long-distance travel, depending on the course selection.

Students who enter Trinity with 30 hours or more of transfer credit will be required to take only one interim.

5. Major and Minor:

Each student must complete at least one major and one minor program approved by the registrar for a B.A. degree, or complete at least one major in business, nursing, or social work for a B.S. degree. To be eligible to major in a department, students must maintain better than a C average in courses taken in that department in the freshman and sophomore years. General requirements for each major include a capstone experience, a field education course, and either a course or an acceptable alternate experience that satisfies the communications requirement of the general education program. Specific requirements for each major and minor can be found elsewhere in this catalog in the description of each department’s program. Students will have opportunities to select a major in the discipline of their choice in consultation with a faculty adviser.

1) Major programs include:

   Accounting
   Art Studio
   Art Education, K-12
   Biology
   Biology Education
   Business
   Business Communication
   Business Education
   Chemistry
   Chemistry Education
   Church/Ministry Leadership
   Communication Arts
   Computer Science
   Elementary Education
   English
   English Education
   Exercise Science
   History
   History Education
   Information Systems
   Mathematics
   Math Education
   Music - General
   Music - Performance
   Music Education, K-12
   Nursing
   Philosophy
   Physical Education, K-12
   Political Science
   Psychology
   Sociology
   Social Work
   Spanish
   Spanish Education
   Special Education
   Theology

   (note: a maximum of 10 hours of applied music or ensemble courses may be applied toward graduation except for music majors and minors)

2) one full year of college-level modern language study

3) one semester overseas

4) one semester in the Chicago Semester Program, with a cross-cultural internship.

k. 4 hours of interim courses — one two-hour course in two of the 10-day January interim periods, which are scheduled between the Christmas break and the second semester. Here, a student concentrates on a single course, providing an opportunity for alternative educational coursework that emphasizes non-traditional, experiential learning supplemental to the regular course offerings. This may involve sessions on campus, local field trips, and/or some long-distance travel, depending on the course selection.

Students who enter Trinity with 30 hours or more of transfer credit will be required to take only one interim.

5. Major and Minor:

Each student must complete at least one major and one minor program approved by the registrar for a B.A. degree, or complete at least one major in business, nursing, or social work for a B.S. degree. To be eligible to major in a department, students must maintain better than a C average in courses taken in that department in the freshman and sophomore years. General requirements for each major include a capstone experience, a field education course, and either a course or an acceptable alternate experience that satisfies the communications requirement of the general education program. Specific requirements for each major and minor can be found elsewhere in this catalog in the description of each department’s program. Students will have opportunities to select a major in the discipline of their choice in consultation with a faculty adviser.

This may involve sessions on campus, local field trips, and/or some long-distance travel, depending on the course selection.

Students who enter Trinity with 30 hours or more of transfer credit will be required to take only one interim.
2) Minor programs include:

- Accounting
- Art History
- Art Studio
- Biology
- Biopsychology
- Business
- Chemistry
- Church/Ministry Leadership
- Church Music
- Coaching
- Communication Arts
- Computer Science
- Economics
- Education
- English
- Graphic Design
- History
- Health Education
- Information Systems
- Mathematics
- Math Education
- Music
- Philosophy
- Physical Education
- Political Science
- Psychology
- Science, General
- Sociology
- Spanish
- Special Education
- Theatre
- Theology

6. Field education: Each student must complete a field education course in at least one major program. The objective of the field education program is to introduce each student to a professional application of the chosen major to a work situation off campus in the metropolitan area. While remaining a Trinity student, the student has an opportunity to relate academic learning to its concrete use in an actual setting similar to the work situation he or she will face upon graduation. This experience also gives the opportunity to test the Christian cultural perspective gained at Trinity against the direction and spirit of contemporary society at a time when students are still able to discuss questions and problems with professors. Field experience can be taken in a variety of ways depending on the major program. The number of semester-hours of credit earned is determined by the student’s adviser, with a general guideline of 40 clock-hours of experience for each semester-hour of credit. Students may register for field education in more than one semester but may earn no more than 12 semester-hours total for field education and/or internship. See major program requirements for the number of field education hours of credit that may be applied to a given program. If the placement agency offers to pay compensation, it is permissible for students to accept wages for their work.

A more intensive work-study experience is available in some departments through internships. These are semesterlong, full-time, experiential programs in which students are placed in supervised positions in appropriate agencies. Typical of such programs are student-teaching and the internship in business.

There is also the opportunity for a full semester of work and living off campus through Trinity’s Chicago Semester Program. Here, in cooperation with other colleges who send students to the program, students may engage in a personally designed and planned, full-time program of research, seminar work, and supervised professional work placement. This field opportunity may be applied for by all students regardless of major because the work placement is designed to meet the interests and academic needs of a variety of people.

Requirements for Transfer Students

1. Transfer students may use transfer courses with at least a grade of C to meet the general graduation requirements and specific program requirements if the registrar finds such courses to be equivalent to the necessary Trinity courses.

2. Transfer students must take English 102 or have it waived with an acceptable ACT or SAT score, by passing an English competency placement test, or by transferring in a course equivalent to English 103.

3. In order to receive a degree from Trinity, transfer students must meet all of the general requirements stated above with the following exceptions:

   a. Those entering Trinity with 30 or more transfer credits will be required to take only one interim course at Trinity.

   b. Those entering Trinity with either an associate of arts or associate of science degree approved by the registrar will receive waivers for any deficiencies in the English literature, mathematics, biological or physical science, social studies, fine arts, and physical education requirements, but must take the following:

      1) Philosophy 101 or 102 at Trinity;
      2) Theology 103 or 104 at Trinity;
      3) English 103 at Trinity or by transfer;
      4) History 103 or 104 either at Trinity or by transfer, unless two or more history courses are transferred in;
      5) one cross-cultural course at Trinity or by transfer;
      6) one interim course at Trinity.
Trinity Christian College is a unique four-year Christian college whose educational plan is built upon biblical principles and operates to effect a union of liberal arts education and career participation. This is accomplished in our various departments through on-campus as well as off-campus offerings that lead to majors and minors and a bachelor's degree. Some students intend to enter the world of work immediately upon completion of their degrees, while others intend to go on to graduate studies or professional schools. Some careers require rather specific education, while preparation for others can be accomplished with a variety of majors. Some of the possible pre-professional programs available at Trinity are in such fields as:

- Accounting and Business
- Education and Special Education
- Nursing
- Pre-Physical Therapy
- Allied Health Sciences
- Pre-Dentistry
- Pre-Law
- Pre-Medicine
- Pre-Seminary

Off-campus programs available are:

- American Studies*
- Australia Studies Centre*
- Chicago Semester
- Contemporary Music Center*
- China Studies*
- Environmental Studies
- Latin American Studies*
- Los Angeles Film Studies*
- Middle East Studies*
- Netherlands Studies
- Oxford Honors Program*
- Oxford Summer School*
- Russian Studies*
- Semester in Spain
- Summer Institute of Journalism
- Uganda Studies Program*

Programs marked with an asterisk (*) are offered by the Council for Christian Colleges and Universities, of which Trinity is a member.

The following section gives a descriptive list of the course offerings for each of Trinity’s departments with respect to possible majors and minors as well as the pre-professional programs and off-campus opportunities listed above.

While not every course is offered every semester, students will be able to plan their programs in consultation with an adviser so their individual objectives can be achieved.

The College reserves the right to withdraw or cancel a course if registration for it is deemed insufficient and if, in the judgment of the administration, its withdrawal does not seriously harm a student’s program.
ART AND DESIGN

John Bakker, M.F.A., department chairperson

“Art allows me to work through a variety of ideas and gives me the tools to engage in dialogue about any issue, such as current events, government, or even the discipline of art. The professors show a tremendous dedication to the Christian faith. They reiterate the need for more Christians who will create art that influences culture in a way that pleases God.”

Sam McCune ’06
Art Studio (South Holland, Illinois)

Trinity’s Department of Art and Design offers majors in art studio — fine art; art studio — graphic design; and art education; and minors in art studio, graphic design, and art history. Built on the creative and intellectual foundation of the fine arts, the art department offers concentrations of courses that can lead to graduate school in fine art or careers in the graphic arts. The program culminates with an internship and an exhibition in the College gallery.

The gallery program is central to the art department. The gallery exhibits work by a wide range of artists from internationally known to emerging artists. Students have opportunities to exhibit their own work on “The Wall,” the student gallery, and also in the College gallery. Student designers can work for the Student Design Organization doing design for campus events and occasionally for local businesses. In short, students begin to think and act like artists and designers long before their internships and graduation place them in the larger culture.

Art Studio — Fine Art

Students in the fine arts pursue a bachelor of arts in studio art. In order to prepare for graduate school, students take a set of foundational studio courses and concentrate on one medium—drawing, painting, sculpture, printmaking, ceramics, or photography. This work is grounded by a concurrent study of art history and art theory. The program culminates with an exhibition in the College gallery and an internship in an artist’s studio, an art gallery, or an art organization. This experience helps students connect their work in the classroom to the art world (60 hours, which includes an art history minor).
Required of all studio majors:

Art Studio — Graphic Design

Students in graphic design pursue a bachelor of arts in studio art. In order to prepare for entry-level positions in graphic design or advertising, students first take a series of fine arts courses that develop a creative and critical foundation; concurrently, design students take a concentration of six courses that build design and computer skills necessary for entry-level work in graphic design. The program culminates with an exhibition in the College gallery and with an internship at a design firm. This experience helps students connect their work in the classroom to the design community (60 hours, which includes an art history minor).

Art Education

Students intending to teach art at the elementary, middle, or secondary level pursue a bachelor of arts degree in art education. Students develop expertise in one medium and competence in four other media. The program culminates with an exhibition in the College gallery and a teaching internship. This experience helps students connect their work in the classroom to experience of teaching. Contact the director of teacher education for Illinois certification requirements and education department requirements. (40 hours)

108 Two-Dimensional Design
This beginning studio course is a study of principles for organizing line, shape, color, texture, and value. Projects may include work in cut paper, collage, drawing, paint, photography, or a digital medium. 3 hours

111 Beginning Drawing
This studio course covers basic drawing techniques in both dry and wet media. It also covers methods of controlling depth of field, from building deep space to maintaining flat surface of the paper. 3 hours

201 Beginning Painting
This studio course is designed to intensify students’ knowledge of color theory and introduce basic techniques for rendering in paint. The final section of the course deals with personal imagery and the exploration of paint quality and surface. Prerequisites for art majors only: Art 108, 111 or 211. 3 hours

203 Beginning Sculpture
This studio course provides a base in the history of sculpture and physical construction of three-dimensional form. Course projects include plaster casting and construction in wood, clay, plaster, and metal. 3 hours

205 Beginning Printmaking
This studio course introduces students to relief, collograph, screen, or intaglio printing techniques. Art 111 or 211 recommended. Prerequisites for art majors only: Art 108, 111 or 211. 3 hours

207 Beginning Ceramics
In this studio course, students learn ways of working with clay, including hand-built forms and wheel-thrown construction. The course includes consideration of the ceramic form as decorative and sculptural design. Techniques in glaze calculation, firing, and glaze application also are covered. 3 hours

209 Digital Media
This is a studio course that explores ways to make art using the computer and related devices. The course will use the computer software Adobe Illustrator and/or Photoshop to create images on a variety of subjects. Prerequisite: Art 108. 3 hours

211 Figure Drawing
This studio course is an introduction to the figure using a variety of media. Significant attention is given to anatomical studies of skeleton and musculature. 3 hours
213 Beginning Photography
This studio course introduces black and white photographic techniques, materials, and darkroom processes. Students are introduced to the history of photography and theory. The course emphasizes image selection through design analysis and sensitivity to subjects. Students must provide their own 35mm single lens reflex camera with a full manual setting. Prerequisites for art majors only: Art 108, 111 or 211. 3 hours

215 Introduction to Graphic Design
This studio course applies principles of design to the organization of type and images. Students will learn concepts and skills basic to the practice of graphic design, including introduction to the computer drawing programs QuarkXPress and Adobe Illustrator. Does not satisfy fine art requirement. Prerequisite: Art 108. 3 hours

225 Typography
This studio course in graphic design explores the development of typography and layout from Gutenberg to the present. Working with page layout software QuarkXPress, students use their knowledge of type to design posters, brochures, annual reports, and books. Does not satisfy fine art requirement. Prerequisites: Art 108 and 215. 3 hours

230 Art History: Art and World Religions
This course covers the art of India, China, Japan, Arabia, Native America, and Africa, and Greco-Roman art and Christian art up to the Renaissance. Prerequisites: none. CCS. 3 hours

232 Art History: Renaissance and Rococo, 1400-1760
This lecture course studies the development of Renaissance styles. Students gain insight into the historical roots and spirit of Renaissance style. The course involves the student in analysis of Renaissance imagery, development through Italy and Northern Europe, and its development through Mannerism, Baroque, and Rococo. 3 hours

234 Art History: Neoclassicism to Surrealism, 1789-1945
This lecture course studies the rise of European modernism from the French Revolution and its expression in Neoclassicism to the School of Paris until its demise at World World II. This course explores the changes in art brought on by the Enlightenment’s influence on politics, and on the industrial and scientific revolutions of the 19th and 20th centuries. 3 hours

235 Art History: After 1945, Abstract Expressionism to the Present
This lecture course looks at American and European art from 1945 to the present: abstract expressionism and the responses it generated through the 1970s; post-modernism in the 1980s and ‘90s. 3 hours

301 Intermediate Painting
This studio course is a continuation of Art 201 in oil or acrylic paint. In the first half of the course, students focus on the ways in which the material quality of paint and the process of creation contribute to the meaning of art works. In the second half of the course, students explore the problem of scale and the development of personal imagery. Prerequisite: Art 201. 3 hours

303 Intermediate Sculpture
This studio course is a continuation of Art 203. It focuses on the 20th century problems in the relationship of sculpture to its site. Prerequisite: Art 203. 3 hours

305 Intermediate Printmaking
This studio course is a continuation of Art 205. Students focus on the print technique of their choice: relief, collagraph, screen, or intaglio. Prerequisite: Art 205. 3 hours

307 Intermediate Ceramics
In this studio course, a continuation of Art 207, students focus primarily on the potter’s wheel and develop a set of five or more glazes. 3 hours

311 Figure Painting
This is a studio course that builds on students’ experiences of drawing the figure by working in paint and color. The course begins with rendering the figure accurately in paint and moves on to expressive and formal uses of the figure. Prerequisites: Art 201 and 211. 3 hours

313 Intermediate Photography
A continuation of Art 213, this studio course in black and white photography focuses on developing a series of related images concerned with formal issues or the problems of photojournalism. Prerequisite: Art 213. 3 hours

315 Intermediate Graphic Design: Advertising
This studio course is a continuation of Art 215. It focuses primarily on problems in advertising. Students will master Adobe Photoshop, a photo manipulation program. Does not satisfy fine art requirement. Prerequisites: Art 208, 215. Art 225 is recommended. 3 hours

331 Aesthetics
This is a lecture course designed to acquaint students with fundamental questions concerning the nature of art and the character of aesthetic activity. It is identical to Philosophy 331. Prerequisites: Philosophy 101 and 102. 3 hours

345 Advanced Graphic Design: Web Design
This studio course is a continuation of Art 215, 225, and 315, and focuses on Web site design. It introduces HTML coding and the code editor, Dreamweaver. Prerequisites: Art 108, 215, and 315. 3 hours
348 Dutch Art and Architecture
Concentrated study of major regional and international styles in painting, sculpture, and architecture of the late 19th and 20th centuries. Based on observations in museums, galleries, and the environment. Offered in connection with the Netherlands Study Abroad program. 3 hours

349 Advanced Studio: Drawing
This advanced studio course will enhance expertise in drawing and meets with other advanced studio and topics courses. Students will develop a series of images/objects that relate their work in previous courses to the history of art and aesthetic theory more explicitly. Images from this course will be suitable for submission to graduate school. Prerequisites: sophomore standing and completion of two courses in art history/aesthetics. This course may be repeated. 3 hours

351 Advanced Studio: Painting
This advanced studio course will enhance expertise in painting, and meets with other advanced studio and topics courses. Students will develop a series of images/objects that relate their work in previous courses to the history of art and aesthetic theory more explicitly. Images from this course will be suitable for submission to graduate school. Prerequisites: sophomore standing and completion of two courses in art history/aesthetics. This course may be repeated. 3 hours

353 Advanced Studio: Sculpture
This advanced studio course will enhance expertise in sculpture, and meets with other advanced studio and topics courses. Students will develop a series of images/objects that relate their work in previous courses to the history of art and aesthetic theory more explicitly. Images from this course will be suitable for submission to graduate school. Prerequisites: sophomore standing and completion of two courses in art history/aesthetics. This course may be repeated. 3 hours

355 Advanced Studio: Printmaking
This advanced studio course will enhance expertise in printmaking, and meets with other advanced studio and topics courses. Students will develop a series of images/objects that relate their work in previous courses to the history of art and aesthetic theory more explicitly. Images from this course will be suitable for submission to graduate school. Prerequisites: sophomore standing and completion of two courses in art history/aesthetics. This course may be repeated. 3 hours

357 Advanced Studio: Ceramics
This advanced studio course will enhance expertise in ceramics, and meets with other advanced studio and topics courses. Students will develop a series of images/objects that relate their work in previous courses to the history of art and aesthetic theory more explicitly. Images from this course will be suitable for submission to graduate school. Prerequisites: sophomore standing and completion of two courses in art history/aesthetics. This course may be repeated. 3 hours

359 Advanced Studio: Photography
This advanced studio course will enhance expertise in painting, and meets with other advanced studio and topics courses. Students will develop a series of images/objects that relate their work in previous courses to the history of art and aesthetic theory more explicitly. Images from this course will be suitable for submission to graduate school. Prerequisites: sophomore standing and completion of two courses in art history/aesthetics. This course may be repeated. 3 hours

360 Topics in Studio Art
This is a studio course in which students make work that explores a particular topic in the current art scene in depth. Prerequisites: One 300-level course in area of concentration and two art history courses. 3 hours

361 Topics in Art
This is an art course in which non-studio majors explore a particular topic in the current art scene in depth. Prerequisites: Art 234 or 235. This is a non-studio companion course to Art 360 for art history minors. 3 hours

380 Methods for Teaching Art in Grades K-8
Students should expect to cover theories of art education for grades K-8, their implications for curriculum design, producing subsequent lesson, unit, and curriculum plans. This course links curriculum planning to budget preparation, ordering, and distributing materials. 2 hours

381 Methods for Teaching Art in Grades 6-12
Students should expect to cover theories of art education for grades 6-12, their implications for curriculum design, producing subsequent lesson, unit, and curriculum plans. This course links curriculum planning to budget preparation, ordering, and distributing materials. 2 hours

399 Independent Study
Projects are selected from students’ major interests. Prerequisite: permission of the department. 2-9 hours

400 Field Education
Must be arranged with the department prior to registration. No more than three hours of credit may be applied to the 54-hour studio total. Remaining hours may be applied to general electives. 3-9 hours

420 Senior Seminar
This is a seminar in which students prepare for their senior show. It includes work in the students’ areas of concentration, preparation of an artist’s statement, an introduction to professional practice, readings in current topics in the discipline, and a review of the implications of Reformed practice in the arts beyond Trinity. Prerequisites for art studio majors: completion of concentration, two art history courses, and Art 331. Prerequisites for art education majors: completion of an intermediate studio course, art history/aesthetics requirement. 3 hours
The biology department offers complete programs for students wanting to major or minor in biology as well as courses needed for a wide variety of careers in the health sciences. The 100-level courses are open to all students. Biology 205 and 206 provide required background for many careers in allied health sciences and are of particular interest to students in physical education, psychology, and elementary education. There are opportunities for individual research and independent study for upper-level students, and field experience in laboratories or other appropriate agencies as part of the field education program in the senior year.

A biology major may be used as preparation for entrance to advanced training or direct entrance into a career. Three tracks are available. The general biology track is designed for students seeking entry into jobs requiring a general biology background, medical school, or a graduate school program requiring a general background in biology. The ecological track is designed to prepare students for job entry or graduate school work in ecological areas. The allied health science track is for students seeking entry into various allied health science programs such as physical therapy, medical technology, etc. Some students in this track may gain entry into allied health schools before completion of the program.

The secondary biology education major is designed for teachers in grades 6 through 12. This program meets the major graduation requirement only for students completing the secondary education certification program. The student-teaching experience satisfies the field education requirement.

Students desiring to enroll in courses offered by the biology department should have completed high school courses in biology and chemistry. Those planning for a major or minor in biology are urged to complete at least three years of high school mathematics and one year of high school chemistry and physics.

**Biology Major Tracks**

The oral communication general education requirement is met by making presentations in various biology courses. The capstone requirement is met through participation in the Science Majors Seminar.

The general biology track consists of 64 hours:

**Required biology courses:**
- BIOL 110 Introduction to Biology 4 hours
- BIOL 111 Survey of Plants and Animals 4 hours
- BIOL 201 Ecology 4 hours
- BIOL 306 Cell and Molecular Biology 4 hours
- BIOL 391 Science Majors Junior Seminar 1 hour
- BIOL 392 Science Majors Senior Seminar 1 hour
- BIOL 400 Field Education 2-4 hours

Elective courses. Students must complete 12 hours of electives, which must be at the 200- or 300-level; at least 8 hours must be at the 300-level. All must include laboratories.

**Required cognate courses:**
- MATH 111-112 Calculus 8 hours
- CHEM 103-104 Fundamentals of Chemistry 8 hours
- CHEM 205-206 Organic Chemistry 8 hours
- PHYS 121-122 General Physics 8 hours

Recommended: Mathematics 151, Statistics.

The ecological track consists of 65-70 hours:

**Required biology courses:**
- BIOL 110 Introduction to Biology 4 hours
- BIOL 111 Survey of Plants and Animals 4 hours
- BIOL 201 Ecology 4 hours
- BIOL 306 Cell and Molecular Biology 4 hours
- BIOL 391 Science Majors Junior Seminar 1 hour
- BIOL 392 Science Majors Senior Seminar 1 hour
- BIOL 400 Field Education 2 hours

Elective courses. Students must complete 12 hours selected from the following:

- BIOL 204 Microbiology 4 hours
### Required cognate courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 121-122</td>
<td>General Physics</td>
<td>8</td>

<td>2</td>
</tr>
</tbody>
</table>

Other courses that may be needed for specific programs:

- PSYC 123: Life Span Development (3 hours)
- COMM 101: Fundamentals of Public Speaking (3 hours)
- BIOL 244: Medical Terminology (1 hour)

### The secondary biology education major consists of 60 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 110</td>
<td>Introduction to Biology</td>
<td>4</td>
</tr>
<tr>

</tr>
</tbody>
</table>

**Mathematics 101 or high school equivalent. Note: Mathematics 101 does not meet the College’s general education requirement. Mathematics 150 or 151 are recommended highly.**

Students with a teaching major in biology education will minor in education and follow the education minor course requirement as listed in the education department section of the catalog.
The biology minor consists of 20 hours:
BIOL 110 Introduction to Biology 4 hours
BIOL 111 Survey of Plants and Animals 4 hours
BIOL 201 Ecology 4 hours
Electives (must include laboratories) 8 hours

Recommended: two semesters of chemistry.

Courses offered by the biology department generally consist of both lectures and laboratory work each week.

100 Introduction to Biological Science
This course provides an introduction to the life and environmental sciences. The characteristics of living things and their relationships to each other are emphasized. Topics include cell structure and function, genetics, life cycles of plants and animals, the structure and function of animal organ systems, the functioning of ecosystems, and human impacts on ecosystems. The history of and methods used in science are considered. This course is designed primarily for students in the elementary education program. Because of content overlap, students cannot receive credit for Biology 100 if they take Biology 110 or 111. 3 hours

101 Human Biology
This course begins a survey of organic compounds and cell structure and function. It proceeds through a systematic study of the human body emphasizing both normal and diseased states. The course covers human nutrition, exercise, reproduction, growth and development, and the spread of disease. Ethical issues raised by modern technology and human ecology are included. Because of content overlap, students cannot receive credit for Biology 101 if they take Biology 205 or 206. 3 hours

102 Environmental Science
This course covers ecology principles related to population, ecosystem, and biosphere levels of organization. It then applies these principles to understand environmental issues brought on by the 20th century exponential growth in human population and human resource consumption. Because of content overlap, students cannot receive credit for both Biology 102 and 201. 3 hours

110 Introduction to Biology
An introduction to biological principles and processes common to living organisms. Topics covered include basic cell biology, biochemistry, photosynthesis, respiration, cell division, gene regulation, and principles of genetics and evolution. 4 hours

111 A Survey of Plants and Animals
This course consists of surveys of the plant and animal kingdoms. Taxonomic relationships and physical, morphological, and behavioral adaptations of organisms are emphasized. 4 hours

201 Ecology
A study of the concepts and principles of ecology at various levels of organization. Laboratory work emphasizes field studies and includes two Saturday field trips. Prerequisites: Biology 110 and 111. 4 hours

204 General Microbiology
A study of structures, metabolism, and genetics of microorganisms. Pathogenic relationships with humans and body defense mechanisms are studied. Laboratory work involves isolation, culture, identification, and antibiotic sensitivities of microorganisms. Prerequisites: one year of chemistry and one course in biology. 4 hours

205 Human Anatomy and Physiology
This course is designed for students interested in allied health sciences and others who wish to know the structure and function of the human body. It begins with a brief introduction to cell structure and function, body organization, and tissue components. A systematic study of the integumentary, skeletal, muscular, nervous, and sensory systems follows. The course is designed as an introductory course that, along with Biology 206, constitutes a complete survey of the human body. Prerequisite: sophomore standing or permission of instructor. 4 hours

206 Human Anatomy and Physiology
A continuation of Biology 205, this course covers basic genetics and the endocrine, digestive, respiratory, circulatory, excretory, and reproductive systems. Prerequisite: Biology 205. 4 hours

244 Medical/Biological Terminology
Basic biological and medical terminology is reviewed, including the construction of words from Greek and Latin word elements. Medical terminology as used in the allied health sciences is emphasized. The course is largely taught by the self-study method. It does not meet the requirements of the education program. 1 hour

303 Genetics and Evolution
An investigation of the principles of inheritance with emphasis on the nature of genetic material, transmission of genetic material, and its manifestation. Adaptation and natural selection are discussed. Prerequisite: 8 hours in biology, including Biology 306. 4 hours

305 Immunology
Introduction to the structure, development, and function of the immune system with an emphasis on mammalian models. The course focuses on the cellular and molecular regulation of the immune system in health and disease. Topics include recognition of antigen, development of lymphocyte repertories, innate and adaptive immune responses, and pathogenic strategies of common human infectious agents. Laboratory sessions will include diagnostic bacteriology, analysis of immune system function, and biotechnology uses of immunoglobulins. Prerequisite: Biology 306. 4 hours
Environmental Studies Program
An environmental studies program is available through the AuSable Institute of Environmental Studies at Mancelona, Michigan. Students register for courses at Trinity and receive credits directly on their Trinity transcripts. Vocational certification is available from the institute in the following areas: naturalist, land resources analyst, water resources analyst, and environmental analyst. Some scholarship money to attend AuSable is available.

Two sessions are offered each summer. Normally, a student takes two courses per session. Each course carries three semester-hours of credit. A list of courses follows:

- **Land Resources** (AuSable Biol./Geol./Geog. 301)
- **Animal Ecology** (AuSable Biol. 321)
- **Fish Biology and Ecology** (AuSable Biol. 342)
- **Insect Biology and Ecology** (AuSable Biol. 312)
- **Aquatic Biology** (AuSable Biol. 322)
- **Field Botany** (AuSable Biol. 311)
- **Limnology** (AuSable Biol. 302)
- **Natural Resources Practicum** (AuSable Biol./Geog. 303 or 304)
- **Directed Individual Study** (AuSable Biol./Chem./Geog. 390)
- **Winter Biology** (AuSable Biol. 310)
- **Winter Stream Ecology** (AuSable Biol. 346)
- **Ecology of the Indian Tropics** (AuSable Biol. 427)
- **Natural History in Spring** (AuSable Biol. 361)
- **Ornithology** (AuSable Biol. 305)
- **Woody Plants** (AuSable Biol. 315)
- **Advanced Field Biology** (AuSable Biol. 411)
- **Plant Ecology** (AuSable Biol. 477)
- **Natural History of the Pacific Northwest** (AuSable Biol./Geog. 266)
- **Marine Invertebrates** (AuSable Biol. 377)
- **Natural History of the Chesapeake** (AuSable Biol./Geog. 267)
- **Mangrove Ecosystem Ecology** (AuSable Biol. 321)
- **Restoration Ecology** (AuSable Biol. 482)
- **Field Botany** (AuSable Biol. 311)
- **Marine Mammals** (AuSable Biol. 359)
- **Birds of the African Tropics** (AuSable Biol. 307)
- **Tropical Botany** (AuSable Biol. 319)
- **Mammals of East Africa** (AuSable Biol. 329)
The Natural Resources Practicum or Directed Individual Study may be taken in place of Biology 400 as a way to meet the field education requirement for a biology major. Students should see their adviser concerning specifics of the program each summer.

Several opportunities are available through our membership in the Associated Colleges of the Chicago Area (ACCA). Students register, pay tuition, and receive credit at Trinity for all courses.

The following course is available each spring semester at Shedd Aquarium:

362  Marine Biology
This course provides an introduction to marine biology. Classes are held one night per week. The course includes a one-week collecting trip in the waters off the Bahamas during the last part of May. Prerequisites: Biology 110 and 111. Biology 201 highly recommended. 4 hours

The following botany courses are offered at Morton Arboretum in Lisle, Illinois. Scheduling and course descriptions may vary from year to year. Specific information will be available from members of the biology department.

252  Economic Botany, 3 hours
253  Woody Plants of the Western Great Lakes Region, 4 hours
254  Introduction to Horticulture, 3 hours
351  Plant Ecology, 4 hours
355  Vascular Plant Taxonomy, 4 hours
357  Biology of Fungi, 4 hours
358  Plant and Soil Relations, 4 hours
360  Medical Botany, 3 hours

The biology division of ACCA offers a two-hour seminar-format course each semester. These courses consist of 10 lectures by experts drawn from universities and other institutions of the greater Chicago area. The seminars are held at a central location; Trinity provides transportation for its students. Topics vary from year to year as determined by the faculties of the schools involved. Topics covered in recent years are listed below. For current topics, contact the biology department.

Animal Behavior  Immunology
Biotechnology   Medical Ethics
Conservation Biology Toxicology
Endocrinology   Virology

Students may pursue either a bachelor of arts or a bachelor of science degree within the business program. The business major provides all business students with an introduction to the following major fields within the business community: accounting, economics, finance, human resources, small business management, marketing, and strategic management. The bachelor of science degree provides an opportunity for in-depth study beyond the business major in a specific professional field or career interest. The bachelor of arts degree permits the student to select a minor in another academic discipline.

Students intending to teach secondary business education can complete a certified major or minor in business education. Certification would be in the subject areas of accounting, economics, finance, human resources, small business management, marketing, and strategic management. The bachelor of science degree provides an opportunity for in-depth study beyond the business major in a specific professional field or career interest. The bachelor of arts degree permits the student to select a minor in another academic discipline.

Although formal admission to the business program is not required, continuation in the program is based upon the student’s performance in required courses within the business major. Students who are entering their junior year will have their progress reviewed by the business department. Students are required to have at least a 2.0 cumulative GPA in all business requirements to graduate.

Attendance will play a critical role in the student’s successful completion of the goals and objectives of the business program. Students are expected to attend all class sessions. Students who miss more than 20 percent of a course’s scheduled classes will be required to withdraw officially from the course.
Students planning to sit for the CPA examination are encouraged strongly to take the following additional courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 332</td>
<td>Taxes II</td>
<td>3</td>
</tr>
<tr>
<td>BUAD 343</td>
<td>Financial Statement Analysis</td>
<td>3</td>
</tr>
<tr>
<td>BUAD 351</td>
<td>Contract Law</td>
<td>3</td>
</tr>
</tbody>
</table>

Students are required to take nine credit-hours in their upper-level concentration at Trinity. Senior students who qualify may elect to serve an internship for academic credit. A minor is not required for the bachelor of science degree in accountancy.

Candidates sitting for the CPA examination in Illinois are required to have completed 150 undergraduate and/or graduate credit-hours successfully. Students are required to have 125 hours to graduate from Trinity Christian College. To fulfill the remaining 25 hours, the business department recommends Strategy I as the best professional, long-term strategy for the future professional accountant. Strategy II is a valid alternative.

**Strategy I:** Complete the traditional eight-semester, 125-hour college program at Trinity, with an undergraduate degree in accounting. In the second semester of the senior year, serve an internship with a public accounting firm.

After graduation, accept a position with a public accounting firm, enter a graduate program that can be completed at night on a part-time basis, and sit for the CPA exam in one and one-half to two years after graduation from Trinity. The additional 25 hours will provide significant progress toward an M.B.A. or M.S.A. degree.

**Strategy II:** Complete the entire 150 hours at Trinity and graduate with an undergraduate degree in accounting. To do this, the student would have to average 18 credit-hours per semester in the first seven semesters, complete six hours in interim, six hours in summer school, and a final semester of 12 hours (9-hour internship and one 3-hour class).

The additional 25 hours above and beyond the 125 needed for graduation should be completed within the 300-level courses offered in the business department or upper-level courses in computer science, mathematics, or another cognate area. This will enable the student to sit for the CPA exam in Illinois. Students who will take the CPA exam in another state should determine the specific requirements of that state.

**B.S. in Business (63 hours)**

In addition to the business major, the student is required to take an adviser-approved concentration of six upper-level courses. With assistance and guidance from her/his adviser, the student may concentrate in one of the following fields:
### Programs of Study

#### E-Business (*required)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>

<tr>
<td>BUAD 325</td>
<td>Online Marketing and Communications</td>
<td>3</td>
</tr>
</tbody>
</table>

Plus nine hours in upper-level business, computer science, or graphic design courses that:
1. complement BUAD 323, 325, and CPSC/IS 254 and
2. include six hours that must be completed within one of the three disciplines: business, computer science, or graphic design (examples: BUAD 333, BUAD 338, and ART 315; or BUAD 333, CPSC 111, and CPSC 112; or BUAD 338, ART 315, and ART 345) and
3. are approved by the business department

#### Global Business (*required)

#### Secondary Business Education Major

To complete the secondary business education program, the student must fulfill the following requirements:

1. general graduation requirements specified by the state of Illinois,
2. Trinity Christian College’s general graduation requirements,
Accounting Courses

221 Principles of Financial Accounting
An introductory course to the principles of financial accounting. A general ledger software package is utilized to provide students with the opportunity to work with a computerized accounting system. Topics to be covered include the accounting cycle, accounting systems and principles, current and long-term assets, current and long-term liabilities, owner's equity, and the preparation and interpretation of the balance sheet, income statement, and statement of owner's equity. Prerequisite: Business 111 or Mathematics 150 (or current enrollment) and sophomore standing. 3 hours

222 Accounting for Decision-Makers
This course extends the accounting knowledge acquired in the financial accounting course to the internal corporate environment. Students gain an understanding of the importance of accounting information to internal management decision-making. Spreadsheet and general ledger software packages are utilized to provide students with the opportunity to work with computer applications. Prerequisites: Accounting 221 and Computer Science 104. 3 hours

321 Intermediate Accounting I
The conceptual framework underlying the accounting interpretation of financial transactions is emphasized in this course, along with the political nature of the environment within which accounting regulations are developed. Accounting standards then are applied to investigate the complexities of accounting for corporate assets and liabilities. Prerequisite: Accounting 321. 3 hours

322 Intermediate Accounting II
This course is a continuation of the material presented in Accounting 321. The conceptual framework underlying accounting is utilized to analyze the accounting treatment of equity transactions, income taxes, pensions, and leases. The statement of cash flows is presented and the full disclosure principle is studied and implemented. Concepts of accounting information systems (AIS) are covered, which include AIS transaction processing, AIS controls, and security within AIS. Prerequisite: Accounting 321. 3 hours

331 Taxes I
In this course, students study and apply the basic principles of federal income tax law as it relates to individuals. Hands-on experience in the preparation of individual tax forms also will be provided. Prerequisite: Accounting 222. 3 hours
**Business Courses**

**111 Business Mathematics**
An introduction to the mathematics used in the following functional areas of business: accounting, economics, finance, management, marketing, and operations. Topics will include gross margin, profit margin, financial ratio analysis, discount and compound interest, depreciation and amortization, negotiable instruments, present and future value, bonds, annuities, and statistical analysis. Prerequisite: Mathematics 100 or three years of college preparatory high school mathematics. 3 hours

**121 Principles of Management**
An analysis of the managerial functions of planning, organizing, staffing, leading, directing, and controlling. Incorporated within the presentation of these functions is a discussion of our responsibilities as Christians. Attention also is given to career preparation. 3 hours

**131 Principles of Marketing**
An introduction to the activities and decisions faced by marketing managers in business and non-business organizations. Emphasis is placed on a basic understanding of the principles of marketing and on the operation of the marketing function. 3 hours

**211 Professional Communications**
The student will learn the skills essential to becoming a successful business communicator. The communication process, listening and speaking skills, and nonverbal communication will be explored in the context of a changing and diverse workplace. Students will be provided with an opportunity to integrate these skills into their communication for employment and preparation for a professional career. Prerequisites: Computer Science 103, 104, 106, and sophomore standing. 3 hours

**241 Business Finance**
A study of financial decision-making in the areas of working capital management, short-term and long-term financing, financing risk, and capital asset management. The topics of present value, future value, taxes, depreciation, and financial markets are presented also. Relevant discussion of personal financial management from a Christian perspective is incorporated. Prerequisites: Accounting 222 (or current enrollment) and Computer Science 104. 3 hours

**272 Principles of Transportation**
An introductory course examining the role, function, and importance of transportation in our economic system. Transportation will be examined from the perspective of passenger versus freight, domestic versus international, and mode: highway, railroad, air, water, and pipeline. Prerequisites: Economics 121, 122; Business 121, 131; and sophomore standing. 3 hours
311 Global Business
This course is designed to provide the student with an opportunity to acquire an understanding of how a U.S.-based organization can transact business successfully with its customers, suppliers, vendors, and resources providers located in foreign countries. The student will be given the opportunity to explore cultural environments, global politics, economic systems, and diversity from an international, regional, and global perspective. Prerequisites: junior or senior standing or permission of instructor. 3 hours

321 Strategic Management
An examination of the strategic management process. This course serves to integrate the knowledge the student has gained in previous business courses. Special emphasis will be placed on the management of information for business decisions. Prerequisite: junior standing. 3 hours

322 Small Business Management
This course focuses on the applications of the managerial principles of planning, organizing, directing, and controlling to the functional responsibilities of management in the areas of marketing, finance, personnel, and operations. The concepts of business strategy and competitive niche are explored through the use of small-business case studies. Students also will participate in a small-business computer simulation and develop a business plan for a small business. Prerequisites: Accounting 222; Business 121, 131, 241; Computer Science 106; and junior standing. 3 hours

323 E-Business
The student will be provided the opportunity to study the “new business model—the Internet model.” The new technologies available provide an opportunity for traditional business organizations to build a new business model that will allow them to establish a competitive advantage in the electronic marketplace. The components, linkages between components, and dynamics between components in the new model are the primary topics covered. Prerequisites: Business 121 and 323 and junior or senior standing or permission of instructor. 3 hours

325 Online Marketing and Communications
This course will provide the student with an opportunity to study the B2B and B2C business models. Incorporated within the study of these two new business models will be the topics of: Internet retailing, electronic catalogs, online banking and investing, Internet information services, retail and business online purchasing, Internet marketing, digital advertising, global e-business, and electronic communication security. Prerequisites: Business 131, and junior or senior standing or permission of instructor. 3 hours

326 Global Management
This course addresses the implementation of the management functions of planning, organizing, leading, and controlling, together with the behaviors required for effective cross-cultural management from the organizational perspective. Cross-cultural situations are evaluated in the context of recent global changes: the European Union, the North American Free Trade Agreement, the liberalization of Eastern Europe, and the formation of the Commonwealth of Independent States. Emphasis is placed on ways that the variable of culture interacts with other national and international factors to affect the managerial process. Prerequisites: Business 121, and junior or senior standing or permission of instructor. 3 hours

331 Consumer Behavior
An analysis of the basic concepts of consumer and organizational buying behavior from the standpoint of psychology, sociology, and social psychology. Emphasis is placed on current research findings and developments as well as practical marketing implications. Prerequisites: Business 131 and junior standing. 3 hours

332 Business Research Methods
The gathering and interpretation of customer, market, and business information in solving business problems through the use of current research methods. Emphasis on developing hands-on experience with questionnaire development, focus group research, and other practical business research methodologies. Prerequisites: Business 131, Computer Science 103, 104, 105, 106, and junior standing. 3 hours

333 Marketing Management
An analysis of advanced marketing problems with emphasis on decision-making. Product planning, promotion, pricing, and channels of distribution are integrated into complete marketing programs. Student teams will develop a marketing plan for a client. Prerequisites: Business 131, Computer Science 103 and 106, and junior standing. 3 hours

334 Sales Management
This course focuses on the procedures and techniques used by sales managers to implement and manage marketing and sales programs. Topics include sales planning, the staffing, training, and directing of the sales force; sales force analysis and evaluation; and social, ethical, and legal selling issues. Course concepts will be developed through case studies of actual selling situations. Prerequisites: Business 131 and 211, and junior standing. 3 hours

335 Product Management
This course focuses on the management of existing products during their life cycles and on the new product development process from the generation of new product ideas to commercialization and eventual withdrawal from the market. Emphasis is placed on applications, case analysis, and project work. Prerequisites: Business 131 and junior standing. 3 hours
336 Advertising and Sales Promotion
Advertising and Sales Promotion focuses on the planning, creation, evaluation, and use of both advertising and sales promotion techniques. The topics include setting advertising objectives and budgets; media and creative strategy; measuring advertising and promotion effectiveness; and legal, social, and ethical issues. Students will participate in the development of a summary media plan. Prerequisites: Business 131 and 211, Computer Science 106, and junior standing or permission of the instructor. 3 hours

337 Global Marketing (CCS)
Global Marketing examines the marketing opportunities, problems, and strategy development for the firm operating internationally. Analysis will be made of the firm’s marketing strategy and mixes in various societal and cultural settings. These topics will be examined through reading, case analysis, and class presentations. Prerequisite: junior standing. 3 hours

338 Services Marketing
This course covers the key topics in service marketing; included are topics such as understanding services, designing the service offering, service pricing policy, communications strategy, and service quality. The course includes a case approach using real-life current cases for each subject. Prerequisites: Business 131 and junior standing. 3 hours

339 Principles of Selling
Principles of Selling is intended to introduce students to the world of sales and selling products and services. Topics include the role of selling in the economy, prerequisites for successful selling, the sales process, selling and management practices, and the many social, legal, and ethical issues inherent in the field of sales. Prerequisites: Business 131 and junior standing. 3 hours

341 Financial Institution Management
A study of financial management, the U.S. financial system, and the relationship between financial management and our financial system. The principles of financial management that guide financial decision-makers, the institutions that participate in and aid the flow of funds from surplus spending units to deficit spending units, and the markets in which the funds are traded will be the primary focal points of the course. Prerequisites: Business 241, Computer Science 104, Economics 121, and junior standing. 3 hours

342 Financial Statement Analysis
The study and analysis of the statements produced in the financial accounting process. The primary objective is to analyze the income statement, the statement of cash flows, and the balance sheet from the perspective of the end users: the firm’s managers, stockholders, stakeholders, security analysts, suppliers, lending institutions, employees, labor unions, regulatory agencies, and the general public. The case study method will be used throughout the course. Prerequisites: Accounting 222, Business 241, Computer Science 104, and junior standing. 3 hours

344 Security Markets
This course is designed to cover the basics of investing, ranging from the descriptive materials on how securities are bought and sold to the theoretical materials on how securities are valued in an efficient financial market. Corporate securities, security markets, exchanges, and market mechanics will be discussed. The legal and ethical dimensions of investing will be incorporated into the presentations and discussions. Prerequisites: Accounting 222, Business 241, and junior standing. 3 hours

345 Risk Management and Insurance
This course is designed to provide a basic understanding of how insurance works and how the insurance industry operates. Topics covered include property and liability insurance, personal insurance, commercial insurance, financial instruments and services provided by the insurance industry, and risk management. Prerequisites: Business 241 and junior standing. 3 hours

346 Global Finance
This course is designed to provide an understanding of the financial needs, requirements, and opportunities of a U.S.-based multinational organization. Topics studied will include but are not limited to the following: the global financial environment, exchange rate management, financial risk management, and asset and liability management. Prerequisites: Business 344, Economics 305, and junior or senior standing or permission of instructor. 3 hours

351 Contract Law
A study of the laws related to contracts, contractual relationships, negotiable instruments, bailments, sales, agency and commercial paper. The Uniform Commercial Code (UCC) provides the legal framework for the course. Integrated within the course will be discussion cases to acquaint the student with the ethical issues from a Christian perspective. Prerequisite: junior standing. 3 hours

353 Legal Environment of Business
An introduction to the rapidly changing legal environment of business through (1) an explanation of the nature and functions of our legal system; (2) an integrated approach to ethics and global issues; and (3) a practical group of cases designed to assure that students understand legal issues in a manner that will be useful to them as Christian citizens and employees. Prerequisite: junior standing. 3 hours

361 Human Resource Management
This course will examine the field of human resource management and the nature of human resource activities in an organization. Current and future HR challenges, trends, issues, and practices will be explored as well as the HR management contribution to the strategic success of organizations. Topics will include HR planning and analysis, equal employment, staffing, HR development, and compensation and benefits. Prerequisites: Business 121 and junior standing. 3 hours
362 Human Relations in Organizations
An analysis through readings, case discussion, research data, and laboratory exercises of the conceptual framework for understanding human behavior in organizations. Emphasis on the development of personal knowledge and skills in interpersonal, group, and organizational relationships and activities. Prerequisites: Business 121 and junior standing. 3 hours

363 Employee Relations
This course provides an examination and evaluation of the workplace relationship between employer and employee and the role played by various institutions in defining that relationship. Maintaining effective relationships and working conditions and balancing employer's needs and employee's rights in the context of organizational objectives will be explored. Prerequisites: Business 121 and junior standing. 3 hours

365 Global Leadership
This course provides an understanding of the human resources needs, requirements, and opportunities of a U.S.-based multinational organization. Specific attention is given to the formulation of appropriate multinational human resource strategies. Topics covered will include but are not limited to the following: staffing policies, expatriate policies, global management development, and global leadership development. Prerequisites: Business 362, and junior or senior standing or permission of instructor. 3 hours

371 Operations Management
An introduction to the concepts, techniques, and applications of operation/production management, with practical applications in manufacturing and service organizations. The managerial issues will be combined with the technical tools and quantitative applications. This is an appropriate course for students in all functional areas of business who need a body of knowledge in P/OM to promote quality and productivity in their future jobs. Prerequisites: Accounting 222, Business 241, Math 150 and 151, and junior standing. 3 hours

380 Teaching Business Education in Grades 6-12
This course is designed to complement Education 380: General Education Methods. Students explore the educational parameters specifically related to teaching business-related courses in the high school environment. Students will be asked to acquire, evaluate, and implement the resources available for a typical business education course, and to use these resources within a structured educational environment. Prerequisites: acceptance into the teacher education program, and Education 380 or concurrent enrollment. 2 hours

399 Independent Study in Business
This is an opportunity for students to do guided independent research on selected topics particularly related to current business practice. It will be the student's responsibility to define and outline the research project and to arrange for a faculty supervisor. Departmental approval of the research proposal is required. Prerequisites: senior standing and 3.0+ GPA. 2-4 hours

401 Topics in Global Business
This course provides an opportunity to study the current critical issues and "hot topics" in global business. Topics may include but are not limited to the functional areas of management, marketing, finance, operations, technology, and economics. Students will be provided with the opportunity to conduct research in their particular areas of interest while working closely with one or more of the business department faculty. Prerequisites: junior or senior standing or permission of instructor. 2-4 hours

423 Organizational Consulting
A senior capstone course required of all business majors. The primary focus is on preparing the student for assimilation into the professional work force. Students, working in teams, will participate in an organizational consulting assignment in cooperation with their client, the Small Business Administration, and the Service Corps of Retired Executives. Meets field education graduation requirement. Prerequisites: Business 321 and a GPA of 2.0. 3 hours

425 Internship in Business
The student will spend a semester serving in an entry-level professional position in a business firm, under the direction of the firm and the business department. Responsibilities include periodic on-campus seminars. Prerequisites: senior standing and business department faculty approval. 4-9 hours

Economics Courses

121 Macroeconomics
A study of the choices societies must make regarding the use of resources. This course traces the historical development of economic society, evaluates the appropriateness of the market system for making economic decisions, and examines the United States economic system particularly as it addresses the problems of inflation, unemployment, and growth. 3 hours

122 Microeconomics
A study of economic choices made by individuals and organizations in a market economy. This course examines behavior of individuals and institutions and compares economic systems. Prerequisite: Economics 121 or permission of instructor. 3 hours

225 World Poverty and Economic Development (CCS)
A study of causes of widespread poverty, primarily in the Third World countries, and development of policies designed for its alleviation. Special emphasis is placed on the responsibility of First World institutions in addressing this issue. 3 hours

261 Labor and the Economy
A critical examination of the role of labor in the economy focusing on determination of wages and employment in the labor market and the resulting distribution of income. Prerequisites: Economics 121, 122, and Business 121. 3 hours
Chemistry

Louis Sytsma, Ph.D., department chairperson

“I enjoy the logic and predictability involved in chemistry because you always know what’s right and wrong. As I learn more about it, I’m in awe of what God has done in creating the world. I’m reminded that none of what we see has happened by accident.”

Joyce Ivwema ’06
Chemistry (South Holland, Illinois)

The chemistry major is designed to prepare students for professional careers in chemistry, medicine, and teaching, or for graduate studies. The program includes opportunity for research and independent study for upper-level students. There is opportunity for excellent field experience assignments in area laboratories or other agencies. Instrumentation in the chemistry labs is augmented by instruments available to chemistry students at Argonne National Laboratories. Appropriate laboratory fees may be established by the department.

The chemistry major consists of 48-50 hours:

Plus one of the following:

| CHEM 303 | Biochemistry | 4 hours |
| CHEM 305 | Advanced Organic Chemistry | 4 hours |
| CHEM 332 | Physical Chemistry II | 4 hours |
| CHEM 333 | Environmental Chemistry | 4 hours |
| CHEM 340 | Instrumental Methods of Analysis | 4 hours |

Program of Study

305 Money and Banking
The Federal Reserve System, commercial banking, money, monetary policy, and fiscal policy are discussed. Financial institutions are detailed and described operationally and the impact of current federal legislation is integrated into the course.
Prerequisites: Economics 121 and junior standing. 3 hours

306 Global Economics
Students will build on the foundation established in Economics 121 and study economics from a global perspective. The topics will include but are not limited to: comparative economic advantage, absolute advantage, trading blocs, free trade, trade barriers, tariffs, dumping, balance of payments, floating and fixed exchange rates, economic reform and transition, privatization, and macroeconomic stabilization.
Prerequisites: Economics 121, and junior or senior standing or permission of instructor. 3 hours

322 Entrepreneurial Service Learning
Students will design and implement economically focused projects for middle school and high school students that demonstrate how the free enterprise system and entrepreneurship function in our economic system. Students will be given an opportunity to implement these projects in an educational environment within the schools in the communities surrounding Trinity Christian College. This course will allow students to learn about the free enterprise system in a real working environment. This course will challenge students to use the knowledge they have obtained in the classroom to better their surrounding communities. Students may teach concepts, such as budgeting, accounting, and supply and demand. In addition, they may help mentor at-risk students or budding entrepreneurs get their plans off the ground. Prerequisites: Economics 121, junior/senior standing or permission of instructor. 3 hours

332 History of Economic Thought
This course is a representative study of the economic ideas that had a formative role in shaping economic theories and institutions from the Reformation to the present. This course is identical to History 353. 3 hours

399 Independent Study in Economics
This is an opportunity for the student to do guided independent research of selected topics particularly related to current economic conditions. It will be the student’s responsibility to define and outline the research project and to arrange for a faculty supervisor. Departmental approval of the research proposal is required. Prerequisites: senior standing and 3.0+ GPA. 2-4 hours

BUSINESS COMMUNICATION

See Communication Arts
102 Principles of Organic and Biochemistry
An elementary treatment of organic and biochemistry studying the fundamental classes of organic compounds and their syntheses and reactions, followed by a survey of the chemistry involved in living systems. One three-hour laboratory per week is included. The course emphasizes applications relevant to health sciences. Chemistry 102 does not count toward a chemistry major or minor. Prerequisite: Chemistry 101. 4 hours

103 Fundamentals of Chemistry
An introduction to the basic laws and theories of modern chemistry (including atomic and molecular structure, bonding, solids, liquids, gases, and solutions); stoichiometry, and thermodynamics. The laboratory work stresses quantitative experiments designed to illustrate basic laws. The course includes three lectures and one three-hour laboratory period per week. 4 hours

104 Fundamentals of Chemistry
A continuation of 103 includes equilibrium, electrochemistry, kinetics, and the descriptive chemistry of the elements. The laboratory work stresses equilibrium and the solution chemistry of the elements as illustrated by the techniques of qualitative inorganic analysis. Prerequisite: Chemistry 103. 4 hours

202 Quantitative Analysis
This course consists of two hours of lecture and six hours of laboratory per week. Approximately equal emphasis is placed on (1) a study of the theory underlying various analytical methods including equilibrium manipulation, electrochemistry, and optical methods of analysis, and (2) the mastery of the laboratory techniques needed for the routine analyses of unknowns, using classical methods as well as instrumental methods. Prerequisite: Chemistry 104. 4 hours

205 Organic Chemistry
This concentrated introduction to the chemistry of carbon compounds emphasizes the integration of descriptive chemistry with basic principles: bonding theory, reaction mechanisms, stereochemistry, acid-base relationships, and others. For the most part, aliphatic compounds are treated. The laboratory work, consisting of one four-hour laboratory period per week, introduces the student to various techniques and stresses preparative procedures of typical organic compounds. Prerequisite: Chemistry 104. 4 hours

206 Organic Chemistry
This continuation of 205 increases emphasis on the chemistry of aromatics, heterocycles, and “natural” products. The laboratory work is more quantitative and introduces the use and theory of various spectral methods. Prerequisite: Chemistry 205. 4 hours
303 Biochemistry
This study combines the intermediary metabolic pathways and corresponding chemical structure with an overview of enzyme mechanism and kinetics, bioenergetics, and macromolecular biosynthetic pathways. Students participate in a four-hour lab period each week. Prerequisites: Chemistry 206, Biology 306, or approval of instructor. 4 hours

305 Advanced Organic Chemistry
These lectures consist of a study of selected topics in advanced organic chemistry with considerable time spent on the use of spectral methods of analysis (infrared, ultraviolet, mass spectroscopy, nuclear magnetic resonance spectroscopy) in the qualitative identification of organic compounds. Laboratory work consists of classical separations, qualitative organic analysis, and use of spectral techniques to identify organic unknowns. Use of the chemical literature, including complete literature searches to aid in syntheses and subsequent reports, is emphasized. Prerequisite: Chemistry 206. 4 hours

310-319 Special Topics in Chemistry
Each fall, the chemistry division of the Associated Colleges of the Chicago Area (ACCA) offers a special course given in a seminar format by experts in that field. The class meets one evening per week at Argonne National Laboratory. The topic for fall 2005 is Chemistry 319: Food Chemistry. 2 hours

324 Individual Research
Must be arranged with a member of the chemistry department prior to registration. 2-4 hours

331 Physical Chemistry I
A study of gas laws, chemical and physical equilibria, thermodynamics, and kinetic molecular theory. Students participate in a four-hour lab period each week. Prerequisites: Chemistry 202 and Physics 212 or concurrent registration; Mathematics 112 or permission of instructor. 4 hours

332 Physical Chemistry II
This continuation of Chemistry I covers studies in kinetics with increased focus on mechanisms. It also discusses quantum theory with application to atomic and molecular structure, statistical mechanics/kinetic theory, and electronic, rotation/vibration, and magnetic resonance spectroscopies. Prerequisite: Chemistry 331 I. 4 hours

333 Environmental Chemistry
Principles and analysis of chemical movement and distribution in natural environments. Sampling and analytical methods are included for water, soil, and air. Students work in natural habitats and in the laboratory. Prerequisites: one year of General Chemistry and one semester of Organic Chemistry. This course is offered through Trinity’s affiliation with AuSable Institute of Environmental Studies at Mancelona, Michigan. See description of the program under the Biology listings. 4 hours

340 Instrumental Methods of Analysis
This course introduces the principles of spectroscopic, electrometric, and chromatographic methods of analysis and the types of instruments currently available. Several Argonne staff members describe the instruments they use, including strengths and weaknesses, and guide the student through basic uses of the instruments. Prerequisite: Chemistry 202. 4 hours

380 Teaching Chemistry in Grades 6-12
Students obtain experience in preparing and teaching laboratories and in facilities management. Prerequisites: junior standing, Education 203, and at least eight hours in chemistry. 2 hours

391 Science Majors Seminar
This seminar for junior science majors meets weekly during spring semester. It will cover the nature of scientific research, scientific publications, careers in chemistry, and ethical issues. Prerequisite: junior standing. 1 hour

392 Science Majors Seminar
This seminar for senior science majors meets weekly during the spring semester. Similar in format to Chemistry 391, this seminar will include scientific writing and preparing a paper for publication. Prerequisite: senior standing. 1 hour

399 Independent Study
Topics selected from student’s major interests. Prerequisite: permission of the department. 2-4 hours

400 Field Education
Must be approved by a member of the department prior to registration. 2-4 hours

Through our membership in the Associated Colleges of the Chicago Area (ACCA), students have opportunity to hear outside lecturers or participate in special group programs in chemistry (see Chemistry 319). Students also may present the results of laboratory or literature investigations at the annual ACCA student symposium. Students anticipating graduate study especially are encouraged to make such a presentation.
CHICAGO SEMESTER

The Chicago Semester is an off-campus program sponsored by Trinity Christian College together with five other Christian colleges in the Midwest and administered by Trinity. It offers qualified (2.5 or higher GPA required) juniors and seniors the opportunity to gain a semester's worth of credit, living and working in Chicago. Program design focuses on leadership training by challenging undergraduate juniors and seniors to integrate their classroom theory with professional work experience. Features of the Chicago Semester curriculum include the following: (1) a complete orientation process that familiarizes each student with the Chicago Semester program, the city of Chicago, and the world of work; (2) internships related to students' professional interests; (3) seminars on aspects of the urban phenomenon; and (4) extensive cultural exposure through scheduled fine arts activities. Students spend four days a week in an internship related to their career interest and academic major, and participate in seminars one day per week at the Chicago Semester's Loop Center. A student may obtain admission to the program only by special application to Chicago Semester. See the Chicago Semester campus representative for further details.

A description of the internship component of the program and the seminars follows:

301 Fine Arts Seminar
The seminar investigates urban cultural life as reflected in the arts of Chicago. Students gather data for exploration by attending plays, concerts, movies, and art galleries. This primary information is processed through readings, lectures, and classroom discussion. The seminar operates on the premise that art mirrors the ideas and values held by a particular society or civilization and that students can be helped to read this cultural mirror more effectively. 3 hours

302 Metropolitan Seminar
An introduction to the city, focusing primarily on the Chicago metropolitan region. Each semester, the Metropolitan Seminar examines cultural, social, political, and economic issues that face metropolitan residents. Sectional emphases of the Metropolitan Seminar focus on globalization and diversity, health, and social policy and planning and community development. 3 hours

303 Values and Vocations Seminar
Students examine the Christian call to social transformation in contemporary urban America. The course emphasizes reclaiming a Christian concept of vocation as a way of integrating the meaning of one's private and public life, and as a framework for practicing love and justice. The Values and Vocations Seminar's two sections are "American Work and Meaning" and "Character, Personality, and Power." 3 hours

304 History of Religion and Society in Urban America
This course examines religious social engagement in America through the lens of history, beginning in the colonial era and racing to the present. To manage this long span of time, the class focuses on the city, a battleground for pressing social questions. Topics of discussion will include religious responses to the market economy, race relations, gender roles, and the relationship between church and state. The class is designed for juniors and seniors. 3 hours

400 Field Internship
Students enrolled in the Chicago Semester program have a large number of placements available to them. Students may select internships from a range of organizations that include art centers, banks, businesses, hospitals, media centers, newspapers, publishing houses, mental health clinics, churches, schools, social work agencies, museums, libraries, and zoos. Work internships demand high-quality work and are supervised on the job and also by Chicago Semester staff members. 9 hours

401 Social Work Professional Seminar
This seminar provides students with the opportunity to apply classroom learning in actual social work practice situations. The seminar aims at promoting a "coming together" of theoretical perspectives and practicum supervision in a manner supportive to the efforts of beginning practitioners. Students engage in professional social work roles and activities to continue developing generalist practice skills and knowledge of the profession. 3 hours

454 Student-Teaching Professional Seminar
Prospective teachers are placed in Chicago area classrooms to work cooperatively with a qualified experienced teacher. While in the schools, the student-teachers are involved with planning lessons, teaching students, and professionally interacting with school staff, faculty, administration, and parents. Supplementing the teaching internship are regular observations of the teaching experience by the College supervisor and a required weekly professional seminar. 3 hours
The required **theology minor** as part of the major consists of the following:

- **THEO 204** Biblical Literature: the Pentateuch 3 hours
- **THEO 206** Biblical Literature: the Epistles 3 hours
- **THEO 301** Basic Teachings of the Christian Faith 3 hours
- **THEO 304** The Nature and Ministry of the Church 3 hours
- **THEO 343** Religion in America 3 hours

One Biblical Literature elective from:

- **THEO 203** Prophets 3 hours
- **THEO 205** Historical Books 3 hours
- **THEO 207** Gospel and Acts 3 hours
- **THEO 209** Wisdom Books 3 hours
- **THEO 210** The Bible and the Future 3 hours

One social science elective from:

- **SOC 202** Urban Sociology 3 hours
- **SOC 231** Sociology of Race and Ethnicity 3 hours
- **SOC 241** Sociology of Marriage and Family 3 hours
- **SOC 250** Sociology of Social Problems 3 hours
- **SOC 331** Sociology of Religion 3 hours
- **PSYC 123** Life Span Development 3 hours
- **PSYC 201** Psychology of Personal Growth or 3 hours
- **PSYC 211** Basic Helping Skills 3 hours

The **church and ministry leadership minor** consists of 21 hours and includes:

- **CHML 101** Introduction to Church and Ministry 3 hours
- **CHML 201** Administration and Leadership for Church and Ministry 3 hours
- **CHML 203** Spiritual Formation 3 hours
- **CHML 202** Introduction to Youth Ministry 3 hours
- **CHML 302** Evangelism for the Church 3 hours
- **CHML 400** Field Education/Internship 6 hours
- **CHML 401** Senior Seminar 1 hour
- **COMM 101** Fundamentals of Public Speaking 3 hours
- **COMM 217** (PSYC/SOC 243) Group Dynamics 3 hours

Two church and ministry leadership electives from the following:

- **CHML 205** Urban Ministry 3 hours
- **CHML 305** Urban Ministry 3 hours
- **CHML 307** Worship Leadership 3 hours
- **THEO 212** Cross-Cultural Missions 3 hours

- **THEO 204 or 207** Biblical Literature: the Pentateuch or the Gospels and Acts 3 hours

**101 Introduction to Church and Ministry**

An investigation of the theological foundation for and historical development of ministry and calling within the context of the church. Contemporary models of ministry, philosophy, mission, vision, and core values also will be examined and developed. 3 hours
107

Communication Arts/Business Communication

Annalee R. Ward, Ph.D., department chairperson

“I have a passion for creative design, using both images and words, and I plan to enter into the creation of mass media. Communication skills are essential to that line of work. I hope to use the skills I learn from Trinity to create media that I can be proud of and glorifies God above all else.”

The mission of the communication arts department is to provide broad yet integrating perspective, knowledge, and skill development on the powerful, practical, creative component of human nature called communication, within the boundaries of a biblical perspective as shaped by the Reformed tradition. The department seeks to graduate competent Christlike communicators who are able to engage culture critically with a kingdom vision. The program explores various communication contexts, theories, and applications. Students may choose a 33-hour general communications major or a concentration in rhetoric, media studies, or film studies.

Required of all majors:

Plus one other communication arts course 3 hours

201 Administration and Leadership for Church and Ministry
This course will examine organization, planning, leadership skills, and mentoring relationships in the management and leadership of a local church ministry and/or Christian organization. Prerequisites: Church and Ministry Leadership 101 and sophomore standing. 3 hours

202 Introduction to Youth Ministry Leadership
This course will examine the nature and needs of adolescents, their moral and faith development, and models for youth ministry in the local church and/or Christian organization. Prerequisites: Church and Ministry Leadership 101 and sophomore standing. 3 hours

203 Spiritual Formation
This course will introduce students to foundational concepts and practices in the area of the spiritual disciplines, which provide a needed pathway for their own spiritual formation and ability to teach spiritual formation to others. Stages of spiritual formation and its barriers also are discussed. 3 hours

302 Evangelism for Church and Ministry
A study of the theology, history, and culture of mission in the context of the local church and/or Christian organization, including a brief overview of evangelism and mission in the urban and cross-cultural missions settings. Prerequisites: Church and Ministry Leadership 101 and junior standing. 3 hours

305 Urban Ministry Leadership
This course will introduce and expose students to issues related to ministry in urban areas. Students will gain an understanding of both the challenges and rewards of ministry in urban settings. Students also will be exposed to an understanding of holistic ministry in the urban setting. Prerequisites: Church and Ministry Leadership 101 and junior standing. 3 hours

307 Worship Leadership
This course will introduce students to both the knowledge of and the skills required for worship leadership in a variety of ministry settings. Students look at various ways to facilitate worship and to develop a team of leaders who allow this to happen. Prerequisites: Church and Ministry Leadership 101 and junior standing. 3 hours

400 Field Education/Internship, 6 hours

401 Senior Seminar
This is a capstone course that will meet one hour weekly during the spring semester. Students will meet to discuss how a Christian worldview specifically influences the development and implementation of ministry leadership, and plans and strategies that have been developed throughout both the general education program and the entire church and ministry leadership major. Students will revisit the philosophy of ministry they began to develop in Church and Ministry Leadership 101, seeking to refine it toward the specific ministry setting they anticipate working in. They will give an oral update weekly and a final oral presentation toward the end of the semester. 1 hour
A **media studies concentration** includes the 18 core hours plus the following:

- COMM 234 Aesthetics of Cinema 3 hours
- COMM 241 Introduction to Journalism 3 hours

Three of the following:

- COMM 331 or 332 Radio Production or Television Production 3 hours
- LA 320 Internship: Inside Hollywood 6 hours
- LA 360 Faith, Film and Culture 3 hours

Two from the following:

- LA 380 Introduction to Filmmaking 3 hours
- LA 382 Screenwriting 3 hours
- LA 384 Seminar in Producing the Independent Film 3 hours
- LA 386 Acting in Hollywood 3 hours

A **film studies concentration** includes the 18 core hours plus the following:

- COMM 234 Aesthetics of Film 3 hours
- COMM 331 or 332 Radio Production or Television Production 3 hours
- LA 320 Internship: Inside Hollywood 6 hours
- LA 360 Faith, Film and Culture 3 hours

Two from the following:

- LA 380 Introduction to Filmmaking 3 hours
- LA 382 Screenwriting 3 hours
- LA 384 Seminar in Producing the Independent Film 3 hours
- LA 386 Acting in Hollywood 3 hours

A **theatre concentration** includes the 18 core hours plus the following:

- COMM 125 Principles of Theatre 3 hours
- COMM 225 Oral Interpretation 3 hours
- COMM 226 Theatre Practicum 3 hours
- COMM 270 Acting/Directing 3 hours
- COMM 280 Stagecraft: Theory and Practice 3 hours
- ENGL 305 English Drama: Shakespeare 3 hours

Art 108 and either Art 232, 234, or 235 are recommended strongly.

The **communication arts minor**, 18 hours, consists of the following:

- COMM 101 Fundamentals of Public Speaking 3 hours
- COMM 111 Foundations of Human Communication 3 hours
- COMM 231 Mass Media and Society 3 hours
- COMM 301 Communication Theory 3 hours
- COMM 333 Communication Ethics 3 hours

Plus one other communication arts course 3 hours

A **theatre minor**, 20 hours, consists of the following:

- COMM 111 Foundations of Human Communication 3 hours
- COMM 125 Principles of Theatre 3 hours
- COMM 226 Theatre Practicum 2 hours
- COMM 280 Stagecraft: Theory and Practice 3 hours
- ENGL 305 English Drama: Shakespeare 3 hours

One from the following:

- COMM 225 Oral Interpretation 3 hours
- COMM 270 Acting/Directing 3 hours

*Business Communication students must substitute another course for Communication Arts 111 with adviser recommendation.

The **business communication major** is designed as an interdisciplinary major that prepares students to work in communicative dimensions of profit and non-profit organizations of various sizes. This preparation is accomplished through a program that blends principles and skills from the field of business and the field of communication. This major consists of 48-54 hours and is composed primarily of courses from the business department and the communication arts department, with support from computer science.

The **business communication major**, 48-54 hours, consists of the following:

- BUAD 121 Principles of Management 3 hours
- BUAD 131 Principles of Marketing 3 hours
- BUAD 211 Professional Communications 3 hours
- BUAD 336 Advertising and Sales Promotion 3 hours
- BUAD 362 Human Relations in Organizations 3 hours
- COMM 101 Fundamentals of Public Speaking 3 hours
- COMM 111 Foundations of Human Communication 3 hours
- COMM 231 Mass Media and Society 3 hours
- COMM 241 Introduction to Journalism 3 hours
- COMM 301 Communication Theory 3 hours
- COMM 325 Communication Ethics 3 hours
- COMM 410 Senior Communication Seminar 3 hours
- COMM 400 Internship 2-9 hours

Cognate competencies:

- CPSC 104 Spreadsheet Application 2 hours
- CPSC 106 Presentation Graphics 1 hour
- CPSC 107 Web Page Design 2 hours

Total: 48-54 hours
Communication Arts/Business Communication

admissions@trnty.edu

217 Group Dynamics
This course utilizes the “self-analytic group” to study the group as a phenomenon distinct from the individual, the institution, and the crowd. It probes the foundation of human interaction and communication in face-to-face settings. Students analyze group structures, physical formations, emotional factors and attachments; and the evolution of leadership functions, norms, values, and procedures. This course is identical to Psychology 243 and Sociology 243. Prerequisite: sophomore standing. 3 hours

225 Oral Interpretation
Oral interpretation introduces the student to an exploration of the analysis and performance of literature. Through exercises, lectures, readings, and performances, students discover, enjoy, and share their experiences with various literary genres. There are opportunities for both solo and group performances. Prerequisites: English 103 and 104. Fulfills the fine arts requirement for graduation. 3 hours

226 Practicum in Theatre
A practice course emphasizing the development, production, and performance of drama. 1 hour

Recommended courses to fulfill general education requirements:

</tbody>
</table>

Note: Pursuing a minor in another discipline is encouraged. If, however, a communication arts minor is chosen, it will consist of 18 hours of coursework outside of the business communication courses. A business minor will consist of 18 hours outside of the business communication courses, including Economics 121 or 122 and Accounting 221.

101 Fundamentals of Public Speaking
A practical course with emphasis on composition (style, research, and reasoning), delivery, and criticism of public speech. Prerequisite: English 103 recommended. 3 hours

111 Foundations of Human Communication
An establishment of the foundation of communication studies, its breadth, various cultural contexts, and the major issues and concerns in the field. This will set the agenda for developing a Christian worldview on communication studies. 3 hours

125 Principles of Theatre
This course studies theatre through analysis of its artistic principles, genres, and forms. It also emphasizes that theatre is an immediate art whose meaning is grasped through an understanding of the encounter between those who create theatre — performers, writers, directors, designers, technicians — and members of the audience. Students practice script analysis, investigate theatre history and theory, and participate in practical projects throughout the semester. Theatre resources in the Chicago area will be a part of this course. Fulfills the fine arts requirement for graduation. 3 hours.

201 Persuasive Speaking
Persuasive speaking builds on the principles learned in Fundamentals of Public Speaking. Emphasis is on building argumentation and persuasion skills through performances in various formats and on the application of rhetorical criticism. Attention is also given to parliamentary procedure. Prerequisite: Communication Arts 101. 3 hours

210 Interpersonal Relations
This course examines perspectives on relationships between persons and the process of interpersonal communication. Through small-group interaction, students develop insight into styles of relating and communicating with others. This course is identical to Psychology 202. 3 hours

231 Mass Media and Society
This course examines the nature of mass communication systems, the communication industries, the media support systems, and the impact of mass communication on society. Form, content, and consequences of mass media are emphasized through lectures, research, discussion, and application to the student's own media experience. Prerequisite: Communication Arts 111. 3 hours

234 Aesthetics of Cinema
This course examines the influence of technique on film as an art form and on the audience as viewer and participant. Students also examine the interrelationship of technique and content as it expresses directorial and cultural concerns. Students view and critique films seen inside and outside of class. Fulfills the fine arts requirement for graduation. 3 hours

241 Introduction to Journalism
An introductory course that acquaints the student with basic elements of journalistic writing. Students are expected to build skills to write articles for general assignment, specialty, and feature writing. 3 hours

250 Intercultural Communication
An introduction to the conceptual background and problems of contemporary attempts to communicate between cultures, with exposure to certain skills necessary to make such encounters succeed in everyday life. Meets the cross-cultural requirement. 3 hours

www.trnty.edu
These courses focus on salient topics in communication arts such as political communication, media writing, family communication, or other current issues as interest and need demand. 3 hours

399 Independent Study
Topics are selected from students' major interests. 2-4 hours

400 Internship in Communication, 3-9 hours

410 Senior Communication Seminar
A capstone course that orients students to their academic past and professional future. Students demonstrate their knowledge and skills developed throughout the entire major, and formulate strategies for beginning their professional careers. Assignments include developing a major project, a resume, a portfolio, a philosophy of Reformed Christian communication, and completing a comprehensive exam over core communication classes. Prerequisites: communication arts major and completion of communication arts core classes. 3 hours

Los Angeles Film Studies Center
The Los Angeles Film Studies Center provides an opportunity to study the Hollywood film industry in a Christian, residential, "on location" setting. As a program sponsored by the Council for Christian Colleges & Universities, the Los Angeles Film Studies Center is academically grounded in a Christian liberal arts context. Efforts are made to integrate biblical faith throughout the curriculum and community life.

The mission of the Los Angeles Film Studies Center is to prepare persons academically for placement in the mainstream Hollywood film industry, preferably in decision-making positions, with a Christ-centered vision to influence film content, the production process, and interpersonal relationships dynamically. In addition, the mission includes the development of advocates to advance an informed and discerning approach to understanding the media, as well as an appreciation for, and support of, the work of their peers in Hollywood.

This is a semesterlong internship/seminar experience for upper-level students. Students will live in the Los Angeles area, study film and the film industry through LA 320, LA 340, and LA 360 plus two electives, earning 16 semester-hours credit. It requires a separate application. Admission is not guaranteed.
Students work in groups to create a festival-ready piece, including all the legal documentation and rights to enable the finished production to qualify for festival submission. The course offers students the opportunity to make a motion picture production using Hollywood locations, resources, and protocol. Students participate in a competitive vetting process of scripts, pitches, and meetings much like the process of the professional industry. For example, those who want to direct will submit reels for review by a selection panel. This course operates as a community-building experience in which all students participate in at least one key role in the production process. The course also offers small-group tutorials for each student’s production position. The workshop environment is designed specifically to meet the needs of both novice and experienced students. The major emphases of the course are the importance of each contribution to a production, the process of production, and effective production management. This course complements the more specialized, skill-focused elective courses and is taught by professional, experienced Christian filmmakers with credits in the Hollywood industry. 3 hours

**LA 310 Theology in Hollywood**

This course encourages the development of the necessary skills for analysis of the culture of Hollywood, its role in popular culture, and the theological intersections therein. The course seeks theological engagement with the culture of Hollywood and cinema by investigating some of the social, ethical, and psychological implications of film upon theology. The course is presented in four modules, each building on the content of the previous module: 1) an analysis of the culture of Hollywood; 2) a study of theology/Bible and engagement with Hollywood and cinema; 3) Christian ethics and the culture of Hollywood; and 4) a capstone examination of Christian vocation in Hollywood. All students participate in a team-taught lecture seminar led by a professor of theology. Students also participate in small-group tutorials, service-learning, and discussions. 4 hours

**LA 320 Internship: Inside Hollywood**

Students participate in an internship experience in some aspect of the Hollywood entertainment industry. These are nonpaying positions primarily in an office setting such as development companies, agencies, management companies, post-production facilities, etc. Students work 20 to 24 hours a week, spread over a three-day schedule and accumulate 200-250 hours for the semester. Orientation to the internship includes an overview of the creative and operational aspects of the Hollywood entertainment business, including the Christian’s role working therein. The internships do not include positions on actual filmmaking locations. Instead, students work in offices as support personnel to producers, writers, directors, agents, post-production personnel, and others involved in the total process of producing and distributing a major motion picture. The LAFSC provides interns to many of the major companies within Hollywood. 6 hours

Students choose one class from the following electives:

**LA 372 Motion Picture Production**

This is an intense, hands-on course in short-film production. Students individually write, shoot, direct, and edit their own projects. Visual storytelling is achieved through developing skills in directing, cinematography, and editing. The course is designed to enable both novice and advanced students to develop their integration of story with technical skill. The course is taught by professional, experienced Christian filmmakers with credits in the Hollywood industry. 3 hours

**LA 382 Professional Screenwriting**

This is a course in contemporary screenwriting, including an understanding of dramatic structure, character and dialogue development, and the writing process. Students complete a full-length screenplay for a feature film or “movie-of-the-week.” Whether novice or advanced, students are expected to develop and improve their skills. Emphasis is given to the role of Christian faith and values as they relate to script content. The course is taught by a working, credited Christian screenwriter. 3 hours

**LA 392 Independent Study**

This course may be set up by special request and arrangement. In order to be considered, students may submit a portfolio and a project proposal. Students with approved projects will be appointed a mentor who is a professional in the Hollywood industry to supervise the project. Projects could include further development of a portfolio or reel, critical research, or a senior thesis project. 3 hours

*Please Note:* The independent study option is not guaranteed and is intended for students with experience in a specific area of cinema or those needing to complete a senior project for graduation. The number of independent studies offered each semester will be determined by LAFSC faculty, the availability of a suitable mentor, and approval from the College’s communication arts department chair.
The computer science major is designed to prepare students for professional careers in programming, application systems design, and application systems administration. The information systems major is designed to prepare students for professional careers in the management of computer information systems.

The computer science major also can be used to prepare for advanced training in computer science at graduate schools. The 100-level courses are open to all students. Students desiring to major in computer science are encouraged to complete at least one semester of high school computer science.

The **computer science major** consists of 46 hours:

- CPSC 111 Elements of Programming I 3 hours
- CPSC 112 Elements of Programming II 3 hours
- CPSC 202 Data Structures and Algorithms 3 hours
- CPSC 203 Computer Organization and Assembly Language Programming 3 hours
- CPSC 210 Discrete Structures 3 hours
- CPSC 340 Social and Ethical Issues in Computing 2 hours
- CPSC 400 Field Education 2 hours
- CPSC 401 Senior Seminar 1 hour

Plus four courses numbered at the 200- or 300-level. Information Systems courses (251, 252, 253, 254) will not satisfy this requirement.

Required cognate courses:

- MATH 111 Analytic Geometry & Calculus I 4 hours
- MATH 112 Analytic Geometry & Calculus II 4 hours
- MATH 351 Probability and Statistics 3 hours
- COMM 101 Fundamentals of Public Speaking 3 hours

The **computer science minor** consists of at least 18 semester-hours in the discipline. The following courses are required:

- CPSC 111 Elements of Programming I 3 hours
- CPSC 112 Elements of Programming II 3 hours
- CPSC 202 Data Structures and Algorithms 3 hours

Plus three courses at the 200-level or above. Information Systems courses (251, 252, 253, 254) will not satisfy this requirement.

The **information systems major** consists of 47 hours:

- CPSC 111 Elements of Programming I 3 hours
- CPSC 112 Elements of Programming II 3 hours
- CPSC 202 Data Structures and Algorithms 3 hours
- CPSC 231 Database Systems 3 hours
- CPSC 260 Information Technology Management 3 hours
- CPSC 261 Data Communications 3 hours
- CPSC 301 Structured System Analysis 3 hours
- CPSC 340 Social and Ethical Issues in Computing 2 hours
- CPSC 400 Field Education 2-4 hours
- CPSC 401 Senior Seminar 1 hour

Plus two courses selected from 251, 252, 253, 254

Required cognate courses:

- MATH 150 Mathematics for Applied Sciences 3 hours
- MATH 151 Statistics 3 hours
- ACCT 221 Principles of Financial Accounting 3 hours
- ACCT 222 Accounting for Decision-Makers 3 hours
- COMM 101 Fundamentals of Public Speaking 3 hours

The **information systems minor** consists of at least 18 hours in the discipline. The following courses are required:

- CPSC 111 Elements of Programming I 3 hours
- CPSC 112 Elements of Programming II 3 hours
- CPSC 202 Data Structures and Algorithms 3 hours

Plus three courses at the 200-level or above. Information Systems courses (251, 252, 253, 254) will not satisfy this requirement.

Students who pursue a B.S. in business may choose a concentration in information systems to meet business degree requirements (see the catalog listing for business concentrations). Students may not meet the Trinity B.A. major and minor graduation requirements with a major or minor in computer science and the other in information systems.
100  Introduction to Computer Applications
This course introduces fundamental computer concepts, such as computer hardware and operating systems, with an emphasis on the system used on campus computers. Topics include the functions of an operating system, communication with electronic mail, accessing the Internet and its resources, and elementary word-processing. 2 hours

103  Word Processing Applications
This course provides information and practice on the applications of word-processing packages such as Microsoft Word. Prerequisite: Computer Science 100 or equivalent Windows XP and word-processing experience. 1 hour

104  Spreadsheet Applications
This course is intended to provide hands-on use of the computer utilizing the spreadsheet software component of Microsoft Office. Topics include creation and editing of spreadsheets, creation of graphical displays of spreadsheet information, design of spreadsheet templates, and use of @ functions and macros. Prerequisite: Computer Science 100 or equivalent Windows XP experience. 2 hours

105  Database Applications
This course is intended to provide hands-on use of the computer utilizing the database software component of Microsoft Office. Topics include creation of databases, issuing queries against the database, presenting data using reports and custom forms, object linking and editing, creating and using macros, buttons, and boxes. Prerequisite: Computer Science 100 or equivalent Windows XP experience. 2 hours

106  Presentation Graphics Applications
This course provides the student with information and practice in graphical design using application packages such as Microsoft PowerPoint. Prerequisite: Computer Science 100 or equivalent Windows XP experience. 1 hour

107  Web Page Design
This course introduces the basics of Web page construction and Web site organization to communicate a consistent client message. Platform-independent textual and graphical elements, creation of hypertext links, efficient use of computer resources, appropriate use of color and navigational signals will be studied in detail. Optional topics include frame design, animated graphics, image maps, interactive forms, and Java applets. The skills are developed in the context of sensitivity to a consistent design scheme and to an awareness of the communicative dimensions including audience and overall message. Prerequisites: Windows XP and Internet experience, Communication Arts 111. Art 108 is recommended highly. 2 hours

109  Technology in Education
This course examines the role of technology within the field of education. Topics include integration of productivity- and learning-enhancing software; use of imaging, presentation, and telecommunication equipment; evaluation of computer resources; design of student activities that integrate computer resources; and current instructional principles and research through the use of professional journals. Prerequisites: Computer Science 100 or a working knowledge of word processing; communication software (e-mail); Web browsing for research; basic computing technology; operation of computer systems including installing, troubleshooting, and using software; and copyright regulations. The content knowledge list will be assessed through advising and student self-reporting. 3 hours

110  Advanced Technology for Educators
This course is a continuation of the study of the role of technology within the field of education. Topics include design of hypermedia and multimedia publishing; practical telecommunications use; ethical, legal, and equitable use of computers; advanced features and integration of word processing, desktop publishing, graphics, spreadsheet, and utility programs; database design and manipulation; identification and evaluation of emergent technological tools; and design of student activities that integrate computer resources. This course is identical to Education 110. Prerequisite: Computer Science 109. 3 hours

111  Elements of Programming I
This course lays the foundations in programming. Students receive an overview of programming methodology and learn to write programs using good style and accepted practices. C++ is taught in the Windows environment. The student will learn structured programming, simple data types and associated operations, input/output, and pointers. Prerequisite: Computer Science 112. 3 hours

112  Elements of Programming II
A continuation of Computer Science 111, with an emphasis on object-oriented programming. Recursion, an introduction to data structures using STL (Standard Template Library), and advanced input/output topics. Prerequisite: Computer Science 111. 3 hours

202  Data Structures and Algorithms
This course will focus on the analysis and strategies of data structures and implementing algorithmic paradigms. These structures include arrays, vectors, stacks, heaps, linked lists, queues, and priority queues, Big-O notation, co-sequential and random file processing, trees, and graphs. The course will provide an overview of file merging mechanisms and file indexing methodologies. Prerequisite: Computer Science 112. 3 hours
203 Computer Organization and Assembly Language Programming
This course examines computer organization and architecture, memory organization, addressing, register processing, assembly language programming, and microprogramming. Prerequisite: Computer Science 112. 3 hours

210 Discrete Structures
A study of set theory, logic, algebraic structures, relations and functions, combinatorics, graphs and trees, boolean algebras, and algorithms. This course is identical to Mathematics 210. Prerequisite: Mathematics 112; Computer Science 112 recommended. 3 hours

221 Operating Systems
Students develop an understanding of the organization and architecture of computer systems at the register-transfer and programming levels of system description, learn the major concept areas of operating systems principles, and study interrelationships between the operating system and the architecture of computer systems. Prerequisite: Computer Science 203. 3 hours

231 Database Systems
This course looks at the logical description of data and its physical representations in relational databases. The relational model will be compared and contrasted with hierarchical and network models. Students will learn database theory and develop fully normalized database scheme. The course will include an introduction to the SQL data query language. Prerequisite: Computer Science 202. 3 hours

241 Systems Architectures
This course will cover the history of systems architecture, overviews of current systems, and some investigation of future design directions. Students will be introduced to the organization and structuring of major hardware components of digital computers, the mechanics of information transfer and control within a computer system, and the fundamentals of logic design. Topics include a brief history, computer interconnection structures, internal and external memory, input/output, operating systems, computer arithmetic, machine instructions, CPU structure and function, control operations, and microprogrammed control. Prerequisite: Computer Science 203. 3 hours

251 Visual Programming
This course introduces the use of visual languages to program Windows and Web applications. Students will learn to work with visual interface objects and produce programs that access relational databases. Prerequisite: Computer Science 111 or sophomore standing. 3 hours

252 IS: Unix: Concepts and Administration
This course offers an overview of Unix systems. In addition to learning central concepts of Unix, students gain knowledge and experience in the administration and management of Unix-based computer systems. Prerequisite: Computer Science 111 or sophomore standing. 3 hours

253 IS: Microsoft Network Administration
This course introduces students to Microsoft computer networks. Topics include the design, implementation, management, and troubleshooting of such networks. Prerequisite: Computer Science 111 or sophomore standing. 3 hours

254 Web Architecture and Design
This course examines Web sites from the standpoints of design, implementation, and administration. Students will work in the J2EE Environment to develop a Web site for a client. Prerequisite: Computer Science 111 or sophomore standing. 3 hours

260 Information Technology Management
This course will focus on 10 Information Technology management processes identified as core processes by the Information Technology Infrastructure Library (ITIL), a well-known IT international standards body. These include five processes under the category of Service Delivery and five under the category of Service Support. Students will learn the full breadth of issues that must be addressed to manage IT as a business. Prerequisite: sophomore or higher standing. 3 hours

261 Data Communication
This course provides knowledge and experience with data communication in a variety of environments including local area networks (LANs), wide area networks (WANs), and virtual private networks (VPNs). Topics include planning, implementing, managing, and diagnosing problems in networks. Foundational theories related to both wired and wireless communication systems and the international standards that apply to such systems are covered. Prerequisite: Computer Science 211. 3 hours

301 Systems Analysis
This course examines the methods and procedures used in application systems analysis and design, and looks at tools used in specifying the requirements of a project. Students compare and contrast traditional methods against the more modern object-oriented methods. Prerequisite: Computer Science 202. 3 hours

311 Programming Languages
This course is a comparative study of programming languages and their features. The aim is to develop an understanding of the organization of programming languages, especially the run-time behavior of programs, and to continue the development of problem solution and programming skills introduced in the elementary-level material. Students gain experience with ML, JAVA, and Prolog so they may see a variety of language features in the context of their implementation. Prerequisite: Computer Science 202. 3 hours
340 Social and Ethical Issues in Computing
This course offers a comprehensive interdisciplinary consideration of the ethical and social implications of computer technology. It will examine critically social issues, statutory regulations, ethical standards and technical issues within the computer profession, both nationally and internationally. It also will consider the critical choices and decisions made by computer professionals concerning the applications of information technology and how those choices affect society. Specific topics will include anonymity and censorship, security and encryption, privacy of information, computer crime, ethical dilemmas and legal framework, liability and reliability, social impacts of technology and professional standards, copyright, and intellectual property rights issues. Prerequisite: computer science 221 or 231. 2 hours.

341 Numerical Analysis
This course is a study of solutions of non-linear equations, systems of equations, and differential equations. Other topics include interpolation, approximation, and numerical integration. This course is identical to Mathematics 341. Prerequisites: Computer Science 112 and Mathematics 210. 3 hours

400 Field Education, 2-4 hours

401 Senior Seminar
This seminar provides an opportunity for students to reflect on the concepts, contextual, foundational, and worldview issues, and applications studies in past coursework. The seminar emphasizes how these issues will impact their lives beyond the College. Presentations, both in class and off campus, attended by students and made by students, are a key component of the course. Prerequisites: Senior class standing and prior completion of at least six required courses in the major (excluding cognate course requirements).

ECONOMICS
See Business/Accounting/Economics/Secondary Business Education
Electronic Portfolios: All education majors and minors are required to complete an electronic portfolio. A one-time fee of $100 to cover the costs of the portfolio will be assessed in conjunction with Computer Science 109. This fee is non-refundable. Students who receive transfer credit for Computer Science 109 also will be assessed a fee of $100.

Elementary Education (K - 9 certification)
Elementary education students must fulfill all of the following (78 hours, plus a minor):

A. General Education, Major, and Minor Courses
(Note that many of these courses overlap with Trinity's general graduation requirements.)

Special Program (K-12 certification)

Students may elect to receive a special K-12 certificate OR separate elementary (K-9) and secondary (6-12) certificates to which they may add endorsements.

Students may obtain a special program (K-12) teaching certificate in the following major areas (48-49 hours):
- art
- music (instrumental emphasis)
- music (vocal emphasis)
- physical education
- Spanish

Special program students must fulfill all of the following general education, major, and minor courses:

A. General Education Courses
(Note that some of these courses overlap with Trinity’s general graduation requirements.)

It is possible to obtain a second major or minor. See the departmental sections in this catalog for descriptions of the required courses.
Special Education (K - 12 certification)

Students may elect to receive a special K-12 Learning Behavior Specialist I certificate OR separate elementary (K-9) and secondary (6-12) Learning Behavior Specialist I certificates to which they may add endorsements.

Special education students must fulfill all of the following (66 hours):

**A. General Education Courses**
*(Note that many of these courses overlap with Trinity’s general graduation requirements.)*

- **COMM 101** Fundamentals of Public Speaking 3 hours
- **MATH 109** Math for Teachers I 3 hours
- **MATH 110** Math for Teachers II 3 hours

**B. An Education Minor - Required of all Special Education Majors**

- **CPSC 109** Technology in Education 3 hours
- **EDUC 203** Introduction to Education 3 hours
- **EDUC 303** Educational Psychology 3 hours
- **EDUC 335** Teaching in the Middle Grades 3 hours
- **EDUC 454** Contemporary Issues Seminar 3 hours
- **PSYC 123** Life Span Development 3 hours
- **SPED 216** Introduction to Exceptional Children 3 hours
- **SPED 450** Internship: Student Teaching, Special Ed. 10 hours

**C. Special Education Major**

- **EDUC 310** Teaching Reading in Grades K-9 3 hours
- **EDUC 311** Teaching Reading in Content Areas 2 hours
- **SPED 111** Sign Language I 2 hours
- **SPED 112** Sign Language II 2 hours
- **SPED/PSYC 217** Psychological Diagnosis of Exceptional Learners 3 hours
- **SPED 314** Teaching Students with High Incidence Disabilities, Age 3 - Grade 5 3 hours
- **SPED 315** Teaching Students with Low Incidence Disabilities, Age 3 - Grade 5 3 hours
- **SPED 316** Teaching Students with High Incidence Disabilities, Grade 6 - Age 21 3 hours
- **SPED 317** Teaching Students with Low Incidence Disabilities, Grade 6 - Age 21 3 hours
- **SPED 319** Remediation of Language and Communication Disorders 3 hours
- **SPED 330** Communication and Collaboration 2 hours
- **SPED 420** Topics in Special Education 3 hours
- **SPED 380** Methods of Special Education Instruction 3 hours

**D. Electives**

It is possible to obtain a second major or minor. See the departmental sections in this catalog for descriptions of the required courses.

**Middle Grades Endorsements:** A middle grades endorsement is a teaching subject listed on an elementary or secondary state of Illinois teaching certificate that enables a graduate to teach that subject in the middle grades (5-8). To earn a middle grades endorsement, the student must usually complete 18 semester-hours of coursework in that subject area plus six semester-hours in adolescent psychology and middle grades schooling philosophy and methods. At Trinity, three of the six hours are met by taking Education 335. The remaining three hours are “embedded” in Psychology 123, Education 303, and Education 380. Students who take any of these three courses at another institution must prove to the certification officer that the course(s) provided the appropriate amount of middle grades material.

**Special education minor**

A minor in special education consists of 23 hours of study:

- **SPED 216** Introduction to Exceptional Children 3 hours
- **SPED/PSYC 217** Psychological Diagnosis of Exceptional Learners 3 hours
- **SPED 314** Teaching Students with High Incidence Disabilities, Age 3 - Grade 5 3 hours
- **SPED 316** Teaching Students with High Incidence Disabilities, Grade 6 - Age 21 3 hours
- **SPED 330** Communication and Collaboration 2 hours
- **PSYC 123** Life Span Development 3 hours
- Special Education elective 6 hours

**Double Major Certification — Elementary (K-9) and Special Education Learning Behavior Specialist I**

It is possible to double major in both elementary education and special education. All elementary education major requirements and special education requirements must be met. Students may choose to take Special Education 380 or Education 380. Two student-teaching placements (five hours each) also are required.
Admission to the Teacher Education Program
Teacher Education Program Applications are available on ANGEL on the education department home site and are due December 1 and May 1.

1. Application filled out as a second-semester sophomore with at least one foundation course and Intent to Apply completed at least one semester prior.

2. A cumulative grade-point average of at least 2.5 in all general graduation requirements.

3. A grade-point average of at least 2.5 in the education foundation courses. The education foundation courses include Computer Science 109, Education 203, Education 303, and Special Education 216. You must have completed or be enrolled in Education 203 before applying to the Teacher Education Program. Transfer students with junior standing should apply regardless of courses completed. No grade lower than a C- will be accepted for any foundation course. Students may not take any foundation course more than twice and may retake only two foundation courses.

4. A grade-point average of at least 2.5 in English 103-104.

5. The Illinois Basic Skills Test passed.

6. Recommendation of the education department based on coursework and supervising teacher reports of the student’s clinical experience.

7. Professional Dispositions Assessment from non-education faculty and by the student applicant.

8. Electronic portfolio: all basic items and at least two artifacts with reflections as fulfillment of the standards.

Criteria for Admission to the Teacher Education Program — Sophomore Year

1. Application is made as a second-semester sophomore with at least one foundation course and Intent to Apply completed.

2. A cumulative grade-point average of at least 2.5.
3. A grade-point average of at least 2.5 in the education foundation courses. The education foundation courses include Computer Science 109, Education 203, Education 303, and Special Education 216. You must have completed or be enrolled in Education 203 before applying to the Teacher Education Program. Transfer students with junior standing should apply regardless of courses completed. No grade lower than a C- will be accepted for a foundation course. Students may not take any foundation course more than twice.

4. A grade-point average of at least 2.5 in English 103-104.

5. Pass the Illinois Basic Skills Test.

6. Recommendation of the education department based on coursework and supervising teacher reports of the student’s clinical experience.

7. Professional Dispositions Assessment from non-education faculty and by the student applicant.

8. Electronic portfolio — all basic items and at least two items with reflections as fulfillment of the standards must be completed.

**Procedures for Admission to the Student-Teaching Internship**

Admission to the teacher education program is a prerequisite for application to the student-teaching internship. Students must apply for admission to the student-teaching internship program by May 1 or by December 1 of the year prior to their expected internship. This means, if a student wants to student-teach in the fall semester, that student should apply to the internship by December 1 of the fall prior to the student-teaching semester. If a student wants to student-teach in the spring semester, that student should apply to the internship by May 1 of the spring prior to the student-teaching semester. After the teacher education committee considers the application, the student will be informed in person and in writing of the action taken.

Students must pass their state of Illinois subject area certification test before they will be considered a program completer, and prior to student-teaching. **Student-teaching placements will not be made until the student has passed his or her subject area certification tests.** The cycle for registering, taking, and receiving results for any state test takes at least three and a half months. Students should take the test and allow enough time to get satisfactory results by the time they apply to the internship.

**Criteria for Admission to Student-Teaching Internship — end of Junior Year**

1. Admittance to the Teacher Education Program.

2. A cumulative grade-point average of at least 2.5.

3. A grade-point average of at least 2.5 in the education foundation courses: Computer Science 109, Education 203, 303, and Special Education 216.

4. Completion of or current registration in methods courses.

5. At least 120 clock-hours of teacher-aiding completed by time of student-teaching.

6. A minimum of one full-time semester of coursework, including at least one education course and one course in the student’s concentration or specialization (major), at Trinity previous to student-teaching.

7. A grade-point average of 2.7 in minor or major.

8. Recommendation from the chair of the student’s area of minor for elementary education students or area of specialization for secondary and special (K-12) students.

9. Recommendation from the education department indicating potential for teaching, personality, integrity, and moral behavior.

10. Professional Dispositions Assessment from the education department.

11. Electronic portfolio. All basics and at least six items with reflections as fulfillment of the standards must be completed.

12. Pass the subject matter test. The state of Illinois requires all student-teachers to have passed their subject matter test successfully before they can student-teach. Spring student-teachers must take and pass the test the previous June or July prior to student teaching. Fall student-teachers must take and pass the test by the previous November or December prior to student-teaching.

**Student Rights**

The student who receives notice of rejection may appeal that decision according to the following procedures:

1. Within two weeks, the appeal must be presented, in writing, to the director of teacher education. The appeal will be submitted to the teacher education committee.

2. The decision of the teacher education committee will be announced to the student in writing within 10 school days of receipt of the appeal.

3. Appeals beyond the teacher education committee must be directed to the chairperson of the education department and the provost.
Please note that the student has the right to be assisted in his/her defense by an adviser, legal counsel, or representative from the campus community that he/she may choose. The student is asked to notify the director of teacher education in writing of the name and address of the party that will be serving as his/her representative.

**Education Courses**

Students should take only one of these education courses (Education 203, 303, 380, 335, Special Education 210) per semester. Permission of the department chair is needed before a student may register for two of these courses in the same semester. Students should take at least one education course and do one field experience each semester beginning at the sophomore level.

**100 Field Experience**
Field experience is teacher-aiding in the area public and private schools. Field experience includes observation and participation in classroom activities. 0 hours (no credit)

**102 Reading Field Experience**
Students must be enrolled concurrently in Education 310. 0 hours (no credit)

**103 Novice Teaching**
Students must be enrolled concurrently in Education/Special Education 380. 0 hours (no credit)

**107 Bilingual Education Field Experience**
Students must be enrolled concurrently in Education 342/542. 0 hours (no credit)

**108 ESL Education Field Experience**
Students must be enrolled concurrently in Education 341/541. 0 hours (no credit)

**201 Fine Arts in Education**
This course examines the educational, communicative, and aesthetic value of dance, music, drama, and art. Students will consider the role fine arts play in reflecting history and culture, and how to promote all students' abilities to express themselves creatively. Topics include concepts, techniques, materials, cultural dimensions, and interrelationships of the visual arts, music, drama, and dance. Fulfills the fine arts requirement. 3 hours

**203 Introduction to Education**
This course is a broad-based introduction to the role of schooling in society and the profession of teaching. It includes an overview of the history of education from pre-literate societies to the present, an examination of various philosophical perspectives or schools of thought, and a discussion of several of the issues facing educators today. To be taken in the sophomore year; 30 hours of teacher-aiding required. Prerequisites: Psychology 123 and concurrent enrollment in Education 100. 3 hours

**225 Foundations of Teaching Bilingual/ESL**
This course introduces students to an understanding of the historical, philosophical, socioeconomic, and educational issues that led to the formation of bilingual/ESL educational policies, programs, and services for culturally diverse populations. Current trends, issues, and research for bilingual/ESL classrooms will be examined. Aspects of language learning and acquisition theories as they pertain to bilingual/ESL will be included. Concurrent enrollment in Education 107 or 108 is expected in addition to concurrent or prior enrollment in Education 203. 3 hours

**303 Educational Psychology**
One main focus of this course is the psychology of learning. Topics include human development, differences in learning abilities, the impact of culture, and theoretical approaches to the process of learning. Another main focus is the psychology of teaching. Topics include understanding motivation, classroom management, creating a conducive learning environment, and classroom assessment. These topics are presented from elementary, middle grades, and secondary education perspectives. Prerequisites: Psychology 123, Education 203, Special Education 216, and concurrent enrollment in Education 100. 3 hours

**310 Teaching Reading in Grades K-9**
Students examine approaches and methods in teaching of reading. Course content includes emphasis on reading skills, assessment of pupil progress, and classroom organization for the teaching of reading. All elementary teacher education students must take this course prior to the student-teaching assignment. Concurrent enrollment in Education 310. Prerequisite: Education 203. 3 hours

**311 Teaching Reading in the Content Areas**
This course focuses on teaching reading in various subject areas. Specific instruction in reading strategies at the sixth- through 12th-grade levels with current theory and techniques for the teaching of reading in various content areas will be emphasized. Students will design lesson and learn to develop skills in improving reading specific to their content area. Prerequisite: Education 203. 2 hours

**313 Teaching Language Arts in Grades K-9**
This course focuses on the listening, speaking, reading, and writing skills within the language arts, and emphasizes integrating language arts throughout the school curriculum. Prerequisites: Education 203, English 103 and 104. 1 hour

**317 Teaching Bible in Grades K-9**
This course offers a study of materials, methods, and issues connected with teaching Bible in grades K-9. It is recommended for students who plan to teach in a Christian school. Prerequisite: junior standing. Recommended: at least one of the following: Theology 250, 206, 207, 210. 1 hour
335 Teaching in the Middle Grades
An overview of middle grade-school philosophy and school structure. Includes a study of curriculum, pedagogy, and instructional strategies used in the middle grades. Involves 30 hours of teacher-aiding in the middle grades. Concurrent enrollment in Education 100. Prerequisite: Education 203. 3 hours

340/540 Cross Cultural/Multicultural Issues in Education
This course will focus on issues in education related to linguistic, cultural, and ethnic diversity within the context of society faced with issues of poverty, discrimination, racism, and sexism. Learning and communication styles and the impact of teacher expectation on student achievement will be examined. Effective utilization of the rich resources represented by the home and the community will be explored. Prerequisites: Psychology 123; Education 203 for education majors and minors. 3 hours

341/541 Theory and Methods of ESL Instruction
This course focuses on relevant topics concerning English as a second language along with the nature and function of language. Multicultural issues will be examined as they relate to a biblical worldview. Methods of teaching, listening, speaking, reading, and writing will be presented. Students will select and analyze ESL materials critically and be placed in a supervised classroom for 25 clinical hours. Concurrent enrollment in Education 100. Prerequisite: Education 203. 3 hours

342/542 Methods and Materials of Teaching Bilingual Students
This course will present a variety of program models, methodologies, and strategies that are appropriate for the bilingual student. Methods and materials for teaching mathematics, science, and social studies, and techniques for managing multilevel classrooms and curriculum development programs aimed at assisting students in a bilingual program will be studied. Concurrent enrollment in Education 107 or 108 (bilingual or ESL field experience) will be required to complete the field requirement. Prerequisites: Education 203 or current teacher certification. 3 hours

345/545 Assessment of Bilingual/ESL Students
The purpose of this course is to expose students to formal and non-formal instruments and methods for testing bilingual/culturally and linguistically diverse (B/CLD) individuals, and issues on non-discriminatory testing. This course will examine a wide selection of assessment techniques, which recognize the impact of environment and society on linguistic and student performance. The equivalent of 25 field-experience hours are required. Concurrent enrollment in Education 107 or 108 will be required to complete the field-experience requirement. 3 hours

380 General Methods
A study and discussion of theories and techniques of teaching. Specific topics include planning, organizing, methods of instruction, and assessment. Includes a mini-teaching component. Prerequisites: Education 203, 50 hours of teacher-aiding, and acceptance into the teacher education program. 3 hours

450 Student-Teaching: Elementary, 10 hours

454 Contemporary Issues Seminar
This course meets weekly during the semester of student-teaching. Discussion topics include contemporary issues, worldview implications for teaching, and preparation for teaching. 3 hours

455 Student-Teaching: Secondary, 10 hours
Student-teaching requires a commitment for the entire semester. Student-teachers may not be excused from student-teaching except in the case of illness or death in the immediate family. Student-teachers follow the calendar of the cooperating school for vacations and other days off.

Special Education Courses

111 Sign Language I
This class, open to all students, introduces beginning sign language vocabulary and an understanding of deaf culture. 2 hours

112 Sign Language II
This course is a continuation of Special Education 111. Students continue to develop their skills in Sign Language. 2 hours

216 Introduction to Exceptional Children
This course is an introduction to the characteristics of students with special needs and their education. Course topics include learning disabilities, giftedness, mainstreaming, and inclusion. Thirty (30) hours of teacher-aiding in a special education setting are required. Prerequisites: Psychology 123 and concurrent enrollment in Education 100. 3 hours

217 Psychological Diagnosis of Exceptional Learners
An introduction to the procedures for educational assessment of exceptional children. Emphasis will be placed upon informal assessment, observation, and criterion-referenced tests as well as norm-referenced tests designed for exceptional children. Prerequisite: Special Education 216. 3 hours

314 Teaching Students with High Incidence Disabilities, Age 3 - Grade 5
This course is designed to incorporate characteristics of students from age 3 through grade 5 with “high incidence” disabilities and methodologies for teaching them. “High incidence” refers to disabilities that occur most often. Included in this category are learning disabilities, mild social/emotional disorders, and mild mental retardation. A companion course, Special Education 316, addresses the needs of students from grade 6 through age 21. Prerequisites: Special Education 216 and Education 203 and concurrent enrollment in Education 100. 3 hours
315 Teaching Students with Low Incidence Disabilities, Age 3 - Grade 5
This course is designed to incorporate characteristics of students from age 3 through grade 5 with “low incidence” disabilities and methodologies for teaching them. “Low incidence” refers to disabilities that occur least often. Included in this category are moderate to severe mental impairments, social/emotional disorders, autism, traumatic brain injury, and physical and other health impairments. A companion course, Special Education 317, addresses the needs of students from grade 6 through age 21. Prerequisites: Special Education 216 and Education 203 and concurrent enrollment in Education 100. 3 hours

316 Teaching Students with High Incidence Disabilities, Grade 6 - Age 21
This course is designed to incorporate characteristics of students from grade 6 through age 21 with “high incidence” disabilities and methodologies for teaching them. “High incidence” refers to disabilities that occur most often. Included in this category are learning disabilities, mild social/emotional disorders, and mild mental retardation. A companion course, Special Education 314, addresses the needs of students from age 3 through grade 5. Prerequisites: Special Education 216 and Education 203 and concurrent enrollment in Education 100. 3 hours

317 Teaching Students with Low Incidence Disabilities, Grade 6 - Age 21
This course is designed to incorporate characteristics of students from grade 6 through grade 21 with “low incidence” disabilities and methodologies for teaching them. “Low incidence” refers to disabilities that occur least often. Included in this category are moderate to severe mental impairments, social/emotional disorders, autism, traumatic brain injury, and physical and other health impairments. A companion course, Special Education 315, addresses the needs of students from age 3 through grade 5. Prerequisites: Special Education 216 and Education 203 and concurrent enrollment in Education 100. 3 hours

319 Remediation of Language and Communication Disorders
This course is designed to address the unique characteristics of students ages 3 through 21 with language and communication disorders and devise teaching strategies to meet their needs. The normal role and development of language, along with the implications for teaching students with impairments in these areas, will be included. Prerequisites: Education 203, Special Education 216, Special Education 314, and Special Education 316. 3 hours

330 Communication and Collaboration
This course explores the interpersonal and collaborative skills necessary for today's educators in both regular education and special education settings, and for communication between the two disciplines. Topics include interpersonal work relationships among school professionals, models and strategies for co-teaching, relationships with parents, principles of effective verbal and non-verbal communication, and conflict resolution. Prerequisite: Special Ed. 216. 2 hours

380 General Methods for Special Education Teachers
This course is the study and implementation of teaching strategies for both general and special education populations, ages 3-21. Specific topics include lesson planning, preparation of IEPs (Individual Education Plans), methods of instruction, and assessment. A mini-teaching component is included. Concurrent enrollment in Education 100. Prerequisites: Education 203, Special Education 216, Special Education 314 and 316 (concurrent registration approved), 50 hours of teacher-aiding, and acceptance into the teacher education program. 3 hours

420 Topics in Special Education
This course explores current trends and practices in the field of special education, as well as the changing roles and responsibilities of the special educator. Prerequisites: Special Education 216 and two 300-level special education courses. 3 hours

450 Student Teaching — Low Incidence, 5 hours

455 Student Teaching — High Incidence, 5 hours

ENGLISH
Daniel J. Diephouse, Ph.D., department chairperson

“Our English department is incredibly supportive. Our professors are scholars who take their vocations seriously, and I would be lost without their guidance and encouragement. Not only do they open their office doors to you, but they teach you to be a student of the humanities. They graciously have given me the space I need to explore and refine my educational journey.”

Allison Backous ’06
English (Sauk Village, Illinois)

The department of English offers both major and minor concentrations. The English major offers course study in British and American literature, world literature, composition, and language that provides a background for graduate study. Both major and minor sequences also are designed for future elementary and secondary school teachers. In addition, students should be aware that an English major or minor can be helpful preparation for other vocations. Business administration majors, pre-medical, pre-seminary, and pre-law students should consider the advantages of the discipline of English for their specializations. Students interested in communications (journalism, public relations, library work, etc.) need a strong background in English.
General education requirements in oral communication for the English department are folded into English 201, 211, 272, 274, 276, 303, and 312, all of which have an oral presentation as part of the course. The capstone requirement is met through the development of a portfolio of selections from each major student’s writing in the four years and participation in the Senior Seminar. The field education requirement is met through an internship, either directed teaching with the education department or one worked out by the student with assistance from the student’s adviser.

Students with a teaching major in English education will minor in education and follow the education minor course requirement as listed in the education department section of the catalog.

The **English major** consists of the following 40 hours:

**102 Basic English**

Students review grammar and reading technique, and learn to structure paragraphs and essays. All students must have these skills as determined by ACT or SAT scores before proceeding to other English courses. 3 hours

**103 College English: Composition**

This study of rhetorical principles in theory and practice integrates the study of others’ essays with the student’s own writing. 3 hours

**104 College English: Introduction to Literature**

This course introduces students to a critical appreciation of poetry, drama, and short and long fiction. Literature written from Christian perspectives and non-Christian perspectives is included. Students write essays on subjects related to the literature being discussed. Prerequisite: English 103. 3 hours
108 Honors Writing
This course takes the place of English 103 for students in the Honors Program. 3 hours

201 Introduction to Poetry: Early British
Students study the contemporary situation for poetry—its practice, commentary, and pedagogy—before comparing it to the forms and purposes of poetry written from 450-1660 A.D. in Great Britain. The course introduces students both to the formal analysis of poetry and to its changing place in society. Prerequisites: English 103 and 104. 3 hours

203 Introduction to Narrative: American Fiction
Students study the development of the novel and short story in America as a cultural and artistic form. Emphasis on authors varies. In addition, the class discusses selections written by literary theorists having to do with the art of the narrative. Prerequisites: English 103 and 104. 3 hours

211 Linguistics
Students survey systematic approaches for analyzing language. The course includes a review of standard English grammar, phonology and morphology, and an introduction to the grammar of English dialects. Students write a paper related to their field of interest. Recommended for all elementary teachers, English majors, and social science students. 3 hours

270 Literature and History of the Ancient Mediterranean
This course describes the major geographical and historical outlines of the ancient western world; introduces major writers of history, dialogue, letters, essay, poetry, drama, and religious discourse; and questions ways that ancient Greece and Rome still may communicate with the modern world, especially but not only in the West. Prerequisites: History 103 and 104; English 103 and 104.

272 British and American Literature of the Colonial Period
This course deals with major figures and movements in British and American literature between 1660 and 1789. Students read authors who shaped the modern sense of self, the growing national self-consciousness, and the modern sense of historical periods, and who offered critiques of colonialism and slavery. Themes may vary. Prerequisites: English 103 and 104. 3 hours

274 British and American Literature from 1789 to 1865
This course deals with the major movements and figures in British and American literature from 1789 to 1865. The course is built on comparison and contrast between British and American literary reactions to the interrelated political, intellectual, and moral revolutions of the period. Prerequisites: English 103 and 104. 3 hours

276 Modern British Literature from 1860 to 1960
Students study poetry, fiction, and criticism within the cultural contexts of the end of the Victorian era, the two World Wars, and the beginnings of postmodernism. Such study includes changing perspectives on colonialism, women, symbolism, and psychological realism. Prerequisites: English 103 and 104. 3 hours

278 Modern American Literature from 1860 to 1960
This course deals with major movements and figures in American poetry and narrative from 1860 to 1960. The arrangement of the course is a broadly thematic one. The themes change from year to year, but one such thematic organization used in a recent offering was “Naturalism; Alternatives to Naturalism; The New Poetry; Search for the Self.” Prerequisites: English 103 and 104. 3 hours

280 Contemporary British and American Literature from 1960 to the Present
Students study poetry, fiction, and criticism within such cultural contexts as the Vietnam War, the reverse immigration of the colonies to England, and the development of postmodernism. Such study will include changing perspectives on postcolonialism, women, the “death” of the author and rise of the reader, and literature’s place within the larger phenomenon of cultural studies. Prerequisites: English 103 and 104. 3 hours

303 Rhetorical Backgrounds to English Literature
This course traces the influence of rhetoric on the creation of literature and the development of literary studies. Prerequisites: English 103 and 104. 3 hours

305 English Drama: Shakespeare
This course looks at the drama of Shakespeare with representative selections from the comedies, the tragedies, the history plays, and the romances. Prerequisites: English 103 and 104. 3 hours

312 Children’s Literature
Students read and discuss 50 books for literary qualities and appropriateness for young readers. They learn how to use resource materials to locate good books. Students relate their learning in children’s literature to the skills of storytelling, reading aloud, discussing, writing, and gathering information. 3 hours

321 Advanced Writing
This course includes exercises in the analysis and imitation of prose styles, essays as a contemporary art form, and academic or professional writing appropriate to the student’s major. Prerequisite: English 103. 3 hours

322 Background and Development of the English Language
In addition to treating what the title indicates, the course examines the relationships of English with other languages, past and present, and some of the contemporary developments of the language. Prerequisites: English 103 and 104. 3 hours
330 Literature of Oppression
An exploration of the sociology and the psychology of oppression as it is expressed in artistic literary narratives of different cultures and ethnic groups. The course has included fictional narratives from African-American, Native American, Russian, South African, and South American cultures. Fulfills one of the cross-cultural studies requirements for graduation. Prerequisites: English 103 and 104. 3 hours

331 Topics in Continental Literature
A study of an author, genre, or topic in non-English literature. Selected topics vary from year to year, according to current interests within the department and the profession. The course emphasizes the literary and cultural understanding of continental literature. The course is not offered on a regular basis. Prerequisites: English 103 and 104. 3 hours

332 Topics in English and American Literature
Students study an author or topic in American and/or English literature. Selected topics vary from year to year, according to current interests within the department and the profession. The course emphasizes research, interpretation, and writing, and gives students opportunity to work closely with one or more members of the English department on their current research interests. The course is not offered on a regular basis. Prerequisites: English 103, 104, and at least junior standing. 3 hours

333 Topics in Multi-Ethnic Literature
A study of an author, genre, or topic in non-English literature. Topics vary from year to year according to interests within the department and the profession. The course emphasizes the literary and cultural understanding of Third World or American ethnic literature. This course is not offered on a regular basis. Prerequisites: English 103 and 104. 3 hours

334 Postcolonial Literature
A study of the writing of nations that formerly belonged to the British Empire. After surveying how the empire historically has imagined its colonial authors, we will consider how those authors have used English both to redefine themselves and to resist the ideologies of those who once ruled them. Readings will include recent literary works from places as far ranging as Africa, South Asia, Australia, Canada, and the Caribbean, as well as selected works of postcolonial criticism. Fulfills one of the CCS requirements for graduation. Prerequisites: English 103 and 104. 3 hours

380 Teaching English in Grades 6-12
Methods and techniques of teaching English in grades 6-12. 2 hours

399 Independent Study
Open to qualified students by permission of the department and instructor. 1-4 hours

400 Field Education
Education students fulfill this requirement through student-teaching. Others fulfill it through internships pursued by the student in conjunction with his or her adviser. 2-6 hours

401 Senior Seminar
Senior English and English education majors are required to participate in the senior seminar the fall semester of their senior year. They will assess their programs in writing by examining the portfolios that they have been building during their four years. They will reflect on the development of the relationship between their faith and their learning by discussing a series of reading, writing responses to them, and presenting the results to the group. 2 hours

FIRST YEAR FORUM

111 First Year Forum (or Framing Your Future)
First Year Forum 111 (or Framing Your Future 111 for transfer students) is a one-credit general education course. FYF 111 is run in conjunction with orientation throughout the days prior to the fall semester. The College’s mission, diversity, and community engagement are studied in both large and small group settings. FYF 111 provides incoming students an opportunity to connect with faculty, staff, and students while being introduced to Christian scholarship and Trinity’s Reformed tradition.

FOREIGN LANGUAGES

Burt Rozema, Ph.D., department chairperson
Paul Roggendorff, Spanish program coordinator
Mark Triller, international director, Semester in Spain (SIS)

“I chose Spanish because I love to experience other cultures, and it could benefit my future since so many jobs need Spanish-speaking employees. I am receiving a quality Christian education with quality Christian professors. I enjoy the small sizes of the classes because I get to know my professors personally. They are always available to help and make sure that I’m doing well in class.”

Jenna Stasny '07
Spanish (Gaithersburg, Maryland)
Upper-level courses (SPAN 300 and above) fall within one of three broad categories: language, literature and culture. Majors and minors will be advised to concentrate their studies in one or more areas, based on the student’s expressed interests and/or future plans. Lower-level courses are designed to bring the student’s proficiency in Spanish up to the level that makes advanced work feasible. Therefore, lower-level courses primarily target language acquisition and usage. These courses are sequential in nature, beginning with SPAN 101 and continuing through 102, 201 to 202.

Students with no prior exposure to Spanish should start with SPAN 101. However, students who have taken Spanish in high school or who have acquired Spanish through other means are encouraged to take the placement exam to determine where to start in the sequence.

Placement exam: All students taking a college Spanish class for the first time will be required to take the Web-CAPE placement exam. A link to the online exam is available through the Spanish page of the College’s Web site. This exam is to determine the best starting point in the lower-level courses. Students who demonstrate exceptional Spanish language proficiency may, with the instructor’s consent, begin Spanish course work with an upper-level course.

Placement Credit Policy: Students who take the Web-CAPE placement exam are eligible for placement credits on condition that they subsequently take the Spanish course into which they were placed and earn a grade of B or better. Placement credits are available only for Spanish 201 (if placed into 202) or 201-202 (if placed at the 300-level or higher). Students who transfer Spanish courses into Trinity are placed at the level appropriate to their transferred work and are not eligible for placement credits.

The Spanish major consists of a minimum of 33 hours of coursework in Spanish language, literature, and culture. The Semester in Spain (SIS) experience must include the following coursework at the 300/400-level: eight hours of literature, four hours of culture, and four hours elective. Spanish 400 is designed to be taken concurrently with the SIS experience. The requirements are:

Greek and Latin

The Greek and Latin programs provide the necessary requisites for pre-seminary and theology majors, as well as for students who desire to enrich their programs with the study of an ancient language and literature. Elementary and Intermediate Greek are taught in alternate years.

Greek

101 Essentials of Greek
This introductory study of the Greek language emphasizes grammatical structure and vocabulary building. 3 hours

102 Essentials of Greek
Continuation of 101. 3 hours

201 Intermediate Greek
Students build skill and vocabulary by translating selections from Greek literature, primarily the New Testament. 3 hours

202 Intermediate Greek
Continuation of 201. 3 hours

Latin

101 Elementary Latin I
An introductory course in the Latin language, including vocabulary, morphology, and basic grammatical structures. Readings will be in a wide selection of excerpts from Latin authors as appropriate to the level. 3 hours

102 Elementary Latin II
Continuation of 101. 3 hours

Spanish

In addition to offering coursework in Spanish language, the Spanish program helps develop a Christian perspective on Hispanic culture, history, and literature, as well as the opportunity to study and live abroad. Students majoring in Spanish are provided with sufficient knowledge, training, and practical experience for continued study at the graduate level, or teaching K-12 Spanish. Also, a minor or a second major in Spanish augments vocational skills and enhances employment opportunities in business, government, law, social work, and health industry, among others.

www.trnty.edu
The **Spanish minor** consists of 18-20 hours of study in Spanish language, literature, and culture. The requirements for the minor are:

- **SPAN 101** Elementary Spanish I 4 hours
- **SPAN 102** Elementary Spanish II 4 hours
- **SPAN 201** Intermediate Spanish I 3 hours
- **SPAN 202** Intermediate Spanish II 3 hours
- **SPAN 301** Advanced Grammar and Conversation 3 hours
- Approved electives at the 300/400-level 3-9 hours

A study-abroad program is encouraged strongly for the minor. Business majors interested in a Spanish minor are encouraged to consider the business option for Semester in Spain’s Intermediate Sequence. The requirements for the minor through Semester in Spain are:

Semester in Spain’s intermediate sequence (traditional or business)
- **SIS 251** Intermediate Spanish Grammar/Composition I 4 hours
- **SIS 252** Intermediate Spanish Grammar/Composition II 4 hours
- **SIS 301** Advanced Spanish Grammar and Conversation 4 hours

One of the following:
- **SIS 303** Selected Readings in Spanish Literature 4 hours
- **SIS 307** Spanish and European Business 4 hours
- Approved elective 3-4 hours

### 101 Elementary Spanish
A study of the basic grammatical structure of the language and vocabulary, with intensive oral and aural practice. Students will learn to train the ear to begin to recognize the sounds and thereby understand the language. In addition, students will begin to learn some basic geographical, historical, and sociological facts in order to appreciate the language’s cultural context. Prerequisite: Placement exam result. 4 hours

### 102 Elementary Spanish
This continuation of Spanish 101 emphasizes speaking and understanding the language, while continuing to study the grammar. Prerequisite: Spanish 101 or placement exam result. 4 hours

### 201 Intermediate Spanish
This continuation of the study of the Spanish language recycles and expands upon the basic grammatical structures and vocabulary groups learned at the 100-level. Emphasis still is placed on oral and aural communication. The skills for interpreting cultural products (film and texts) are introduced. Prerequisite: Spanish 102 or placement exam result. 3 hours

### 202 Intermediate Spanish
This course culminates the introduction and practice of basic oral, aural, reading and writing skills. Prerequisite: Spanish 201 or placement exam. 3 hours

### 301 Advanced Grammar and Conversation
This course is intended to develop all general aspects of formal and informal oral communication. Prerequisite: Spanish 202 or placement exam result. 3 hours

### 315 Culture and Civilization of Spanish America
This course explores Spanish-American cultural products and practices through an examination of history and essays in Spanish. Prerequisite: Spanish 301 or Spanish 202 and concurrent enrollment in Spanish 301. 3 hours

### 351 Advanced Grammar and Composition
This course exposes the student to techniques of writing for a variety of formal and informal needs. Special advanced topics in grammar are presented that aid the production of clear, effective writing. Prerequisite: Spanish 301 or equivalent. 3 hours

### 365 Spanish American Literature I
This introductory study of Spanish-American literature reviews the most representative passages of key works from the conquest to the independence (16th through 19th centuries). Prerequisite: Spanish 351 or equivalent. 3 hours

### 366 Spanish American Literature II
This introductory study of Spanish-American literature reviews the most significant passages of key works of from independence to the present (19th through 21st centuries). This course satisfies the Spanish-American literature requirement. Prerequisite: Spanish 351 or equivalent. 3 hours

### 368 Special Topics of Literature
This course is an in-depth examination of some particular body of Spanish-American literature. Topics vary from year to year, according to current interests within the department and the profession. Prerequisite: Spanish 351 or equivalent. 3 hours

### 380 Methods of Teaching Spanish
This course involves study, discussion, and application of theories, methods, and techniques of teaching Spanish in grades K-12. Specific topics include instructional strategies, objectives and planning, content and organization, methods of instruction, curriculum trends, teaching aids, and assessment. Prerequisites: Spanish 351 or equivalent. 3 hours

### 400 Field Education
This course provides the opportunity to take part in an internship or project relevant to the Spanish major and to the student’s chosen minor(s). The student’s future vocation serves as the main criterion for selection of the assignment. To be taken in conjunction with SIS. Prerequisites: Concurrent enrollment in SIS. 1 hour
451 Senior Seminar
This course provides the context for students to engage in summative reflection upon the Christian worldview from the perspective of Spanish. This course also will serve as a forum for discussing practical matters such as future careers, graduate schools, as well as testing the student’s exit proficiency in Spanish. Prerequisites: senior standing and instructor’s consent. 1 hour

Semester in Spain
Trinity offers a unique program for studying beginning, intermediate, or advanced Spanish in the ancient city of Seville, Spain.

The beginning sequence is offered for students who have little or no coursework in Spanish. It includes courses 101, 102, 201, and 202 for a total of 16 hours of credit. These courses, normally taken over a two-year period in the United States, are taught consecutively in one-month intervals over the course of one semester.

For students who have completed only two semesters of Spanish, the program offers a choice of intermediate tracks based on an interest in business or literature. In the sequences, all intermediate students will take 251 and 252 consecutively. During the second half of the semester, students will take 301 and will choose between 303 and 309 as they take the third and fourth courses simultaneously during the last two months.

For advanced students, a selection of 300- and 400-level courses is offered in areas such as language, literature, and culture.

Each course generally covers the same material taught in most colleges in the United States. However, students have the added advantages of living with a Spanish family, being exposed daily to Spanish culture, being taught by native teachers who conduct all classes in Spanish, and having to communicate in Spanish outside the classroom setting.

Beginning Sequence
This 16-hour, four-course sequence meets the foreign language requirement for graduation at most U.S. colleges. The four courses are taught in a continuing sequence over a four-month period.

101 Beginning Spanish I
In this communicative course, basic structures are introduced gradually with intensive practice in the use and comprehension of oral and written Spanish. 4 hours

102 Beginning Spanish II
A continuation of 101. 4 hours

201 Intermediate Spanish I
Review of functional aspects of the language and further training in spoken and written Spanish. 4 hours

202 Intermediate Spanish II
Students review essential grammatical structures. The course also introduces new tenses, such as future and conditional, and the basic uses of the subjunctive. 4 hours

Intermediate Sequence
Semester In Spain also offers a 16-hour, four-course intermediate sequence for students who have completed Spanish 101 and 102 and who are comfortable speaking and understanding the language at basic levels.

251 Intermediate Spanish Grammar and Composition I
Students will be introduced to Castilian Spanish grammar with emphasis on the familiar plural verb tense, expanded vocabulary, and correct punctuation. This course is taught in an accelerated format in the first quarter of the semester. Students will improve their understanding of Spanish grammar, sentence structures, and verb tenses by reading and writing Spanish compositions, and by interacting with Spaniards outside of the classroom. 4 hours

252 Intermediate Spanish Grammar and Composition II
This course is a continuation of SIS 251. 4 hours

301 Advanced Grammar and Conversation
This intensive review of the functional aspects of the language emphasizes the uses of the subjunctive. This course also is intended to develop greater facility in oral communication. 4 hours

And choose between:

303 Selected Readings in Spanish Literature
The study and perfection of the language through a selection of readings by Spanish writers of the 19th and 20th centuries. 4 hours

or

309 Spanish and European Business
Study of the Spanish language vocabulary, dialogues, reading comprehension, writing, and correspondence applied specifically to the business world. Presentation of the current economic situation in Spain and its relationship to the European Union. Study of the EU economy, financial institutions, administration of spending, and the integration of these into the world economy. 4 hours
Advanced Courses
The following courses are offered to students who have completed the first two years of college Spanish and already speak and comprehend Spanish quite well. 400-level courses are offered only to students who already have completed some 300-level courses, usually in literature or history.
Note: (SP) denotes a course offered in the spring semester only; (F) denotes a course offered in the fall semester only; (SU) denotes a course offered in the summer only.

304 Spanish Short Story
An in-depth study of the Spanish language through a selection of writings by three of the most significant contemporary Spanish storytellers. 4 hours

306 History of Spanish Art
This course covers the most significant elements of Spanish art: Moorish art, Romanic, Gothic, and Baroque, including paintings of Murillo and Velázquez; modern art, including 20th century painters such as Picasso and Dali. The use of videos and slides as well as visits to museums and monuments are included. 4 hours

307 History of Spanish Art (F, SP)
This course is intended to give the student a general view of present-day Spain: its society, mentality, customs, political organization and relations with the rest of the world. It is team-taught by our faculty in Spain. 1 hour

309 Spanish and European Business
May be offered at the advanced level. 4 hours

311 History and Civilization
A synthesis of the political, socioeconomic, and cultural history of Spain from the prehistoric period through imperial Spain including the 18th century. 4 hours

312 Spain of Three Cultures (SU)
This course will provide an exciting look into the Jewish, Moorish, and Christian cultures of IX-XV century Spain. Several excursions are planned as students will discover the setting for transition from one culture to the next. 4 hours.

351 Advanced Grammar and Composition
Includes the use of advanced grammatical structures, i.e., uses of the subjunctive, “ser” and “estar,” “por” and “para,” etc. The techniques of writing clearly and concisely are included. 4 hours

355 Spanish Literature I (F, SU)
This introductory study of the history of Spanish literature reviews in theory and practice the most representative passages of the key works of the Middle Ages, Renaissance, and Golden Age (the 11th through 17th centuries). 4 hours
408 La Historia de España en el Siglo XX
Starts with a brief introduction of 19th-century history and continues with a study of the history and sociology of the present democratic Spain. The recent history of the country is analyzed: the most important political events (Republic, Civil War, Franco’s dictatorship, and democracy), the social and economic structures during the century, and the development of the Spanish way of life and way of thinking. 4 hours

450 Partnered (Service) Learning in Spain
Students will receive orientation to agencies that assist Spaniards in need. They also will gather to receive functional linguistics training in their specific area of service (e.g. hospital setting, education, youth work, or elderly). Students then will serve volunteer positions with Spanish churches, agencies, and independent organizations whose aim is to improve the social welfare of Spanish citizens. 2 hours

GEOLOGY

101 Earth Science
This course is a survey of minerals, rocks, historical geology, landforms, weather patterns and climates, freshwater systems and oceanography, the solar system and galaxies. It consists of two hours lecture per week and equivalent laboratory time. Some laboratories will be full-day field trips on Saturdays. This course may not be used to fulfill the general education physical science requirement. 3 hours

201 World Geography
Topics covered in this course include maps, landforms, weather and climate, populations, natural resources, political systems, economic systems, cultural diversity, and urbanization. The course emphasizes relationships between developing countries. Prerequisite: sophomore standing or permission of the instructor. 3 hours

The following courses are available through AuSable Institute of Environmental Studies. For a description of this program see the Biology section of the catalog.

316 Field Geology (AuSable Geol/Geog 316)
Geology as the context of ecosystem and human settlements. An introductory geology course with emphasis placed upon field observations of geological processes, both past and present. Although glacial geomorphology is a dominant theme, such topics as mineral and rock classification, seismology, groundwater flow, fossil fuel resources, climactic change, map interpretation, and fossil identification are included. Prerequisite: one year of science.

322 Land Resources (Same as Biology 322 - AuSable)

339 Natural Resources Practicum (Same as Biology 339 - AuSable)

HISTORY

John Fry, Ph.D., department chairperson

“It’s really cool to see how God reveals Himself and how His plan intertwines throughout the events of history. I like learning about the past and how it impacts the present and future. The professors here are committed to what they teach, and if they don’t have an answer to a question, they will research until they can give you the correct answer.”

Devin Brinks ‘07
History (Hudsonville, Michigan)

The department of history in the core and upper-level courses endeavors to introduce students to a Christian understanding of the nature of history. The primary objective is to achieve a clear perspective on the formation of Western civilization so as a Christian community we may become more sensitive to the nature of cultural formation and more fully understand the time in which we live and are called to work.

The history major and secondary education history major consists of 39 hours:

Required courses (15 hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 103</td>
<td>America and Western Civilization</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>HIST 401</td>
<td>Senior Research Seminar: Topics in History</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives (21 hours):

1. Electives in American history survey (6 hours)
   Choose two from the following: History 231, 232, 335, 338

2. Elective in European and Trans-Atlantic history (3 hours)
   Choose one of the following: 209, 211, 216, 282, 305, 353, 358

3. Elective in non-Western history (3 hours)
   Choose one of the following: 281, 285, 286, 383

4. Other history electives (9 hours)

Communication requirement (3 hours):

admissions@trnty.edu
History majors seeking **certification in secondary education** should follow the standard history major, with the following additional requirements:

1. Students seeking certification must take History 282 and History 338 as history electives (part of the 39 hours in the history major; these may be used to fulfill American and European electives);

2. Students seeking certification must take History 380 (2 hours) in addition to the 39 hours required for the major;

3. Students seeking certification should fulfill the Cross-Cultural Studies General Education requirement by taking Geology 201, and the Social Science requirement with Psychology 123.

A **history minor** consists of (18 hours):

- Required courses (9 hours):
  - HIST 103 or other American history elective 3 hours
  - HIST 104 or other European history elective 3 hours
  - HIST 200 Introduction to Historical Inquiry 3 hours

- Three other history electives (9 hours)

### 103 America and Western Civilization
This course examines basic themes in the history of America from British colonization to the present. It focuses on the development of American identities, developments in American society, and expressions of American culture. 3 hours

### 104 Europe and Western Civilization
This course examines the history of Europe from the Renaissance to the present. It focuses on the shaping cultural power of classical and Christian traditions, the interaction between the West and the world, and the development of diverse secular ideologies in the modern world. 3 hours

### 200 Introduction to Historical Inquiry
An introduction to the basic methods and questions of historical scholarship. Attention will be given to historiographical schools of interpretation, strategies for research, and consideration of the relationship between Christian faith and historical study. Prerequisites: History 103 and 104, or permission of instructor. 3 hours

### 209 20th Century Europe
This course will examine the development of European culture in the 20th century with special emphasis on European politics and the Western intellectual tradition. Prerequisite: History 104 or permission of instructor. 3 hours

### 211 Modern Britain
This course will examine the history of Britain since 1688, with special attention given to the developing Western liberal tradition, the expanding imperial state, the coming of industrial society, and the imposing contemporary crises of 20th-century Western culture. 3 hours

### 216 History of Russia from Peter the Great to the Present
This study of the Russian Empire emphasizes the political and social institutions, the motives behind the Russian Revolution, the subsequent establishment of the communist political and social order, and its role as a world power in the 20th century. 3 hours

### 231 Colonial Americas
A study of the North American region from the arrival of European colonists to the establishment of an independent United States. Special attention is given to the interaction of European and Native American peoples, cultural encounter, and the development of regional cultures. Prerequisite: History 103. 3 hours

### 232 Making of America: The Development of the Republic, 1789-1865
A study of the United States from the formation of an independent republic to the reconstruction of the Union after the Civil War. Special attention is given to regional cultures, political ideologies, the role of religion, and struggles to define and articulate American identity and culture. Prerequisite: History 103. 3 hours

### 233 Reconstructing America: The United States, 1865-1920
This course will examine the processes of industrialization, urbanization, and immigration that reconstructed American economic, political, religious, and cultural institutions in the late 19th and early 20th centuries. Prerequisite: History 103. 3 hours

### 240 African-American History
This course examines the development of African-American culture in American history. The course emphasizes the different meanings of being a people, the impact of slavery, the ambiguities of freedom, and the relationship of African-American culture to other cultures in America. 3 hours

### 241 Law and Western Culture
This course examines the significance of law in the development of Western culture by: studying the classical and Judeo-Christian roots of law; analyzing the legal principles and systems that have been derived from those foundations; and assessing contemporary legal interpretative schools and applications of those interpretations. This course is identical to Political Science 241. 3 hours
244 Law, Justice, and Culture
The purpose of this course is to prepare students for public service in law, government, and politics by providing worldview training in the Judeo-Christian tradition. In particular, students are introduced to the concept of transcendent moral truth in the Western legal tradition and challenged to integrate the biblical understanding of justice into their lives and career callings. This course is identical to Political Science 244. 3 hours

246 The City in the Americas
Students compare the historical formation and development of representative cities in North and South America. Special attention is given to Chicago. Students are encouraged to use the excellent research facilities available in Chicago, particularly the Chicago Historical Society. This course is identical to Sociology 202. 3 hours

270 History and Literature of the Ancient Mediterranean
This course describes the major geographical and historical outlines of the ancient Western world; introduces major writers of history, dialogue, letters, essay, poetry, drama, and religious discourse; and questions ways that ancient Greece and Rome to a broader focus on the interactions of the Mediterranean world. This course is identical to English 270. Prerequisites: History 103 and 104; English 103 and 104.

280 Methods: International Perspectives
This course examines the cultures of Latin America, Asia, and Africa through a description of cultural development, integrated themes, and local primary sources. Woven through the course is an emphasis on curriculum and pedagogy for grades K-9. This course does not count toward a history major or minor. Prerequisites: junior standing, History 103 and 104, Education 203. 3 hours

281 History of Africa
This course examines the development of African cultures, the impact of Europeanization and modernization on Africa, and the contest of contemporary visions and ideologies in Africa. 3 hours

282 The West and the World in the 20th Century
This course examines the relationship between Western and non-Western cultures through the development of colonization, decolonization, and global interdependence. Students will encounter Western and non-Western cultural interaction through political treatises, literature, film, U.N. statistics, and economic assessments. 3 hours

285 Development of Global Christianity
A survey the history of Christianity from late antiquity to the present outside of the Western world, including the Middle East, Asia, Africa, and Latin America. Particular attention will be given to how the universal Christian faith is enculturated in non-Western cultures. This course is identical to Theology 285. 3 hours

286 History of Latin American Civilization
Students study the native American and Spanish-Portuguese heritage in Latin America from European colonization to the contemporary world. This course examines the impact of colonialism, the period of emerging national states, the hemispheric relations with North America, and the challenge of the developing Third World cultures. 3 hours

305 History of the Renaissance and Reformation, 1350-1650
This course examines the history of Early Modern Europe, with special emphasis on the cultural and intellectual developments of Renaissance humanism and the Reformation movements in Germany and Switzerland. 3 hours

338 Envisioning America: The U.S. Since the 1920s
This course will examine the competing political worldviews that have shaped American cultural development and public policy since 1920. This course also will offer Christian critique of these diverse ideologies. Prerequisite: History 103. 3 hours

342 American Thought and Culture
Students examine selected themes in American culture from colonial times to the present with possible emphasis on topics such as American pragmatism and its consequences, culture and the wilderness, and democracy and individualism. 3 hours

343 Religion in America
This course is a historical and theological survey of religion in the United States as a means toward understanding the current pluralistic scene. The influence of Puritanism, evangelicalism, and liberalism upon American religious life is emphasized. This course is identical to Theology 343. 3 hours

345 Topics in History
A study of specialized subject matter, varying each semester depending upon interests of the instructor and students. Possible topics include the Civil War, history of immigration, and the modern environmental movement. This course may be repeated when offered with different content. 3 hours

353 History of Economic Thought
This course is a representative study of the economic ideas that had a formative role in the shaping of economic theories and institutions from the Reformation to the present. This course is identical to Economics 332. 3 hours

358 History of Christianity
Students examine the development of Christian thought and the Christian church as the covenant people of God from the Old Testament era to the present. After surveying the Old Testament origins of the church, students examine the life of the Western church during the medieval, Reformation, and modern periods. This course is identical to Theology 330. 3 hours
**INTERDISCIPLINARY MINOR**

**Church Music Minor**

The interdisciplinary minor in church music is designed to equip students for service in a local church in the area of music ministry. The required coursework emphasizes an understanding of diverse traditions of church music from both a theological and a musical perspective. The program further encourages and facilitates practical involvement in church music for interested students.

The interdisciplinary minor in church music consists of the following 19 hours:

- CHML 307 Worship Leadership 3 hours
- MUSIC 111 Introduction to Music Literature 3 hours
- MUSIC 201 Music Theory I 3 hours
- MUSIC 231 Musicianship I 1 hour
- MUSIC 332 Church Music 3 hours
- THEO 301 Basic Teachings of the Christian Faith 1 hour
- THEO 304 The Nature and Ministry of the Church 3 hours

In keeping with Trinity’s guidelines for interdisciplinary minors, general music majors completing the church music minor are required to take an additional three hours in theology or church and ministry leadership. One of the following courses is recommended: Church and Ministry Leadership 101, 201, or 305; Theology 330, 331, or 343.

In keeping with Trinity’s guidelines for interdisciplinary minors, theology majors completing the church music minor are required to take an additional three hours in music. One of the following courses is recommended: three semesters of private lessons or ensemble; Music 311, 312, 313, or 252.
The mathematics minor (18 hours):
MATH 111 Analytic Geometry and Calculus I 4 hours
MATH 112 Analytic Geometry and Calculus II 4 hours
MATH 211 Analytic Geometry and Calculus III 4 hours
Two additional mathematics courses at the 200 or 300 level.
Mathematics 280, 380, and 381 do not count toward the minor.

The mathematics education minor (22 hours):
MATH 109 or 110 Math Concepts for Teachers I, II 3 hours
MATH 105 or 151 Statistics 3 hours
MATH 111 Analytic Geometry and Calculus I 4 hours
MATH 210 Discrete Structures 3 hours
MATH 280 or 380 Methods of Teaching Math 3 hours
CPSC 109 Technology in Education 3 hours
One additional course from the following:
Mathematics 301, 321, 370, or 399 3 hours

100 Intermediate Algebra
This course prepares students for Mathematics 101 by emphasizing concepts and skills contained in an intermediate algebra course. Students will strengthen their backgrounds in algebraic manipulation and equation-solving, and will study systems of linear equations and absolute values as preparation for more advanced mathematics courses. Prerequisite: two years of college preparatory high school mathematics. 3 hours

101 Precalculus
This course examines functions and relations from numerical, symbolic, graphical, and descriptive points of view. Algebraic and transcendental functions such as polynomial, rational, exponential, logarithmic, trigonometric, and inverse trigonometric will be the primary focus. Labs designed to reinforce prior material through collaborative work and introduce applications of functions will be interspersed throughout the course. Supplementary topics include conic sections, polar coordinates, and complex numbers. Prerequisite: three years of college preparatory high school mathematics. 4 hours

103 Mathematics within a Liberal Arts Tradition
This course examines the discipline of mathematics from a variety of interrelated perspectives. These perspectives include historical, philosophical, and cultural origins of the discipline; the nature of the discipline; and applications of the discipline to the natural and social sciences as well as to everyday life. 3 hours

105 Statistics for the Social Sciences
This course examines concepts necessary for proper application and interpretation of statistical methods. Topics include descriptive statistics, probability and probability distributions, inferential statistics, and an advanced topic (e.g., chi-square analysis). Use of appropriate technology complements the instruction. 3 hours

Music

Helen Hoekema Van Wyck, D.M.A., department chairperson

"Our music department continues to grow, and the students have a variety of resources available to them. Instead of focusing on one aspect of music, I can pursue multiple interests. By getting that kind of diverse experience, I feel I'll be much better prepared to embark on whatever musical career I choose."

Eric Downs ’07
Music Performance (Freeport, Illinois)

Three music major programs are offered: a general music major, for students who want to pursue graduate study in music or combine it with another major; a music education major (K-12) with choral or instrumental emphasis, for students who want to become certified to teach music at the elementary or secondary level; and a music performance major, for students who plan to concentrate on vocal or instrumental performance.

Requirements for the general music major include:
- 3 music theory courses from 201, 203, 204, 303 9 hours
- 1 semester of class piano (200) 1 hour
- 2 semesters of musicianship (231, 233) 2 hours
- 1 semester of public speaking (COMM 101) 3 hours
- 3 music history courses (111 plus two from 311, 312, 313) 9 hours
- 4 semesters of private lessons or ensemble 4 hours
- Electives in music 4-5 hours
- Senior Seminar (401) 1 hour
- Field education 2-6 hours

Total: 35 hours

Requirements for the music education major with choral emphasis include:
- 4 music theory courses (201, 203, 204, 305) 12 hours
- 1 semester of class piano (200) 1 hour
- 4 music history courses (311, 312, 313) 12 hours
- 2 music education courses (380, 383) 5 hours
- 2 conducting courses (351, 351) 4 hours
- 1 world music course (252—satisfies cross-cultural requirement) 3 hours
- 4 semesters of concert or campus choir 4 hours
- 3 semesters of private lessons, at least two of which are in voice 3 hours
- Senior Seminar (401) 1 hour
- Field education (student-teaching) 2-6 hours

Total: 47 hours
Music education majors also are required to fulfill all requirements of the education minor as found in the education department section of the catalog.

Requirements for the music education major with instrumental emphasis include:

- 4 music theory courses (201, 203, 204, 303) 12 hours
- 1 semester of class piano (200) 1 hour
- 2 semesters of musicianship (231, 331) 2 hours
- 4 music history courses (111, 211, 212, 213) 12 hours
- 2 music education courses (380, 383) 5 hours
- 2 conducting courses (331, 352) 4 hours
- 1 world music course (252) 3 hours
- 4 semesters of instrumental ensemble 4 hours
- 3 semesters of private lessons 3 hours
- Senior Seminar (401) 3 hours
- Field education (student-teaching)

Total: 49 hours

Music education majors also are required to fulfill all requirements of the education minor as found in the education department section of the catalog.

Requirements for the music performance major include:

- 4 music theory courses (201, 203, 204, 303) 12 hours
- 1 semester of class piano (200) 1 hour
- 2 semesters of musicianship (231, 331) 2 hours
- 1 semester of public speaking (COMM 101) 3 hours
- 4 music history courses (111, 311, 312, 313) 12 hours
- 8 semesters of private lessons (2 credits per semester) 16 hours
- 2 semesters of ensemble 2 hours
- Electives in music 2 hours
- Field education/recitals (half recital in sophomore year, full recital in senior year) 3 hours
- Senior Seminar (401) 1 hour

Total: 54 hours

There are three types of minors offered in music: a general music minor, a middle grades endorsement in music for education majors, and a church music minor.

Requirements for the general music minor include:

- 2 music theory courses (201 and 203) 6 hours
- 2 music history courses (111 and one from 311, 312, 313) 6 hours
- 2 semesters of musicianship (231, 233) 2 hours
- 2 semesters of private lessons or ensemble 2 hours
- Electives in music 4 hours

Total: 20 hours

Middle grades endorsements are described in the course requirements for education (page 126). The church music minor is listed under interdisciplinary minor (page 161).

A maximum of 10 hours of applied music or ensemble may be applied to the graduation requirements for students who are not music majors or minors.

### Music Theory Courses

#### 200 Class Piano
An introduction to basic keyboard facility in a group setting. This course is designed to help students to learn to play major and minor scales and basic harmonic progressions in major and minor keys. Required of all music majors; can be fulfilled by passing a keyboard proficiency test. Prerequisites: Music 111 and concurrent enrollment in Music 201. 3 hours

#### 201 Music Theory
An overview of the structures and fundamental materials of music, including intervals, scales, keys, and chord structures. Emphasis is placed on the study and analysis of music of the 17th-19th centuries. Prerequisite: Music 111 or permission of instructor. 3 hours

#### 203 Intermediate Music Theory I
This course continues the study of the structures and materials of music, including harmonic analysis, figured bass, non-harmonic tones, and cadences. Prerequisite: Music 201. 3 hours

#### 204 Intermediate Music Theory II
Continuation of Music 203, which is a prerequisite. 3 hours

#### 231 Musicianship I
Foundational training in and practice of aural, sight singing, improvisation, and keyboard harmony skills. To be taken in conjunction with Music 201. 1 hour

#### 233 Musicianship II
Continuation of Music 231, providing more advanced training in aural, sight singing, improvisation, and keyboard harmony skills. To be taken in conjunction with Music 203. 1 hour

#### 303 Advanced Music Theory
A study of counterpoint, form and analysis, and orchestration for advanced music students. Music 201, 203, and 204 are prerequisites. 3 hours

Programs of Study
Music History Courses

111 Introduction to Music Literature
This course introduces the basic materials of music and an overview of the most important forms, styles, and composers of Western music, with an emphasis on intelligent listening. This course is a prerequisite for Music 211, 212, and 213. 3 hours

311 Music History: Early Music/Renaissance
This course examines the development of Western music from earliest times through the Renaissance. Prerequisite: Music 111. 3 hours

312 Music History: Baroque/Classical
This course examines the development of Western music in the Baroque and Classical eras. Prerequisite: Music 111. 3 hours

313 Music History: 19th Century - Present
This course examines the development of Western music from the 19th century to the present with particular consideration of American musical traditions. 3 hours

Electives

252 World Music
This course studies music in cultures outside the mainstream of North American and western European traditions, including Native American, African, African-American, Eastern European, Indian, Asian, and Latin-American cultures and traditions. Meets the cross-cultural studies requirement for graduation. Required of all music education majors. 3 hours

331 Introduction to Conducting
This course introduces the techniques of conducting a musical ensemble, including the study of manual technique, musical interpretation, and score preparation. Prerequisites: Music 201 and membership in an ensemble, or permission of instructor. 2 hours

332 Church Music: History and Issues
Emphasizing the biblical and theological foundations of church music, this course examines church music literature from the early church to the present day. It includes an overview of liturgy, hymnology, and choral and instrumental music for the church, with particular emphasis on American church music of diverse Christian traditions. It further explores current issues related to church music within the context of present musical practices. Recommended for anyone involved in church music, including musicians, pastors, worship leaders, and lay leaders. 3 hours

334 Piano Pedagogy
This course introduces the field of piano teaching, and includes a study of the learning process and its application to teaching and performing. Materials, procedures, and techniques pertinent to beginning, intermediate, advanced, and pre-music major students are examined. Offered on demand. 2 hours

351 Advanced Choral Conducting
This course focuses on topics of importance to choral conductors, including score study and preparation, rehearsal techniques, developing choral tone, repertoire selection, and conducting choral-orchestral works. Prerequisite: Music 331. 2 hours

352 Advanced Instrumental Conducting
This course focuses on topics of importance to instrumental conductors, including score study and preparation, rehearsal techniques, instrumental pedagogy, and advanced conducting gestures. Prerequisite: Music 331. 2 hours

380 Elementary Music Education
This course gives an overview of the aims, content, and procedures of a music program from kindergarten through middle school, emphasizing the elementary music curriculum. The course may include observations of actual elementary music teaching situations. Prerequisite: Music 201 or permission of instructor. 2 hours

383 Secondary Music Education
This course gives an overview of the objectives, content, and methodology of vocal and instrumental music programs at the secondary level. Topics include rehearsal techniques, music selection, music budgets and program administration, and vocal and instrumental methods. Prerequisite: Music 380. 3 hours

399 Independent Study
Topics are selected from qualified students' major interests. Prerequisite: permission of the department. 1-3 hours

Private Lessons/Applied Music Courses

121 Piano Lessons
Private instruction in piano consisting of one half-hour lesson per week. Applied music fee required. 1 hour

221 Piano Lessons for Majors
Private instruction in piano for music performance majors, consisting of one one-hour lesson per week. Applied music fee required. 2 hours
Ensembles

130 Campus Choir
Students study and perform choral music. Emphasis is placed on building choral tone, developing vocal technique, and improving sight-reading skills. The Campus Choir will perform for campus events and concerts each semester. 1 hour

131 Concert Choir
Students study and perform a variety of choral literature. The choir is open to students who successfully complete an audition with the director. Previous singing experience and good sight-reading skills are expected of Concert Choir members. The choir performs a major concert and several church services each semester, and tours annually. 1 hour

132 Wind Ensemble
The study and performance of instrumental music literature. The course is open to players of woodwind, brass, and percussion instruments. 1 hour

133 Honors Ensemble
The members of this select vocal ensemble are chosen by competitive audition and are recipients of the Janet De Maa Ozinga Memorial Scholarship. Members are required to sing in Concert Choir. 1 hour

134 String Ensemble
The study and performance of music literature written for string instruments. 1 hour

136 Jazz Band
An ensemble devoted to the study and performance of historic and contemporary jazz instrumental music, including Dixieland, ragtime, blues, and swing/big band arrangements. Prerequisite: membership in wind ensemble or permission of instructor. 1 hour

137A Flute Ensemble
Students study and perform representative music literature for flutes. The course, open to all students who successfully complete an audition with the director, provides performance opportunities in concerts, churches, and community events. Members are required to participate in wind ensemble. 1 hour

137B Woodwind Ensemble
Students study and perform representative woodwind literature. The course, open to all students who successfully complete an audition with the director, provides performance opportunities in concerts, churches, and community events. Members are required to participate in wind ensemble. 1 hour
A major in nursing is offered for basic students (no prior nursing credentials) and registered nurse graduates of ADN and diploma programs. The nursing major builds on the liberal arts and science foundation and encompasses study in the natural, behavioral, and social sciences, the humanities, and nursing sciences.

The baccalaureate degree program in nursing is approved by the Illinois Department of Financial and Professional Regulation (www.ildfpr.com) and accredited by the Commission on Collegiate Nursing Education (One Dupont Circle, NW, Suite 530, Washington, D.C. 20036-1120; 202-887-6791; www.aacn.nche.edu/Accreditation). The program leads to a bachelor of science in nursing degree (B.S.N.). Upon completion of all requirements, basic students (no prior nursing credentials) are eligible to apply to take the Nursing Council Licensure Examination (NCLEX) to become registered nurses.

Clinical portions of the program are held in area hospitals, intermediate care and rehabilitation facilities, community health agencies, home health agencies, schools, and clinics. Three clock-hours of clinical or laboratory experience is equivalent to one semester-hour of credit. The communication requirement of the general education curriculum is met across the nursing curriculum. The capstone requirement is met through Nursing 413 and Nursing 425. The field experience requirement is met through the clinical component of the nursing curriculum. Students interested in nursing may contact the chairperson of the nursing department for further information.

**Nursing Program Requirements**

The minimum of 125 semester-hours required of all nursing majors are distributed as follows:

<table>
<thead>
<tr>
<th>Requirement</th>

**Field Education**

**400 Field Education**

Fulfillment of the field education requirement is determined by the music department for each graduating music major. Music education majors fulfill the requirement by student-teaching. Recitals fulfill the requirements for music performance majors. The music department makes individual assignments to general music majors for fulfillment of the requirement.

**401 Senior Seminar**

Senior music majors are required to participate in senior seminar their senior year. Students will attend and critique several performances, discuss assigned readings, and present a final project or recital incorporating implications of the Reformed Christian worldview in their chosen area of concentration in music. Offered every semester. Prerequisites: Senior standing and at least 25 course credits in music major. 1 hour
Transfer hours for non-nursing coursework completed at other institutions are evaluated by the registrar. (See requirements under Transfer Students, Admission, and Academic Regulations.) Such credit may be accepted on the basis of advanced placement tests or on the basis of transcripts of student records from another college. RN students must complete a minimum of 30 of the required 125 credit-hours for graduation in residence.

**Admission to the Nursing Major**

Admission to the College and admission to the nursing major are separate processes. Before enrolling in junior-level courses in the nursing program, students must be accepted formally into the clinical component of the major. The application process takes place in the sophomore year, and all criteria for admission must be met before registering for the junior year.

**Criteria for Admission**

1. Sophomore standing. Students currently enrolled must submit application forms by March 15. Students transferring from another institution should submit their applications as soon as possible following acceptance to the College. The deadline for transfer applicants is June 15.

2. Completion of the following courses with a minimum grade of C- in each course.
   - **ENGL 103 College English: Composition**
   - **PSYC 121 Introduction to Psychology**
   - **PSYC 123 Life Span Development**
   - **SOC 121 Principles of Sociology**
   - **CHEM 101 General Chemistry**
   - **CHEM 102 Principles of Organic and Biochemistry**
   - **BIOL 204 General Microbiology**
   - **BIOL 205 Human Anatomy and Physiology**
   - **BIOL 206 Human Anatomy and Physiology**
   - **NURS 205 Concepts of Health Care and Nursing**
   - **NURS 221 Nutrition**
   - **NURS 290 Nursing Concepts**
   - **NURS 308 Health Assessment and Promotion**
   - **NURS 309 Therapeutic Nursing Interventions**
   - **NURS 310 Pharmacology**
   - **NURS 312 Pathophysiology**
   - **NURS 313 Adult Health Nursing I**
   - **NURS 315 Adult Health Nursing II**
   - **NURS 316 Nursing Care of Childbearing Families**
   - **NURS 402 Nursing Research**
   - **NURS 405 Nursing Care of Children and Families**
   - **NURS 407 Mental Health Nursing**
   - **NURS 408 Adult Health Nursing III**
   - **NURS 409 Principles of Community Health**
   - **NURS 413 Nursing Capstone Practicum**
   - **NURS 425 Issues in Nursing Practice**

3. A cumulative grade-point average of 2.5 (B/C+) in the following group of science courses. A grade of D+ (1.7) or lower in any course is not acceptable.
   - **CHEM 101 General Chemistry**
   - **CHEM 102 Principles of Organic and Biochemistry**
   - **BIOL 204 General Microbiology**
   - **BIOL 205 Human Anatomy and Physiology**
   - **BIOL 206 Human Anatomy and Physiology**

4. Completion of Nursing 205 and 221 with a cumulative grade-point average of 2.3 (C+) and a minimum grade of C (2.0) in each course.

5. **NOTE:** No more than two nursing prerequisite courses may be repeated to achieve grade or grade-point requirements. A course may be repeated only once to achieve the required grade or grade-point average.

6. Reading proficiency as demonstrated by a raw score of 96 or better on the vocabulary and comprehension subtests of the Nelson-Denny Reading Test (maximum number of attempts: two). This test is administered during the sophomore year.

**RN Baccalaureate Program**

Registered nurse students (graduates of associate degree or diploma programs) may complete the baccalaureate degree through full- or part-time study. The RN student must meet the entrance requirements for the undergraduate program and provide evidence of:

1. Graduation from an NLNAC-accredited associate degree or diploma nursing program.

2. Licensure to practice in the state of Illinois as a registered nurse.

RN students are required to take Nursing 290, Nursing Concepts, as well as all other nursing program and college requirements. For graduates of NLNAC accredited programs within the preceding 10 years, 29 hours of nursing credit will be held in escrow until Nursing 290 and 308 are satisfactorily completed. Other applicants will be awarded credit for Nursing 309, 313, 315, 316, 405, 407, 408 (29 hours) after successful completion of Excelsior College examinations in Maternal-Child Nursing (457), Psychiatric/Mental Health Nursing (503), and Adult Nursing (554). Credit is granted for Nursing 310 and 312 following successful completion of faculty prepared examinations. Interim and the physical education requirement are waived.

**The field education requirement is met by clinical practice in the nursing major.**

### Electives

- **NURS 420** Topics in Nursing 2 hours

* required for R.N.-B.S.N. students only

www.trnty.edu

admissions@trnty.edu

1. Sophomore standing. Students currently enrolled must submit application forms by March 15. Students transferring from another institution should submit their applications as soon as possible following acceptance to the College. The deadline for transfer applicants is June 15.

2. Completion of the following courses with a minimum grade of C- in each course.
   - **ENGL 103** College English: Composition
   - **PSYC 121** Introduction to Psychology
   - **PSYC 123** Life Span Development
   - **SOC 121** Principles of Sociology

3. A cumulative grade-point average of 2.5 (B/C+) in the following group of science courses. A grade of D+ (1.7) or lower in any course is not acceptable.
   - **CHEM 101** General Chemistry
   - **CHEM 102** Principles of Organic and Biochemistry
   - **BIOL 204** General Microbiology
   - **BIOL 205** Human Anatomy and Physiology
   - **BIOL 206** Human Anatomy and Physiology

4. Completion of Nursing 205 and 221 with a cumulative grade-point average of 2.3 (C+) and a minimum grade of C (2.0) in each course.

5. **NOTE:** No more than two nursing prerequisite courses may be repeated to achieve grade or grade-point requirements. A course may be repeated only once to achieve the required grade or grade-point average.

6. Reading proficiency as demonstrated by a raw score of 96 or better on the vocabulary and comprehension subtests of the Nelson-Denny Reading Test (maximum number of attempts: two). This test is administered during the sophomore year.
Progression Policies
To remain in good standing students must meet the following requirements:

1. Successfully complete a nursing math proficiency exam (maximum number of attempts: 3). This exam is administered during registration prior to enrollment in Nursing 313 and must be completed successfully in order to pass the course. Information regarding this exam will be sent to students once they are accepted into the major.

   Successfully complete a nursing medication administration proficiency exam during each clinical semester. The first exam for each semester will be administered the afternoon of registration. Maximum number of attempts: three per semester.

2. Maintain a minimum cumulative grade-point average of 2.5 in all junior and senior nursing courses.

   Acceptable courses are those with a grade of C (2.0) or above.

   Nursing courses may be repeated only once. Students may repeat only two nursing courses. A student may withdraw only once from a nursing course.

   Students must complete both the theory and clinical components of clinical courses successfully. If a grade below C (2.0) is earned in theory and/or a fail is earned in clinical, both theory and clinical must be repeated. A student earning a grade of fail in the clinical component of a course during the first rotation of the semester may not participate in the second clinical rotation of the semester. This will necessitate withdrawal from both clinical courses for that semester. Requirements may be placed on the student’s subsequent return to clinical.

3. Demonstrate safe clinical practice. Faculty determine what constitutes unsafe clinical practice and may take immediate action. Students demonstrating unsafe clinical practice are subject to dismissal from the course with a grade of F, and may be dismissed from the program.

4. Satisfactorily complete standardized national nursing exams as designated in current Nursing Student Handbook and course syllabi.

5. Satisfactorily complete a standardized comprehensive examination on nursing content as designated in current Nursing Student Handbook and course syllabi.

6. All students must file an NCLEX-RN study plan with their adviser prior to graduation.

Requirements for admission, progression, curriculum, and graduation are subject to change in order to maintain a quality education program and to meet requirements of the current Illinois Nursing and Advanced Practice Nursing Act.

Clinical Requirements
1. Prior to the beginning of clinical nursing courses the student must have submitted the following:
   a. a complete health history and physical examination,
   b. evidence of up-to-date immunizations and laboratory test results in accordance with institutional requirements (current requirements are available in the nursing office),
   c. evidence of TB skin testing done within 12 months of the conclusion of the current semester (chest X-ray required if test results are positive),
   d. evidence of current health insurance,
   e. evidence of CPR certification (health care providers module), valid through the current semester.

   Without satisfactory evidence of all of the above, the student will not be permitted to participate in clinical experiences.

2. Students are responsible for providing their own transportation to and from all clinical experiences.

3. Additional clinical requirements are described in the Trinity Christian College Nursing Student Handbook and in course syllabi.

Nursing Courses

Note: There are three contact-hours per week for each hour of lab or clinical credit.

205 Concepts of Health Care and Nursing
An exploration of the nature, scope, and conceptual foundations of health care and nursing. Introduces students to the major concepts of the nursing program: caring, self care, and care management. Required of nursing majors; open to all interested students. 3 hours
221 Nutrition
This study of basic and changing nutritional requirements relative to health and illness focuses upon substances, processes, assessment, and adaptions for health deviations. Prerequisites: Chemistry 101 or Science 101. 2-3 hours

290 Nursing Concepts
Foundational concepts essential to the discipline of professional nursing. Open to RN-BSN students only. 3 hours

308 Health Assessment and Promotion
This course develops skills in health assessment and health promotion across the life span. Students will learn to conduct physical, psychosocial, cultural, and spiritual assessments and to identify clients at risk. The course emphasizes use of these data in health promotion and education. Includes experience in laboratory and community settings. Prerequisites: Nursing 205 and 221, Biology 206, Psychology 121 and 123, Sociology 121. 3 hours (1 lab)

309 Therapeutic Nursing Interventions
This course develops skill in the therapeutic nursing interventions essential for caring, self care, and care management. Prerequisites: Nursing 205, all science prerequisites. Prerequisites: Nursing 205 and 221, all science prerequisites; Pre or co-requisite: Nursing 310. 2 hours (1 lab)

310 Pharmacology
Students study drug classifications, interactions, and interrelationships as used in the treatment of well and ill clients. Nursing implications are emphasized. Prerequisites: Biology 204, 205, 206; Chemistry 101 and 102. 3 hours

312 Pathophysiology
This study of pathophysiological mechanisms related to disease emphasizes adaptive responses. Prerequisites: Chemistry 101, 102; Biology 204, 205, 206. 3 hours

313 Adult Health Nursing I
This course applies caring, self-care, and care management principles in nursing practice with the adult client seeking to maintain health. Clinical practice component in selected hospitals and community settings. Prerequisites: Nursing 205, 221, all nursing prerequisites. Pre- or co-requisites: Nursing 308, 309, 310. 5 hours (2 clinical)

315 Adult Health Nursing II
This course synthesizes caring, self-care, and care management principles in nursing practice with the adult client seeking to maintain or restore health. Clinical practice component in selected hospitals and community settings. Prerequisites: Nursing 308, 309, 310, 313. 5 hours (2 clinical)

316 Nursing Care of Childbearing Families
This course synthesizes caring, self-care, and care management principles in nursing practice with women, newborns, and families seeking to maintain or restore health. Clinical practice component in selected hospitals and community settings. Prerequisites: Nursing 308, 309, 310, and 313. 4 hours (2 clinical)

399 Independent Study
Topics are selected from the students’ major interests. Prerequisite: permission of the department. 2-4 hours

402 Nursing Research
This study of research concepts and techniques enables the student to evaluate nursing literature and nursing problems. Prerequisites: Nursing 308, 309, 310, 313, and Mathematics 105 or 151 (may be taken concurrently). 2 hours

405 Nursing Care of Children and Families
This course synthesizes caring, self-care, and care management principles in nursing practice with children and families seeking to promote, maintain, or restore health. Clinical practice component in school, ambulatory, acute, and rehabilitative settings. Prerequisites: Nursing 402 and all 300-level nursing courses. 4 hours (2 clinical)

407 Mental Health Nursing Care
This course synthesizes caring, self-care, and care management principles in nursing practice with individuals, families, and communities seeking to promote, maintain, or restore mental health. Clinical practice component in selected hospital and community settings. Prerequisites: Nursing 405, 408, and 409. 4 hours (2 clinical)

408 Adult Health Nursing III
This course synthesizes caring, self-care, and care management principles in nursing practice with the adult client seeking to restore health. Clinical practice component in selected hospitals and community settings. 5 hours (2 clinical)

409 Principles of Community Health
This course explores factors influencing the health of the community and the role of nursing in promoting community and public health. Examines the development of nursing informatics in the field of community health. 2 hours

413 Nursing Capstone Practicum
For basic students this course provides a student-to-graduate transitional experience in health care settings. This intensive clinical practicum permits the student to manage a full client workload with all of its duties and responsibilities. RN students contract with the instructor for an individualized, independent practicum designed to afford a learning experience beyond previous practice. Prerequisites: Nursing 407 and 425. 5 hours (5 clinical)
420 Topics in Nursing
An optional course offering the nursing student opportunity to explore selected topics within nursing. Topics offered will vary from year to year dependent upon faculty expertise and interest, student interest, and current issues. The course may be repeated for credit. There may be a clinical component to the topic. 2 hours

425 Issues in Nursing Practice
A synthesis course addressing current issues in nursing, including leadership and management, ethical, sociocultural, political, economic, legal, and technological issues, and their relevance to health care and nursing practice at the micro, meso, and macro levels of health care. 3 hours

The general studies major, 24 hours, is intended for students who seek a double major or a broad program to supplement other course sequences in preparation for areas such as journalism, Christian ministry, education, pre-law, politics, business, and others. The general studies major allows a student to take a major or second major in philosophy that is tailored specifically to the student's interest.

Normal selection of courses:
- PHIL 101 Philosophical Perspective I 3 hours
- PHIL 102 Philosophical Perspective II 3 hours
- PHIL 201 History of Philosophy I or
- PHIL 202 History of Philosophy II 3 hours
- PHIL 206 Logic 3 hours
- PHIL 299 Topics in Philosophy or
- PHIL 331 Culture and the Aesthetic Experience 3 hours
- PHIL 335 Calvinistic Tradition 3 hours
- PHIL 400 Field Education 3-4 hours
- and one philosophy elective 3 hours

Minors in philosophy, 15 hours each. For students interested in a minor in philosophy, the department offers five tracks. These philosophy minors are suited to meet the needs of students whose majors lie in other areas. The various tracks are comprised of courses with interdisciplinary content and are aimed toward the discussion of problems that are fundamental to the student's major area of study.

1. Humanity and Society
This minor is for students whose major interest lies in areas such as pre-law, politics, history, sociology, and others.

Recommended courses:
- 101 Philosophical Perspective I 3 hours
- 102 Philosophical Perspective II 3 hours
- 351 Theories of Society 3 hours
- 371 Philosophy of History 3 hours
- and one philosophy elective 3 hours
2. Humanity in Business and Industry
This minor is for students whose major interest lies in areas such as business, industrial psychology, sociology, and technical fields such as data processing.

Recommended courses:
- PHIL 101  Philosophical Perspective I  3 hours
- PHIL 102  Philosophical Perspective II  3 hours
- PHIL 206  Logic  3 hours
- PHIL 220  Christian Ethics  3 hours
and one philosophy elective  3 hours

3. On Being Human
This minor is for students whose major interest lies in areas such as psychology, counseling, sociology, social services, ministry, theology, and education.

Recommended courses:
- PHIL 101  Philosophical Perspective I  3 hours
- PHIL 102  Philosophical Perspective II  3 hours
- PHIL 220  Christian Ethics  3 hours
- PHIL 351  Theories of Society  3 hours
and one philosophy elective  3 hours

4. Culture and the Aesthetic Experience
This minor is for students whose major interest lies in areas such as English literature, German literature, linguistics, education, history, art, music, and others.

Recommended courses:
- PHIL 101  Philosophical Perspective I  3 hours
- PHIL 102  Philosophical Perspective II  3 hours
- PHIL 201  History of Philosophy I  3 hours
- PHIL 331  Culture and the Aesthetic Experience  3 hours
and one philosophy elective  3 hours

5. Preface to Science
This minor is for students whose major interest lies in areas such as pre-med, biology, chemistry, physics, medical technology, and others.

Recommended courses:
- PHIL 101  Philosophical Perspective I  3 hours
- PHIL 102  Philosophical Perspective II  3 hours
- PHIL 202  History of Philosophy II  3 hours
- PHIL 206  Logic  3 hours
and one philosophy elective  3 hours

101 Philosophical Perspective I
This course introduces central themes of Christian world-and-life view, a philosophical perspective inspired by it, and a first confrontation with past and present philosophical positions. 3 hours

102 Philosophical Perspective II
Continuation of Philosophy 101. Prerequisite: Philosophy 101. 3 hours

108 Honors Philosophy
This course replaces Philosophy 102 for members of the Honors Program. Prerequisite: Philosophy 101. 3 hours

201 History of Philosophy I
An excursion into the world of ancient and medieval thought, emphasizing the pre-Christian beginnings of our culture and the relation between Christian and non-Christian thinking up to the beginning of the modern age. 3 hours

202 History of Philosophy II
This excursion into the world of thought of the “modern age” to the beginning of the 20th century emphasizes the work of the major philosophers of that age. 3 hours

206 Logic
Studies in this introduction to the nature of logic include informal logic, Aristotelian logic, and the modern systems of deduction inference, deduction technique, formal languages, and others. 3 hours

220 Christian Ethics
This course examines some traditional ethical theories and seeks to develop an ethical framework within which Christians can address contemporary moral issues. Students consider major Western ethical views as well as Catholic, Evangelical, and Reformed ethical reflection. Prerequisites: Philosophy 101 and 102. 3 hours

295 Major Philosophical Authors
This course offers a sustained and thorough investigation of a major philosophical author. Particular attention will be given to: identifying the author’s importance within the history of philosophy; gaining an effective familiarity with the author's entire body of work; engaging in close reading and analysis of a careful selection from the author's work; and evaluating the author's contribution from a Christian philosophical standpoint. The specific subject matter of this course is announced at the time of its offering. Prerequisites: Philosophy 101 and 102 or 108. 3 hours
299 Topics in Philosophy
This course offers an investigation of selected contemporary topics of philosophical significance and of concern to Christians. The course objectives are three-fold: to develop Christian insight into a common human issue, to do so through the practice of Christian philosophical analysis, and to thereby acquire a broader knowledge of the topic. Topics for this course are announced at the time of its offering. Prerequisites: Philosophy 101 and 102. 3 hours

310 Contemporary Christian Philosophy
An examination of modern Christian philosophical reflection in the Catholic, Evangelical, and Reformed traditions designed to give students a deeper understanding of the relation between Christian faith and thought and a richer sense of the unity of all discipline areas. Prerequisites: Philosophy 101 and 102. 3 hours

321 Contemporary Philosophy: Existentialism and Phenomenology
This course acquaints the student with the work of prominent contemporary philosophers in the tradition of existentialism and phenomenology. A major emphasis is on critical exposition of selected texts. Prerequisites: Philosophy 101 and 102. 3 hours

322 Contemporary Philosophy: The Positivist and Pragmatic Traditions
This course acquaints the student with the work of prominent contemporary philosophers in the tradition of positivism and pragmatism. A major emphasis is on critical exposition of selected texts. Prerequisites: Philosophy 101 and 102. 3 hours

331 Culture and the Aesthetic Experience
Students explore the fundamental questions concerning art and literature and their place in life, with emphasis upon the possibilities of a Christian position in aesthetic experience and reflection. Prerequisites: Philosophy 101 and 102. 3 hours

335 Calvinistic Tradition
Students study significant philosophical contributions in the work of thinkers in the Calvinistic tradition from the 17th century to the present with a critical exposition of selected texts. This course is identical to Theology 335. 3 hours

351 Theories of Society
This course is an intensive study of the theories and methodology of the major schools of social thought with special emphasis on theoretical developments in contemporary sociology in Europe and North America. Prerequisite: Sociology 121. This course is identical to Sociology 351. 3 hours

371 Philosophy of History
This study of the central problematic of the philosophy of history and detailed analysis of such notions as creation, genesis, unfolding, culture, power, freedom, progress, history, situation, period, era, and differentiation, attempts to understand the philosophical tradition and to draw some of the outlines of a philosophical systematics that is conscious of its historic limitations and religious presuppositions. This course is identical to History 371. Prerequisite: junior status. 3 hours

399 Independent Study
Prerequisite: permission of the department. 3 hours

400 Field Education
This program of research, designed with a view to the student's intended profession, is completed with the advice and under supervision by the staff of the philosophy department. 3-4 hours

PHYSICAL EDUCATION/EXERCISE SCIENCE

Sue Gasperec, M.S.Ed., department chairperson

“...”

Barbie Heerdt '07
Physical Education (Elmhurst, Illinois)

All physical education department programs meet Trinity’s general education requirements of an oral communication course, field education, and capstone requirement. Students meet the oral communication requirement of general education by taking Communication Arts 101; the field education requirement is met by their student teaching internship if a physical education-teaching major or by a field education experience if an exercise science or general major; the capstone requirement is met through Physical Education 401 for all majors.

The physical education teacher education program prepares students to be excellent teachers and coaches. Graduates attain a K-12 teaching specialist certificate through the state of Illinois.
The exercise science major is designed for students interested in strength and conditioning as well as preparation to be personal trainers or fitness specialists.

### Teaching Major

The curriculum in physical education prepares students for Illinois State teacher certification for teaching physical education in elementary and secondary schools. The teaching major, 39 hours, consists of the following courses:

</table>
110 **Lifetime Fitness and Wellness**  
Students will gain an understanding of the basic principles of physical fitness as well as the components of a healthy lifestyle. Students will develop and follow an individualized fitness program. 1 hour

112 **Nutrition and Weight Management**  
Students will learn basic principles of nutrition as it relates to healthy eating and to weight management. 1 hour

119 **Line Dancing**  
This course introduces students to the components of line dancing and the elements involved in rhythm and dance. 1 hour

130 **Individual Sport Skills**  
This course introduces the skill techniques and strategies in the activities of badminton, fitness, bowling, golf, gymnastics/tumbling, dance, tennis, and track and field. 2 hours

131 **Team Sport Skills**  
This course introduces the skill techniques and strategies in the sports of basketball, flag football, floor hockey, soccer, softball, volleyball, and team handball. 2 hours

140 **Physical Education for K-9 Educators**  
This course introduces movement experiences and physical activity as they relate to elementary age children. For elementary education majors. 1 hour

Student-athletes may receive one hour of credit for their participation on an intercollegiate team. To receive credit, students must complete the entire season of the sport, which includes all practices as well as the home and away contests.

160 **Intercollegiate Soccer—Women**  
1 hour

161 **Intercollegiate Soccer—Men**  
1 hour

162 **Intercollegiate Volleyball—Women**  
1 hour

163 **Intercollegiate Basketball—Men**  
1 hour

164 **Intercollegiate Basketball—Women**  
1 hour

165 **Intercollegiate Baseball**  
1 hour

166 **Intercollegiate Softball**  
1 hour

167 **Intercollegiate Track and Field**  
1 hour

169 **Intercollegiate Cross-Country**  
1 hour

200 **First Aid and CPR**  
This course provides a comprehensive look at procedures for handling first aid emergency situations and results in certification. Students also learn Cardio-Pulmonary Resuscitation procedures for children, adults, and infants and are certified through the American Red Cross. 2 hours

201 **Foundations of Physical Education and Sport**  
Students study the history, goals, and philosophy of physical education and athletics. 3 hours

205 **Principles and Foundations of Health Education**  
This course will focus on foundational principles as it relates to historical and philosophical perspectives in the development of health education. Students will gain insight into the skills and knowledge needed to develop successful health education programs. 3 hours

221 **Coaching Soccer**  
The study and practice of the administration of a soccer program, including skill techniques, coaching strategies, and methods of training and conditioning. 2 hours

</table>
The Rev. John Witherspoon, one of America’s most venerated Founders, captured the essence of a Reformed vision of politics and law when he declared, “In a public view, every good [citizen] is called to live and act for the glory of God, and the good of others ... under the immediate or der of Providence.” The political science program exists to implement this vision; it inspires students to formulate a Christian worldview encompassing a vibrant, biblically based conception of politics and law. In particular, the program challenges students to understand Christian citizenship in light of altruism and civic virtue, to explore the nature of the state and the establishment of a political order that is good, just, and noble, and to learn about biblical virtues such as justice, righteousness, courage, mercy, and compassion. Equally important, the program encourages students to embody these virtues and to use their gifts and talents for a life of service to church, state, and society.

In keeping with the liberal arts mission of the College, the political science program consists of a traditional curriculum centered on political theory and legal studies. The program stresses the obligations of Christian citizenship and offers courses in four broad areas: political theory, American politics, law and society, and the international political order. In addition, it prepares students for a variety of careers in politics, government, and law. The political science program is enhanced greatly by the educational initiatives of the Center for Law and Culture (see page 236) and an active student group known as the Law and Politics Society.

PHYSICS

The physics program provides the necessary co-requisites for chemistry and biology majors, as well as for students who desire to enrich their programs with study in one of these courses.

101 Introduction to Physical Science
This course provides an introductory survey of the physical sciences with particular emphasis upon topics selected from physics and chemistry. The history of and methods used in science will be studied. 3 hours

121 General Physics
This course is an introduction to the basic laws and theories of the following main areas of classical physics: mechanics, heat, and thermodynamics. Laboratory. 4 hours

122 General Physics
A continuation of Physics 121, introducing the basic laws and theories of wave motion, electricity and magnetism, optics, and modern physics. Laboratory. Prerequisite: Physics 121. 4 hours

211 Calculus-Based General Physics
This course is a calculus-based introduction to the basic laws and theories of the following main areas of classical physics: mechanics, heat, and thermodynamics. Laboratory. Prerequisite: Mathematics 111 (or concurrent enrollment). 4 hours

212 Calculus-Based General Physics
A continuation of Physics 211, this course is a calculus-based introduction to the basic laws and theories of wave motion, electricity and magnetism, optics, and modern physics. Laboratory. Prerequisite: Physics 211. 4 hours
The political science major consists of 36 hours. Required courses include:

<table>

Electives in political science 15 hours

Only three hours of Political Science 400 may be applied to the 33-hour major. Math 105 or 151 are strongly recommended. Students intending to enter graduate school should also consider enrolling in a foreign language course.

The political science minor consists of 18 hours in political science; the required courses include:

<table>

121 Introduction to Politics
This examination of the discipline of political science emphasizes the history and development of political theory. 3 hours

201 American Government and Politics
This course in the organization and processes of American national government examines the contemporary socio-political culture, constitutional foundations, and the major institutions and processes of American politics. 3 hours

210 Urban Politics
Students examine the dynamics of urban politics, with special concentration on relationships among urban communities and the problems of urban planning. The course considers development of Christian insight concerning the many political problems facing modern urban America. 3 hours

241 Law and Western Culture
This course examines the significance of law in the development of Western culture by studying the classical and Judeo-Christian roots of law, by analyzing the legal principles and systems that have been derived from those foundations, and by assessing contemporary legal interpretative schools and applications of those interpretations. This course is identical to History 241. 3 hours

244 Law, Justice, and Culture
Offered in partnership with the Center for Law and Culture, this annual May-term course prepares students for public service in law, government, and politics by providing worldview training in the Judeo-Christian tradition. Students are introduced to the concept of transcendent moral truth in the Western legal tradition and challenged to integrate the biblical understanding of justice into their lives and career callings. In addition, by exploring the concept of law and justice among the ancient Hebrews, the natural law foundations of the United States Constitution, and the grand legal issues posed by Nazism and the Nuremberg Trial, students begin to formulate a Christian jurisprudence. This course is identical to History 244. 3 hours

250 United States Constitutional Law
This is a study of the constitutional legal structure and government of the United States as one distinct historical form of State. 3 hours

255 Comparative Government
This course compares the democratic governments of such consociational states as Belgium, Austria, Switzerland, and the Netherlands, and such majoritarian democratic governments as Canada and the United States. 3 hours

260 Ethnic Politics
This course will examine the rich diversity of ethnic communities in the world, especially America, as they have confronted political systems and the need for developing political thought and action. The various meanings of pluralism will be examined from a Christian perspective, especially as they relate to politics. A substantial portion of the course will be in Chicago as a case study of ethnic politics in America. This course is identical to Sociology 231. 3 hours

270 Third-World (Non-Western) Politics
This course will survey various paradigms for politics in the Third World—democratic, communist, fascist, totalitarian, eclectic, etc. Christian insights will be encouraged as students reflect upon all of the issues associated with “developing” societies, such as poverty, economic exploitation, and technology. 3 hours

301 Political Theory
Students examine the main contributors to Western political thought, such as Plato, Aristotle, Cicero, Augustine, Aquinas, Luther, Machiavelli, Hobbes, Locke, the American founding fathers, and Marx. Thinkers and systems are examined in the light of biblical principles and insights, especially those emanating from the Reformed tradition such as Calvin, Rutherford, A. Kuyper, and Dooyeweerd. Students also compare the significant insights available within Roman Catholic, Lutheran, and Anabaptist communions. Prerequisite: Political Science 121. 3 hours
310 Christian Political Traditions
This course will examine, in depth, the following Christian political traditions: Roman Catholic, Anabaptist, Lutheran, Reformed, Evangelical, and Fundamentalist. Other more recent traditions or movements, such as environmental and feminist Christian politics, may also be covered. Both theological frameworks and particulars of history will be noted as comparisons and contrasts unfold. Special focus will be on the Kuyperian-Reformed politics and what the insights from this tradition imply for American politics today. 3 hours

321 International Relations
Students attempt to understand the changing landscape of diplomacy based on the Christian principle of justice among nations. Students are shown how this principle relativizes the forces of nationalism and national sovereignty, placing international relations on a new foundation. The course focuses on the contrast between secular and Christian political science approaches to conflict resolution and doing justice to Third World nations and cultures. Prerequisites: Political Science 121 and either 201 or 255. 3 hours

338 Envisioning America: The U.S. Since the 1920s
This course will examine the competing political worldviews that have shaped American cultural development and public policy since 1920. This course will also offer Christian critique of these diverse ideologies. This course is identical to History 338. 3 hours

351 Research in Public Policy
This course is devoted to understanding research from a Christian perspective, then successfully completing a research project in American politics or international relations. Students come to recognize the importance of selecting research topics, distinguishing fairness from bias, relying on primary sources, and learning to use the library as a research tool. Research projects conclude with students making normative suggestions for specific public policy proposals. Prerequisites: Political Science 121, one additional political science course, and permission of instructor. 3 hours

399 Independent Study
This directed study of various topics is open to students with the permission of a supervising instructor. An appropriate internship may also be chosen as part of the independent study format. 2-4 hours

400 Field Education
Students are placed in a suitable political or governmental unit where practical experience will be obtained. The on-site supervisor will work with the instructor to combine practical and research dimensions, leading to a paper that reflects both emphases. The dual purpose, therefore, is to expose the student to practical, concrete situations as well as to relevant historiographies. 3-6 hours

410 Senior Seminar
The senior seminar in political science examines alternate theoretical perspectives on the discipline of political science. The course offers a place to undertake Christian reflection on a Reformed vision for political science and to apply that vision to a variety of vocations. This course fulfills the capstone requirement for this major. 3 hours

PROFESSIONAL STUDIES

Pre-Law
Charles J. Emmerich, J.D., LL.M., director

Law schools generally require a college degree from an accredited institution. During his or her undergraduate education, the pre-law student should generally pursue a liberal arts education and should complete a rigorous major and a minor. The pre-law program is not itself a major. Majors usually chosen by pre-law students include political science, history, philosophy, English, communication arts, and business. Students with more specialized interest in law may pursue a different major. Although Trinity does not prescribe a single pre-law program for all students who aspire to attend law school, Trinity does recommend that pre-law students enroll in courses chosen from the list below. The faculty adviser and the pre-law director on campus assist the student in planning the undergraduate program and in applying for graduate study.

The pre-law program, 39 hours, includes the following:

- ACCT 221 Principles of Financial Accounting I  3 hours
- BUAD 353 Legal Environment of Business     3 hours
- COMM 101 Fundamentals of Public Speaking  3 hours
- ECON 121 Principles of Macroeconomics        3 hours
- ENGL 321 Advanced Writing                  3 hours
- HIST 232 Making of America, 1789-1865  3 hours
- HIST 233 Reconstructing America, 1865-1920 3 hours
- PHIL 206 Logic                           3 hours
- PHIL 251 Theories of Society             3 hours
- PLSC 121 Introduction to Politics         3 hours
- PLSC 241 Law and Western Culture        3 hours
- PLSC 250 U.S. Constitutional Law         3 hours
- SOC 121 Principles of Sociology         3 hours

In addition, it is recommended strongly that pre-law students take Political Science 244, the Law, Justice, and Culture Institute offered every May-term, plus core, major, and minor requirements.
Pre-Seminary

The pre-seminary program at Trinity is designed with flexibility to allow students to meet the entrance requirements of the seminary of their choice. Although those requirements vary in detail, most seminaries require a strong liberal arts education and a background in Greek and in a modern foreign language. A student must still have a major. It is strongly recommended that a pre-seminary student at Trinity select a major in one or more of the following: history, English, philosophy, communication arts, psychology, or sociology, and give serious attention to his or her language studies. A student may have a minor in a field of his or her choice.

In addition to other college requirements, the suggested pre-seminary program at Trinity includes the following:

- 4 Greek courses 12 hours
- 1 communication arts course chosen from: 101, 225 3 hours
- Any 3 theology courses beyond the core 9 hours
- 2 philosophy courses chosen: 321, 322, 335 6 hours
- 2 history courses beyond the core, including 343 6 hours
- 2 English courses beyond the core, including 321 and one literature course 6 hours
- 4 Modern Foreign Language courses; German or Dutch recommended. (Note: second-year college proficiency should be achieved. Foreign language study at the high school level may reduce or eliminate this requirement.) 12 hours
- 2 psychology courses, 121 and 123 6 hours

Programs of Study

Pre-Physical Therapy

The pre-physical therapy program at Trinity allows students to prepare for entry into a bachelor-level physical therapy program after two or three years of preparation, or into a master's degree program following graduation from Trinity. Each student will develop a program of study based on the type of program and the particular school they want to attend.

Pre-Professional Training for Medicine and other Doctoral Degrees in Health Sciences

Students wanting to enter into doctoral level professional training programs in the health sciences often find it advantageous to have a strong background in the physical and biological sciences. Completion of a biology and/or chemistry major along with the cognate requirements provides such a background and includes the required courses for entering medical schools, dental schools, schools of optometry, osteopathic medicine, podiatry, and chiropractic. Most of these schools require or prefer candidates with a bachelor's degree; the exceptional student may gain entrance into certain programs after two or three years of undergraduate work. Students who desire to gain entrance into a school of veterinary medicine may find it appropriate to transfer to a university with more specialized courses after two years of study at Trinity. All of these schools require a specific entrance exam; students should work closely with the adviser to be sure they are ready for the exam at the appropriate time.

Pre-Professional Training for Programs in Allied Health Sciences

There are schools offering clinical programs in the allied health sciences in the Chicago area and elsewhere. Often these programs give preference to students who intend to practice in the locality where they received their training. Students wanting to broaden their Christian perspective while preparing for entrance into one of these programs can take their pre-professional training in the context of a Christian community at Trinity. Examples of allied health sciences programs requiring pre-professional training along with the number of years required and the number of professional training programs in the Chicago area follow:

<table>

Students should work closely with their advisers to ensure that they include all necessary courses required by the schools to which they intend to apply.
The psychology program assists students in developing the theoretical insight and professional skills that enable them to enter graduate study and to serve in a variety of psychology-related careers and professions. The program involves the student in learning the principles of the humanistic, biological, behavioral, cognitive and psychoanalytic approaches to psychology. The purpose of the program is to develop students equipped with psychological insight informed by a biblically based Christian perspective. As an integral dimension of this purpose, students are introduced to a variety of training experiences in psychological research and in clinical/counseling practice. In addition, a supervised field education experience is required for all psychology majors. Psychology majors will meet the communication arts requirement through oral presentations distributed among several courses offered in psychology.

### Required of all majors:
- **PSYC 121** Introduction to Psychology 3 hours
- **PSYC 122** Basic Research Skills 3 hours
- **PSYC 212** Basic Approaches to Psychological Research 3 hours
- **PSYC 200** Orientation to Psychology As A Major 2 hours
- **PSYC 400/401** Field Education/Advanced Research Practicum 3-6 hours
- **MATH 105** Statistics 3 hours
- **PSYC 358** Senior Seminar (Capstone course) 3 hours
- Psychology Electives 9 hours

*One course from Group A, B, and C listed on the next page: 9 hours*

### Group A: Developmental/Interpersonal:
- **PSYC 123** Life Span Development
- **PSYC 202** Interpersonal Relations
- **PSYC 226** Psychology of Death and Dying
- **PSYC 242** Human Sexuality
- **PSYC 243** Group Dynamics
- **PSYC 252** Cross-Cultural Psychology
- **PSYC 263** Industrial/Organizational Psychology
- **PSYC 331** Psychology of Religion
- **PSYC 332** Social Psychology

### Group C: Biological/Experimental
- **PSYC 355** Psychobiology
- **PSYC 353** Brain and Cognition
- **PSYC 340** Emotion and Motivation
- **PSYC 345** History and Systems of Psychology
- **PSYC 251** Cognitive Psychology
- **PSYC 250** Animal Learning and Cognition
- **PSYC 354** Experimental Psychology

Total hours required in psychology: 41 hours

**A psychology minor** consists of 18 semester hours in psychology including:
- **PSYC 121** Introduction to Psychology 3 hours
- **PSYC 122** Basic Research Skills 3 hours
- one course each from Group A, B, and C (above) 9 hours
- Elective 3 hours
A biopsychology minor (18 semester hours in psychology). Neuroscience is a rapidly expanding area in both biology and psychology. The biopsychology minor is designed to provide coursework tailored to students planning on pursuing graduate studies in behavior, cognitive, or clinical neuroscience as well as for those preparing for medical school with an interest in neurology and/or psychiatry.

Prerequisites: Prior introductory coursework in biology and/or anatomy and physiology is strongly suggested for majors outside of biology. Biology 101 and/or Biology 205 are suggested in these areas.

121 Introduction to Psychology

This introductory course examines critically the assumptions and methods in psychology. Such topics as anxiety, defenses, body image, self, aggression, and mental illness are studied. Some emphasis is placed upon career uses of psychology. 3 hours

122 Basic Research Skills

This course is designed to help the student develop the full range of basic skills necessary for conducting and reporting research in psychology. The course will cover (1) the purpose and use of basic research designs, (2) the role of statistical analysis in research, (3) the use of library resources, both print and computer, for conducting thorough literature reviews, and (4) the rationale for the standard research report format and proper use of the APA writing style. There will also be a unit on the role of graduate studies in the development and training of research skills. 3 hours

123 Life Span Development

This course is a study of the developmental characteristics of the human life-cycle from birth to old age and an introduction to the major psychological theories of development. 3 hours

200 Orientation to Psychology as a Major

The course will allow students to examine the breadth of the psychology major, an incorporation of vocational planning, an experience of service learning, and an understanding of preparation for our culturally diverse society. Prerequisites: Psychology 121 or 123 and intent to major in psychology. 2 hours.

201 The Psychology of Personal Growth

This investigation of the dynamics of personal functioning and change includes an examination of the relationship between attitudes, emotions, and behaviors. Major approaches to personal growth are studied. Students are required to reflect on their personal history and apply their learning to their own personal growth. Prerequisite: Psychology 121. 3 hours

202 Interpersonal Relations

This course examines perspectives on relationships between persons and the process of interpersonal communication. Through small group interaction students develop insight into styles of relating and communicating with others. This course is identical to Communication Arts 210. 3 hours

211 Basic Helping Skills

Students study and evaluate the essentials of helping relationships and the behaviors, attitudes, and emotions that promote helping. Students are required to practice the various skills discussed in class, such as attending, empathy, genuineness, and confrontation. Case studies of major psychotherapeutic approaches are also examined. Prerequisites: sophomore standing or above, and Psychology 121. Recommended: Psychology 201 or 202. 3 hours

212 Basic Approaches to Psychological Research

This introduction to various research approaches currently available in psychology investigates the theories of science supporting such approaches. Attention is given to developing research skills through projects on topics of current interest in psychology. Prerequisites: Psychology 122 and Math 105. 3 hours

217 Psychological Tests and Measurements

An introduction to the procedures for educational assessment of exceptional children. Emphasis will be placed upon informal assessment, observation, and criterion-referenced tests as well as norm-referenced tests designed for exceptional children. This course is identical to Special Education 217. 3 hours
### 226 Psychology of Death and Dying
This study of the experience of dying, including the social and personal response to death, and the impact of religious belief upon the dying person, emphasizes the interpersonal skills for relating in the situation of death. 3 hours

### 242 Human Sexuality
Students study the anatomy, physiology, and attitudes and behaviors of human sexual response. Specific attention is given to the place and function of sexuality in the life of the Christian. Prerequisite: Psychology 121. 3 hours

### 243 Group Dynamics
This course utilizes the “self-analytic group” to study the group as a phenomenon distinct from the individual, the institution, and the crowd. It probes the foundation of human interaction and communication in face-to-face settings. Students analyze: group structure; physical formations; emotional factors and attachments; and evolution of leadership functions, norms, values, and procedures. This course is identical to Communication Arts 217 and Sociology 243. Prerequisite: sophomore standing. 3 hours

### 244 Applied Behavior Analysis
Students study and evaluate the assumptions and methods of behavior analysis and modification. Students are required to develop and implement behavioral modification programs. Prerequisite: Psychology 121. 3 hours

### 250 Animal Learning and Cognition
This course will focus on the principles and laws of learning and behavior as derived from the classical and instrumental learning literature—acquisition, extinction, punishment, persistence, generalization, discrimination, motivation, drives, and incentives. Coverage also will be given to more complex behavioral and cognitive processes in mammalian and non-mammalian species, such as concept formation and language comprehension. Prerequisite: Psychology 121. 3 hours

### 251 Cognitive Psychology
This course introduces the theory and research concerning human cognition. Various models of human cognition are considered in the context of perception, memory, thinking, and problem-solving. In addition, students examine the process of cognitive development with particular attention to childhood. 3 hours

### 252 Cross-Cultural Psychology
This course examines the relationships between culture, personality, and human behavior. Psychological theories and research aimed toward the understanding of human behavior in the context of cultural and ethnic diversity are the primary focus of the course. Special attention will be given to intercultural communication and counseling in the multicultural context. Prerequisite: Psychology 121. 3 hours

### 253 Multicultural Counseling and Psychotherapy
The course will examine the issues of counseling persons from various cultural backgrounds. There will be an emphasis on the politics of privilege, oppression, and racism in our culture and the implications this has on the practice of psychotherapy. There also will be consideration given to gender as a part of cultural diversity. Prerequisite: Psychology 121. 3 hours

### 263 Industrial and Organizational Psychology
This course will examine the major themes of industrial organization psychology, which is the branch of psychology that deals with the structures, processes, and behaviors in work organizations. Particular attention will be given to the assessment and evaluation of job performance and the work environment. The course will also look at the organization structure of groups and group process in industrial/organizational settings. These issues and topics will be assessed from a Christian perspective. 3 hours

### 301 Advanced General Psychology
This comprehensive survey of psychology is for the advanced psychology major who plans to go to graduate school. Such basic areas as perception, learning, development, motivation, psychopathology, and therapeutic treatment are studied. Open only to psychology majors. Students preparing for the GRE should take this course in the junior year. Offered by arrangement. 3 hours

### 311 Theories of Psychotherapy
Students examine several theories of psychotherapy in terms of constituent concepts and basic assumptions. A variety of current approaches are investigated from a critically Christian perspective. This is a companion course to Psychology 211. Prerequisite: Psychology 121. 3 hours

### 322 Psychopathology
Students study the symptoms, causes, and treatments of persons suffering from neurotic or psychotic disorders, paying special attention to the major theories concerning psychopathology and the types of therapy employed. Prerequisite: Psychology 121. 3 hours

### 323 Theories of Personality
This critical exposition of the personality theories of Freud, Jung, Adler, Horney, Sullivan, Rogers, and others includes a further consideration of the development of a Christian anthropology, especially in relation to personality, psychic disorders, and psychotherapeutic counseling. Prerequisite: Psychology 121. 3 hours
331 Psychology of Religion
This is a study of the history of the relationships between psychology and religion and of the relationship between religion and current knowledge on personal and interpersonal functioning. Prerequisite: Psychology 121 and six additional hours of psychology. 3 hours

332 Social Psychology
This course considers the nature and the psychology of different social relationships. Such topics as attraction, cooperation, person perception, bargaining, and social influence are investigated. This course is identical to Sociology 332. Prerequisite: Psychology 121 or Sociology 121. 3 hours

340 Emotion and Motivation
This course will examine variables affecting emotional processes and motivation in animals and humans. Topics include motivation based on social and cultural processes, cognitive goals, as well as those based on biological needs. Prerequisite: Psychology 121. 3 hours

345 History and Systems of Psychology
This course is an advanced study of the development of psychology as a science and related professional disciplines such as psychotherapy and psychological testing. Students examine the historical roots of specific problems in contemporary psychology. 3 hours

353 Brain and Cognition: Human Neuropsychology
This course will focus on the role of human brain functioning in cognitive and psychological processes. Main topics will include the basic cortical areas of the human brain, how various cognitive functions are currently thought to relate to specific brain regions, and the relationship between damage to the regions and the resulting cognitive, emotional, and behavioral changes. Prerequisite: Psychology 121. 3 hours

354 Experimental Psychology
This introduction to the theories and methods of experimental psychology will focus upon the principles of experimental design as well as the psychological findings generated by experimental research. Prerequisite: Psychology 122 or 212. 3 hours

355 Psychobiology: Behavioral Neuroscience
This course will focus on the role of biological processes in the behavioral and cognitive functioning of humans and other species. Topics will include the structure and function of nerve cells, basic structure of the human nervous system, psychopharmacology, sensory and motor systems, motivation, emotion and reinforcement, learning and memory, and discussions of the relationship between brain functioning and psychopathology. Prerequisites: Psychology 121. 3 hours

356 Topics in Psychology
This course is a systematic examination of key issues and movements within the discipline of psychology. Selected topics vary according to current interests and discussion within psychology, including clinical and theoretical areas of concern to an emerging Christian perspective on psychology. 3 hours

358 Capstone Course
In this course psychology majors will reflect and articulate an understanding of psychology from the philosophical, ethical and historical aspects of a Christian worldview. Students will also explore their participation in psychology by identifying, clarifying and planning for their post-college career goals. Prerequisite: senior status. 3 hours

399 Independent Study
Students who have done advanced work in psychology may study a particular subject independently under the direct supervision of the department. Arrangements must be made with an individual faculty member. 2-4 hours

400 Supervised Field Education
Students engage in a paraprofessional work experience in a setting off campus. The setting is determined by the faculty supervisor on the basis of student's career objectives and his or her current level of experience. Arrangements must be made with the department before the beginning of the semester in which the student wants to take the field experience. Two options are available to the student: a full semester internship or participation in the Chicago Semester program. 6 hours

401 Advanced Research Practicum
This course will give students the opportunity to complete supervised quantitative research projects using experimental methodology, correlational techniques, or survey research (or a combination of the three) in order to address theoretical questions that arise from the academic interests of the student. Weekly seminars will focus on issues of scientific theory in areas of student interest, the relationship between the scientific process and Christian worldview, experimental design, research methodology, and proper statistical analysis of collected project data. A research paper or equivalent will be required. Prerequisite: senior psychology majors. 6 hours
Programs of Study

Science Minor
The science minor is an appropriate choice for elementary education majors, who need exposure to a broad spectrum of science courses. The minor consists of 20 hours selected from the following courses:

- BIOL 100  Introduction to Biological Science  3 hours
- BIOL 101  Human Biology  3 hours
- BIOL 102  Human Ecology  3 hours
- BIOL 110  Introduction to Biology  4 hours
- BIOL 111  Survey of Plants and Animals  4 hours
- BIOL 204  General Microbiology  4 hours
- BIOL 205-206  Human Anatomy and Physiology  8 hours
- CHEM 100  Chemistry in Society  3 hours
- CHEM 101  General Chemistry  4 hours
- CHEM 102  Principles of Organic and Biochemistry  4 hours
- CHEM 103-104  Fundamentals of Chemistry  8 hours
- GEOL 101  Earth Science  3 hours
- PHYS 101  Introduction to Physical Science  3 hours
- PHYS 121-122  General Physics  8 hours

The following science course is designed to meet the state of Illinois elementary education standards for elementary education majors. The state of Illinois no longer offers certification in general science education. Students interested in the sciences should consider either secondary biology education or secondary chemistry education.

280 Science Concepts and Methods
This course covers the characteristics of science, goals for elementary science education, an inquiry approach to science teaching, and resources for science teachers. Topics include conducting laboratory experiments; laboratory safety; data collection and analysis; care of plants and animals in the classroom; instrumentation; technology and society; sources of information and materials; professional organizations; planning and teaching science courses, units, and lessons; and assessing learning outcomes. Emphasis is placed on inquiry and ways to address the needs of a diversity of students. Prerequisites: 9 hours of college science courses, including biological, physical, and earth science. 3 hours

Social Work

Reger C. Smith, Ph.D., Professor of Social Work
Rose Malinekeski, DrPH, Director of Field Education
Mackenzie Huyser, Ph.D., department chairperson

"I chose social work because it gives me the opportunity to work with people of all different cultures and backgrounds in a variety of settings. Through building relationships with students and professors, I have gained many values and beliefs that I will take into my own career. Whatever your passion, you can make it a goal and the professors will help you see it through."

Glory Miranda '07
Social Work (Arlington Heights, Illinois)

The social work program will lead to a bachelor of social work (B.S.W.) degree. The social work major is built upon the liberal arts foundation and educates students in generalist social work practice.

The social work program was granted candidacy status from the Council on Social Work Education (CSWE) in November of 2002. Please contact the department chairperson for more information about progress toward accreditation.

The social work major consists of 86 hours of social work core and cognate courses:

- SWK 150  Introduction to Social Work  3 hours
- SWK 210  Social Welfare Institutions  3 hours
- SWK 225  Social Work Values and Ethics  2 hours
- SWK 310  Human Behavior in the Social Environment  4 hours
- SWK 315  Diverse Populations  2 hours
- SWK 340  Generalist I  4 hours
- SWK 350  Generalist II  3 hours
- SWK 360  Generalist III  3 hours
- SWK 370  Community Social Action Policy  3 hours
- SWK 345  Professional Seminar I  1 hour
- SWK 355  Professional Seminar II  1 hour
- SWK 365  Professional Seminar III  1 hour
- SWK 375  Professional Seminar IV  1 hour
- SWK 400  Field Education  9 hours
- SWK 401  Field Education Seminar  2 hours
- SWK 353  Research for the Behavioral Sciences  3 hours

Social Work electives  12 hours
Transfer Credit
The registrar at Trinity Christian College will evaluate the official transcript received and determine which courses are acceptable for transfer. Trinity’s policy states that transfer students must complete their last 30 hours of credit at Trinity and last nine hours of their major field of study. In addition, students transferring from community colleges may transfer a maximum number of 65 credit-hours. Transfer students from four-year institutions may transfer an unlimited number of credit-hours.

The department chairperson, in collaboration with the registrar’s office, will determine which social work courses will be accepted for credit. Review of transfer credit will allow students who have completed course work in a prior setting to be exempt from social work course content already covered. Students must present the following information to ensure course content is not repeated and social work course credit is given where due: course syllabus including learning objectives, required readings, evaluation procedures, program and instructor information.

Students transferring into the social work program must make formal application to the program just as other students in the social work program. Because the field education requirement occurs during the last semester, transfer students will make formal application to field education as the program outlines.

Repeating Course Content
As part of the social work program admission process each student transcript is reviewed. The department chairperson, in conference with the student, meets to discuss foundational course content. In an effort to ensure foundational course content is not repeated, previous courses may be reviewed if a student has achieved a minimum of a C grade. The student must bring the syllabus for the course to the meeting. On the basis of this review, the chairperson will determine the extent of repeat content, resulting in one of three options:

1. The student will not be required to take the social work course;
2. The student will be required to take the social work course;
3. The student will complete an independent study with a social work faculty member that covers the material partially missed in the foundation course.

Life Experience
The social work department does not give academic credit to students for life experience or previous work experience for social work courses or field education requirements.
Grievance Policy
The program’s grievance policy and process are as follows:

Any student, field instructor, alumni, staff, or faculty with a complaint concerning violations of the program’s policy statements or program actions should provide written notice (via the Official Grievance Form) of the complaint to the department chairperson within 10 non-vacation/business days of the situation occurring. The department chairperson will meet with the appropriate parties involved, review the program’s policy statements and within 10 non-vacation/business days present a written decision and response (see section on the Official Grievance Form). Any parties involved in the specific complaint who consider this decision to be unsatisfactory may appeal to the provost of the College within 10 non-vacation/business days of receiving the department chairperson’s decision and response. Any appeal of the department chairperson’s decision must be made in writing using the Official Appeal Form. The provost will review the Official Appeal Form, discuss the matter with the appropriate parties involved and within 10 non-vacation/business days present a written decision and response (see section on the Appeal Form). The provost’s decision on the matter is final.

150 Introduction to Social Work
This course offers an exciting opportunity for experiential learners to explore the profession of social work, social work values and ethics, and vocational calling to helping those in need. Students will be empowered to explore diverse social work settings and working with a variety of populations. 3 hours

210 Social Welfare Institutions
This course offers students an opportunity to actively engage in critiquing historical trends and current issues impacting social policies and programs. This exploration will offer faith-based perspectives on roles and responsibilities across various social, political, and economic systems. Prerequisites: Social Work 150, or permission of instructor. 3 hours

225 Social Work Values and Ethics
This course offers rich opportunity for open-minded learners to stretch personal values and ethics in relation to God’s plan for fostering justice, humility, and unconditional love. Prerequisites: Social Work 150 and 210. 2 hours

310 Human Behavior and the Social Environment
This course revisits multiple perspectives of our human experience from birth to death. Using a systems approach it frames our development from a bio-psycho-social-spiritual perspective. Additionally, students will gain critical skills for conducting holistic assessments. Prerequisites: Social Work 150, 210, 225. 4 hours

315 Diverse Populations
This course provides an opportunity for experiential learners to engage in self-reflection around the dynamics of diversity. Also explored are the issues of globalization as they impact urban communities. Prerequisites: Social Work 150, 210, 225, 310, 340, 345, or permission of instructor. 2 hours

340 Generalist I
This course will offer experiential learners skills to conduct community-centered generalist practice with individuals. Using strength-based interviewing skills students will actively participate in simulations. Students will practice case management and working with involuntary clients and those in crisis. Prerequisites: Social Work 150, 210, 225. 4 hours

350 Generalist II
This course will offer experiential learners the skills to conduct community-centered generalist practice with groups and families. Students will engage actively in simulations using and adapting a variety of intervention methods across diverse settings. Prerequisites: Social Work 340, 345. 3 hours

353 Research for the Behavioral Sciences
This course offers students the opportunity to explore research principles and skills in social work. Coverage of both quantitative and qualitative research methods used in social work and program evaluation; including a survey of research designs, sampling, data collection, data analysis, and interpretation from an ethical standpoint provides the foundation for this course. Prerequisites: Math 151 or 105. 3 hours

360 Generalist III
This course will offer experiential learners the skills to conduct community-centered generalist practice with organizations and communities. Students will engage actively in simulations using and adapting a variety of organizational administration and asset-based community development approaches across diverse settings. Prerequisites: Social Work 350, 355. 3 hours

Nondiscrimination Policy
The social work department maintains a policy of nondiscrimination for students and their interaction in all auspices of the social work program that does not discriminate based on race, color, gender, sex, creed, ethnic or national origin, disability, political orientation, veteran status, transfer status, family structure, marital status, or sexual orientation.

Grievance Policy
The program’s grievance policy and process are as follows:

Any student, field instructor, alumni, staff, or faculty with a complaint concerning violations of the program’s policy statements or program actions should provide written notice (via the Official Grievance Form) of the complaint to the department chairperson within 10 non-vacation/business days of the situation occurring. The department chairperson will meet with the appropriate parties involved, review the program’s policy statements and within 10 non-vacation/business days present a written decision and response (see section on the Official Grievance Form). Any parties involved in the specific complaint who consider this decision to be unsatisfactory may appeal to the provost of the College within 10 non-vacation/business days of receiving the department chairperson’s decision and response. Any appeal of the department chairperson’s decision must be made in writing using the Official Appeal Form. The provost will review the Official Appeal Form, discuss the matter with the appropriate parties involved and within 10 non-vacation/business days present a written decision and response (see section on the Appeal Form). The provost’s decision on the matter is final.
370 Community Social Action Policy
This course will energize and mobilize students for involvement in community-centered social action. Students will model assimilation and commitment to effecting dynamic social change within community through their leadership and development of a social change project. Prerequisites: Political Science 201 and Social Work 210, or permission of instructor. 3 hours

345/355/365/375 Professional Seminars
These capstone assessment courses fulfill the College capstone requirement through the planning and implementation of a community social action project. Prerequisites: Concurrent enrollment in Social Work 340, 350, 360, 400. 1 hour

400 Field Education
This course provides an exciting opportunity for students to gain valuable experience in a social work field-practicum setting. This formal practicum experience will allow students to put into practice the knowledge and skills they have gained throughout the social work program. Prerequisites: Social Work 340, 350, and 360. 9 hours

401 Field Education Seminar
This seminar course will assist students in monitoring their progress toward achieving learning objectives in field practicum. Students will share and learn from each other around issues of community-centered generalist practice. Prerequisites: Concurrent enrollment in Social Work 400. 2 hours

Program Capstone Project
The social work generalist capstone assessment project is an integral component of the BSW program. This series of four semester-long courses provides experiential learning opportunities. Students complete their projects working closely with community practitioners, their teammates, and a faculty project liaison. The generalist capstone assessment project provides students opportunities to do research, community organizing, team-building, assessment, and evaluation. During their experiential capstone assessment projects, students are also expected to interact with diverse individuals or groups and at-risk populations. During this advanced learning, evidenced through a community-centered social action project, students are nurtured and monitored for professional growth and assessed in their skill and value development.

The sociology program helps students develop a Christian perspective on the nature of humans and of the relationships the individual forms with other humans. Such a perspective aids in a clearer understanding of our task as Christians engaged in social situations and in response to social issues. The major in sociology is designed to prepare students for a variety of pursuits after graduation, such as graduate work, social and sociological research, and vocations in social institutions, groups, and relationships.

The sociology major consists of a 33 credit-hours, plus two cognate courses, for a total of 35 credit-hours. If a sociology major student wants to take more than three hours of field education, he or she must take it in addition to the 33-hour minimum. Students must meet the College's oral communication requirement by enrolling in the cognate Communication Arts 101. Each sociology student must engage in a summation and reflection of the discipline in a capstone experience, embedded in the Senior Seminar. A field education course also is required in which the student works both off campus and with a professor in researching and analyzing that experience, finishing by writing and presenting a major paper.

Students may earn up to nine hours of sociology credits (including Sociology 400) by completing the Chicago Semester program. Students wanting to obtain credit toward a major in this way should consult with the department chairperson to ensure that they meet all other requirements.

Required of all major students:
SOC 121 Principles of Sociology 3 hours
SOC 351 Theories of Society 3 hours
SOC 353 Research for the Behavioral Sciences 3 hours
SOC 400 Field Education 3 hours
SOC 410 Senior Sociology Seminar 3 hours
Sociology electives 18 hours
Cognate courses (required, but not included in the 33 sociology hours):

- MATH 105 Statistics for the Social Sciences or MATH 151 Statistics 3 hours
- COMM 101 Fundamentals of Public Speaking 3 hours

Students who anticipate graduate work should take:
- an introductory computer science course, or equivalent knowledge
- sufficient courses to obtain reading knowledge in a modern foreign language, particularly Spanish
- at least one course each in economics, political science, and psychology
- at least two advanced courses in anthropology or philosophy
- human biology, as some graduate schools require this course

A sociology minor consists of no fewer than 18 hours, including:

- SOC 121 Principles of Sociology 3 hours
- SOC 351 Theories of Society 3 hours

121 Principles of Sociology

This study of the nature and methodology of sociology and an introduction to its field of investigation includes an analysis of various social relationships, an exposure to modern social problems, and an introduction to the theory and research done in the field. 3 hours

202 Urban Sociology

In this study of city, city life, and its history, we consider both theoretical perspectives on the nature of the city and the social problems of present urban and suburban areas. This course is identical to History 246. Prerequisite: Sociology 121. 3 hours

231 Sociology of Race and Ethnicity

This sociological study of concepts and perceptions of race and ethnicity emphasizes a theoretical approach to the area and investigates such phenomena as prejudice, discrimination, assimilation, pluralism, and ethnic boundaries. Specific ethnic groups are studied. This course is identical to Political Science 260. Prerequisite: Sociology 121. 3 hours

232 Sociology of Aging

This course discusses the specific features and problems of aging and the presence of the aged in society. It analyzes the demographics of aging, the status and treatment of the aged, and the social movements emerging from among elders. 3 hours

241 Sociology of Marriage and Family

Students study the invariant structure and the variable forms of marriage and family, review the history of family sociology, and survey Christian approaches in this area of sociology. Prerequisite: Sociology 121. 3 hours

243 Group Dynamics

This course utilizes the “self-analytic group” to study the group as a phenomenon distinct from the individual, the institution, and the crowd. It probes the foundation of human interaction and communication in face-to-face settings. Students analyze group structure, physical formations; emotional factors and attachments; and the evolution of leadership functions, norms, values, and procedures. This course is identical to Communication Arts 217 and Psychology 243. Prerequisite: sophomore standing. 3 hours

250 Sociology of Social Problems

This course is a study of ways various societies' social problems are defined and identified, including theoretical acknowledgement of the effect of cultural presuppositions and structures on the generation and perception of social problems. Students analyze a series of selected problems (e.g. delinquency, discrimination, child abuse, drug use, etc.) and their proposed solutions. Prerequisite: Sociology 121. 3 hours

252 Sociology of Development

This course acknowledges development as a socially generated phenomenon and assumes that there are structural features by which development occurs. It includes a history of the development of society, current levels of societal development, and inequalities in and among societies. We will conduct a review of several approaches to the study of development, including Marxist dependency theory, world systems analysis, the cultural-ecological approach, and various Christian attempts at such analysis. We will investigate the interdependence and unequal development of cultures and societies, particularly the effects of European and North American influences on less technically and economically developed countries such as those in Asia, Africa, South and Central America, and Oceana. Prerequisite: an introductory course in any one of the following: political science, economics, sociology, history, or any other cross-cultural studies course. 3 hours

254 Cultural Anthropology

Students study the manifestations of culture with a focus on the wide variety of human life patterns and structures occurring at different times and places. The course involves systematic cross-cultural comparisons as well as the issue of intercultural dependence and independence. 3 hours

331 Sociology of Religion

This social and historical study of religious worldviews and worship practices in various societies examines such societal institutions as churches, sects, and cults. This course is identical to Theology 331. Prerequisite: Sociology 121 or Theology 104. 3 hours

332 Social Psychology

Students study the nature and psychology of different social relationships. Such topics as attraction, cooperation, person perception, bargaining, and social influence are investigated. This course is identical to Psychology 332. Prerequisites: Sociology 121 or Psychology 121. 3 hours
351 Theories of Society
This course is an intensive study of the theories and methodology of the major
schools of social thought with special emphasis on theoretical developments in
contemporary sociology in Europe and North America. Prerequisite: Sociology 121.
This course is identical to Philosophy 351. 3 hours

353 Research for the Behavioral Sciences
This introduction to the basic methods of empirical research in the behavioral
sciences examines techniques and theory of research analysis and design, formulating
and testing hypotheses, sampling, collection, and analysis and interpretation of data.
Prerequisites: nine hours of psychology or sociology; one 200-level (or higher) course
in sociology, psychology, management, or education, and Mathematics 105 or 151.
3 hours

399 Independent Study
This course is offered by arrangement with the faculty. Students normally may not
take as an independent study a course that is offered regularly in Trinity’s curriculum.

400 Field Education in Sociology
Field education provides guided engagement in a project that is sociologically
relevant. The students’ future vocations serve as criteria for the selection of
the individual assignment, which is usually filled no earlier than the second semester
of the junior year, and preferably during the senior year. In arranged sessions, the
sociology department supervisor and the student discuss the experience. The student
must complete an academic analysis, in the form of a research report, in connection
with the placement and his or her experiences and observations. 3-6 hours

410 Senior Sociology Seminar
This seminar will review major social and sociological concepts, topics, and
approaches, and help students link their past course work with applications in their
lives beyond college. It will assure students of their theoretical and religious
frameworks as these apply to the discipline of sociology and the practice of social
service. Assessment of students’ attainment of the program’s principles and
commitments is a major aspect of this course. This course is required of all major
students, and presume completion or simultaneous enrollment in all other required
courses. 3 hours

THEOLOGY

Donald Sinnema, Ph.D., department chairperson

“I want to have a good understanding of theology so I can stand up for
truth. Trinity has offered a strong tradition that upholds the truth of God.
The professors have shown me that their relationships with God matters
just as much as their knowledge of Him.”

David Steenhoek ’07
Theology (Ames, Iowa)

The theology program is characterized by an emphasis on biblical studies. Students
who pursue this program take courses that deal with questions regarding the nature
and history of the Scriptures, the key biblical ideas that are significant for a Christian
perspective in other academic areas, and how to study the Bible. This approach
incorporates elements of historical and systematic theology in the coursework.

The theology major consists of a 33 semester-hours, 30 of which are in theology,
plus Communication Arts 101 (3 hours) and a recommended one-year study of
Greek. Students meet the oral communication requirement of general education by
taking Communication Arts 101; field education is met through Theology 400; the
capstone requirement is met through Theology 401. Greek is recommended to
better prepare the student to study and understand the New Testament in its
original language.

Required of all majors:
THEO 103-104 Biblical Foundations 4 hours
THEO 105 Christian Traditions 2 hours
THEO Three 200-level Biblical Literature courses 9 hours
Three 300-level courses 9 hours
THEO 400 Field Education 1 hour
THEO 401 Senior Capstone 3 hours
One theology elective 2 hours
COMM 101 Fundamentals of Public Speaking 3 hours

SPECIAL EDUCATION

See Education

www.trnty.edu admissions@trnty.edu
A **theology minor** is offered for students who want to enrich their educational experience by its study, especially for those who plan to teach Bible courses in Christian schools. The minor, a minimum 17-hour program, includes:

101 **Introduction to the Bible**
This course provides an introduction to the basic story of the Old and New Testaments, the main biblical characters, and the highlights of biblical history. It also offers a brief introduction to the major Christian traditions. The course is intended for those who need this background before taking Theology 103 and 104. 2 hours

103 **Biblical Foundations**
This study of those biblically derived foundational concepts that are basic to all Christian academic work includes the Bible as divine revelation, creation, man as God's image-bearer, the covenant, cultural mandate, sin and judgment, salvation, and the kingdom of God. These themes are studied within the context of a survey of Old Testament theology. 2 hours

104 **Biblical Foundations**
Building upon Theology 103, this course is an introduction to major themes in New Testament biblical theology. 2 hours

105 **Christian Traditions**
This course explores the major Christian traditions, their distinctive beliefs and practices, and their historical backgrounds. Special attention is paid to the Reformed tradition. Highlighted also are various models of the way Christians from different traditions have related to their culture. 2 hours

203 **Biblical Literature: the Prophets**
This study seeks an understanding of the nature of prophecy, the historical setting of the prophets, and the relationship between prophecy and fulfillment. Primary emphasis is upon the 12 minor prophets, Hosea through Malachi. Prerequisite: Theology 103. 3 hours

204 **Biblical Literature: the Pentateuch**
The Pentateuch (Genesis through Deuteronomy) is considered as the foundational document for both the Old and New Testaments. The main emphasis is placed on the content of these books and the relationship that they sustain with the rest of the Bible. Brief consideration is given to the problem of the Documentary Hypothesis, Form Criticism, and the Mosaic authorship of these books. Prerequisite: Theology 103. 3 hours

205 **Biblical Literature: Historical Books**
An investigation of the nature of biblical historiography as kerygmatic and of the principles for understanding the Bible's historical writings, especially the books of Joshua through II Kings. Prerequisite: Theology 103. 3 hours

206 **Biblical Literature: the Epistles**
This introduction to the New Testament epistles surveys the contents and life setting of all the New Testament letters and places special emphasis on Pauline theology. Prerequisite: Theology 104. 3 hours

207 **Biblical Literature: the Gospels and Acts**
This study of the four Gospels and the book of Acts examines the distinctive message of each. Topics include the historical setting of the New Testament, the kingdom theme in Jesus' teaching, the early spread of Christianity, and basic issues in the interpretation of the Gospels and Acts. Prerequisite: Theology 104. 3 hours

209 **Biblical Literature: Wisdom Books**
A study of the content of Old Testament wisdom literature: Job, Ecclesiastes, Proverbs, Song of Solomon, and some of the Psalms. Students examine the structure, setting, and the literary forms that characterize this literature. The role of wisdom in biblical revelation and in Christian life is also discussed. Prerequisite: Theology 103. 3 hours

210 **The Future in Biblical Perspective**
Students study biblical teaching relating to the future or the last things, including such topics as the return of Christ, the resurrection, the last judgment, heaven and hell. The interpretive perspectives of pre-millennialism, post-millennialism, and a-millennialism are reviewed. The course includes a study of the books of Daniel and Revelation. 3 hours

212 **Cross-Cultural Missions**
Students consider the biblical basis of a Christian mission to all nations and the methods and problems of doing mission work in another culture, foreign or domestic. Such problems include the need for word-and-deed ministry, crossing language and cultural barriers, contextualizing the Gospel in another culture, and communicating the full Gospel in hostile political or religious settings. Prerequisite: Theology 103 or 104. 3 hours

285 **Development of Global Christianity**
A survey the history of Christianity from late antiquity to the present outside of the Western world, including the Middle East, Asia, Africa, and Latin America. Particular attention will be given to how the universal Christian faith is enculturated in non-Western cultures. This course is identical to History 285. 3 hours
301 Basic Teachings of the Christian Faith
A study of the classical doctrines of the Christian church, including the basic beliefs about Scripture, God, creation, evil, Jesus Christ, salvation, the Holy Spirit, the church, and the future. The course examines the biblical basis of these doctrines and highlights of their historical development. Emphasis is on the Reformed perspective on these teachings, but viewpoints of other Christian traditions are considered. Prerequisites: Theology 103 and 104. 3 hours

304 The Nature and Ministry of the Church
This course is a biblical and historical study of the church as the body of Christ. Institutional structures, offices, and the mission of the church are considered, including the educational ministry of the church. Prerequisite: Theology 104. 3 hours

305 Living Issues in the Christian Tradition
This course investigates historically and theologically major recurring issues in the life of the church. Specific controversies that may be studied include issues relating to creation and science, the meaning of salvation, the authority and interpretation of Scripture, the meaning of baptism, and the role of women in church office. Prerequisite: Theology 104. 3 hours

306 Major World Religions
This course is a study of traditional religions, Judaism, Hinduism, Buddhism, and Islam as living religions. Special attention is focused upon the worldviews inherent in the religions and the consequent social and cultural impact of these views of reality. 3 hours

330 History of Christianity
Students study the development of Christian thought and the church as the covenant people of God from the Old Testament era to the present. After surveying the Old Testament origins of the Church, primary attention is given to the life of the Western church during the early, medieval, Reformation, and modern periods. This course is identical to History 358. 3 hours

331 Church and Society
This course is a social and historical study of religious worldviews and worship practices in various societies. Students examine societal institutions such as churches, sects, and cults. This course is identical to Sociology 331. 3 hours

335 Calvinistic Tradition
A study of significant philosophical and theological contributions in the works of thinkers in the Calvinistic tradition from the 16th century to the present with a critical exposition of selected texts. This course is identical to Philosophy 335. 3 hours

343 Religion in America
This course undertakes a historical and theological survey of religion in the United States as a means toward understanding the current pluralistic scene. Special emphasis is placed on the influence of Puritanism, evangelicalism, and liberalism upon American religious life. A number of current religious-political issues are also explored. This course is identical to History 343. 3 hours

399 Independent Study
This reading and/or learning experience course is open to qualified students with the approval of the department. 1-2 hours

400 Field Education
1 hour

401 Senior Capstone
This course offers an advanced exploration of issues relating to a Christian worldview. The student will also explore the implications of such a worldview in connection with an investigation of a significant theological issue, worldview, or figure. The course is taught as an independent study, or seminar, if numbers warrant. Prerequisite: theology major. 3 hours
Trinity’s adult studies program is a non-traditional program serving adults age 23 and older. The adult studies program provides the adult learner with the opportunity to earn 45-51 semester hours of credit, depending on the program in which the adult learner is enrolled. Classes are taught in a manner conducive to adult learning. An atmosphere of shared family, career, and age interests develops among the adults. Adult students who succeed are self-directed and goal-oriented individuals.

**Academic Calendar**
The adult studies program operates on a semester-hours basis, year round with three groups of adult learners beginning the education program each year in January, June, and September; two groups begin the business program each March and September. Each group is given a definite schedule of class meetings for the entire length of the program.

**General Admission Procedures**
1. Complete and turn in application form, which is available by calling 708.239.4768 or online at [www.trnty.edu/adultstudies](http://www.trnty.edu/adultstudies)
2. Pay $25 application fee
3. Submit an official grade transcript from each college or university previously attended
4. Meet with an adult studies program representative to outline a degree program
5. Successfully complete a writing sample (done on Trinity’s campus)
6. Attend orientation night

**Financial Aid**
Adult learners accepted into the adult studies program may apply for financial aid in the form of federal and state assistance. More information about financial aid is available in the adult studies program handbook.
ADULT STUDIES BUSINESS PROGRAM (B.S. BUSINESS)

Admissions Criteria
To be considered for the Adult Studies Business Program, an adult learner must meet the following criteria:

1. Age of 23 or older at the time of the first program module
2. Completion of 45 or more hours of credit from an accredited college or post-secondary institution.
3. Cumulative grade-point average of 2.0 or better on a 4.0 scale

Degree Requirements
The following requirements must be fulfilled to earn the bachelor of science degree in business through the Adult Studies Business Program:

1. Complete all coursework in adult studies business, including the comprehensive senior capstone project.

   - ABUS 301 Professional Communication
   - ABUS 302 Human Relations in Business Organizations
   - ABUS 303 Biblical Perspectives
   - ABUS 304 Contemporary Economic Analysis
   - ABUS 305 Management Planning and Decision-Making
   - ABUS 306 Christian Worldview
   - ABUS 307 Accounting for Decision Makers
   - ABUS 308 Marketing Management
   - ABUS 309 E-Business
   - ABUS 310 Collection, Analysis, and Interpretation of Quantitative Data
   - ABUS 311 Global Business
   - ABUS 312 Personal Values and Organizational Ethics
   - ABUS 313 Business Finance
   - ABUS 314 Legal Environment of Business
   - ABUS 315 Strategic Management and Decision-Making
   - ABUS 416 Comprehensive Senior Capstone Project

2. Accumulate a minimum of 120 semester hours of credit that are officially accepted by the Trinity Christian College registrar’s office.
3. Have a cumulative grade-point average of 2.0 (4.0 scale) or above in the 120 semester hours of credit comprising the degree program.
4. Meet all general education requirements, through coursework or by waiver, with an acceptable associate of arts (A.A.) or associate of science (A.S.) degree as follows:
   - Philosophy met in Adult Studies Business
   - Theology met in Adult Studies Business
   - Mathematics 6 hours with lab or waived with A.A. or A.S. degree
   - Natural Science met in Adult Studies Business
   - Social Science 3 hours or waived with A.A. or A.S. degree
   - Fine Arts 6 hours (3 hours with A.A. or A.S. degree; waived with 3 hours in Western Civilization or 6 hours General History in A.A. or A.S. degree)
   - History 3 hours or waived with A.A. or A.S. degree
   - English Literature 3 hours
   - English Composition 3 hours

Total semester hours of credit required in general education: 27, 6-9 with A.A. or A.S. degree.

5. Pay all tuition and fees.

ABUS 301 Professional Communication
The focus of this course will be on providing the adult learner with an opportunity to develop his/her professional writing skills, computer-aided graphic design skills, and professional business presentation techniques. The primary objective of this course is to provide the adult learner with an opportunity to integrate these skills so they will be prepared to meet the demands of their professional career. 3 hours

ABUS 302 Human Relations in Business Organizations
This course is the study of group behavior and how group functioning affects organizational effectiveness. Emphasis is placed on decision-making and resolving conflict in groups. Adult learners develop strategies for efficient and productive group management and determine which tasks are handled by groups or individuals. 3 hours
ABUS 303 Biblical Perspectives
This course explores the biblical themes (such as: creation, sin, redemption, calling) that shape a Christian worldview. These are treated in the context of a brief survey of the Old and New Testaments. Attention will be given to how these biblical themes relate to practice and public life. 3 hours

ABUS 304 Contemporary Economic Analysis
A study of the economic choices made by individuals and organizations in a market economy. This course examines the behavior of individuals and institutions, and compares economic systems. 3 hours

ABUS 305 Management Planning and Decision-Making
An analysis of the managerial functions of planning, organizing, staffing, leading, directing and controlling. Incorporated within the presentation of these functions is a discussion of our responsibilities as Christians. 3 hours

ABUS 306 Christian Worldview
This course introduces the adult learner to themselves, the worldviews that have shaped them and an alternative: a biblical world-and-life view. This course involves self-examination, a study of worldviews that have dominated Western culture (both past and present) and an introduction to a biblical framework that answers life’s basic questions. Specific applications of this biblical worldview will be an important part of this course. 3 hours

ABUS 307 Accounting for Decision-Makers
This course extends the accounting knowledge acquired in the financial accounting course to the internal corporate environment. Students gain an understanding of the importance of accounting information to internal management decision-making. 3 hours

ABUS 308 Marketing Management
An introduction to the activities and decisions faced by marketing managers in business and non-business organizations. Emphasis is placed on a basic understanding of the principles of marketing and on the operation of the marketing function. 3 hours

ABUS 309 E-Business
The adult learner will be provided the opportunity to study the “new business model – the Internet.” The new technologies available provide an opportunity for traditional business organizations to build a new business model that will allow them to establish a competitive advantage in the electronic marketplace. The components, linkages between components, and dynamics between components in the new model will be the primary topics covered in this course. 3 hours

ABUS 310 Collection, Analysis, and Interpretation of Quantitative Data
Problem analysis and evaluation techniques are presented. Adult learners are shown methods of defining, researching, analyzing, and evaluating of a problem in their professional environment that they have selected for independent study projects. Specific statistical information covered in this course includes identifying and measuring objectives, collecting data, working with significance levels, analyzing variance, and constructing questionnaires. 4 hours

ABUS 311 Global Business
This course is designed to provide the adult learner with an opportunity to acquire an understanding of how a U.S.–based organization can successfully transact business with its customers, suppliers, vendors, and resource providers located in foreign countries. The adult learner will be given the opportunity to explore cultural environments, global politics, economic systems and diversity from an international, regional, and global perspective. 3 hours

ABUS 312 Personal Values and Organizational Ethics
Several major ethical theories are reviewed. Adult learners are asked to examine personal values through readings and workplace analysis to formulate a management philosophy incorporating business ethics, government accountability, human rights, and a responsible lifestyle in the contemporary professional world. 3 hours

ABUS 313 Business Finance
A study of financial decision-making in the areas of working capital management, short-term and long-term financing, financing risk, and capital asset management. The topics of present value, future value, taxes, depreciation, and financial markets are also presented. Relevant discussion of personal financial management from a Christian perspective is incorporated. 3 hours

ABUS 314 Legal Environment of Business
An introduction to the rapidly changing legal environment of business through: (1) an explanation of the nature and functions of our legal system; (2) an integrated approach to ethics and global issues, and (3) a practical group of cases designed to assure that students understand legal issues in a manner that will be useful to them as Christian citizens and employees. 3 hours

ABUS 315 Strategic Management and Decision-Making
An examination of the strategic management process. This course serves to integrate the knowledge the student has gained in previous business courses. Special emphasis will be placed on the management of information for business decisions. 4 hours

ABUS 416 Comprehensive Senior Capstone Project
The adult learner’s capstone project will be an integrated research project that ties together all that has been presented in the adult studies business modules, the adult learner’s professional experience and/or professional aspirations for the future. 5 hours
ADULT STUDIES EDUCATION/TEACHING CERTIFICATION (B.A. EDUCATION)

Admissions Criteria
To be considered for the Adult Studies Education Program, a student must meet the following criteria:

1. Age of 23 or older at the time of the first program module
2. The completion of a minimum of 65 semester hours of credit from an accredited college or post-secondary institution
3. Evidence of having passed the State of Illinois Basic Skills Test

(Note: Students entering without a bachelor’s degree will earn the bachelor of arts degree from Trinity Christian College)

Program Completion or Degree Requirement
The following general education course requirements must be met for Elementary Certification:

- Fundamentals of Public Speaking: 3 hours
- Written Communication: 3 hours
- Mathematics: 9 hours
  - must include Math Concepts for Teachers I, Math Concepts for Teachers II, and any additional math course - intermediate algebra or above
- Biological and Physical Science: 12 hours
  - must include Earth Science, Intro. to Biology, and Intro. to Physical Science, plus at least two labs
- Humanities: 9-12 hours
  - American History: 3 hours
  - Literature: 3 hours
  - Children’s Literature: 3 hours
  - Western Civilization (waived with AA, AS, BA, BS): 3 hours
- Social Sciences
  - American Government: 3 hours
  - Human Growth and Development: 3 hours
  - World Geography: 3 hours
  - Cross-Cultural Elective: 3 hours
  (waived with AA, AS, BA, BS)

Field education and capstone requirements are met through AEDU 450 or 455, Student Teaching and AEDU 454, Contemporary Issues Seminar.

AEDU 203 Introduction to Education
This course is a broad-based introduction to the role of schooling in society and the profession of teaching. It includes an overview of the history of education from pre-literate societies to the present, an examination of various philosophical perspectives or schools of thought, and a discussion of several of the issues facing educators today. 3 hours

AEDU 303 Education Psychology
One main focus of this course is the psychology of learning. Topics include human development, differences in learning abilities, the impact of culture, and theoretical approaches to the process of learning. Another main focus is the psychology of teaching. Topics include understanding motivation, classroom management, creating a conducive learning environment, and classroom assessment. These topics are presented from elementary, middle grades, and secondary education perspectives. 3 hours

Major or minor, minimum 18-24 hours in: accounting, art history, art studio, biology, business, chemistry, coaching, communication arts, computer science, economics, English, graphic design, health education, history, information systems, math, math education, music, philosophy, physical education, physical science, political science, psychology, sociology, Spanish, theater, (half of these hours must be 200-level or higher for a major or minor)

The following general education course requirements must be met for Secondary and K-12 Specialist Certification:

- Fundamentals of Public Speaking: 3 hours
- Written Communication: 3 hours
- Mathematics - intermediate algebra or above: 3 hours
- Biological and Physical Science, plus 2 labs: 6 hours
- Humanities: 6-9 hours
  - American History: 3 hours
  - Literature: 3 hours
  - Western Civilization (waived with AA, AS, BA, BS): 3 hours
- Human Growth and Development: 3 hours
- Cross-Cultural Electives: 6 hours
  (3 hours waived with AA, AS, BA, BS)

Major in (minimum 36 hours): biology, business education, chemistry, English, history, mathematics

K-12 Specialist (minimum 36 hours): art, music, physical education, Spanish
AEDU 109 Technology in Education
This course examines the role of technology within the field of education. Topics include integration of productivity- and learning-enhancing software; use of imaging, presentation, and telecommunication equipment; evaluation of computer resources; design of student activities that integrate computer resources; and current instructional principles and research through the use of professional journals. 3 hours

AEDU 200 Biblical Perspectives
This course explores the biblical themes (such as creation, sin, redemption and calling) that shape a Christian worldview. These are treated in the context of a brief survey of the Old and New Testaments. Attention will be given to how these biblical themes relate to practice and public life. 2 hours

AEDU 300 General Methods
A study and discussion of theories and techniques of teaching. Specific topics include planning, organizing, methods of instruction, and assessment. 3 hours

AEDU 310 Teaching Reading and Language Arts in Grades K-9
Students examine approaches and methods in teaching reading. Course content includes emphasis on reading skills, assessment of pupil progress, and classroom organization for the teaching of reading. This course also focuses on the listening, speaking, reading, and writing skills within the language arts, and emphasizes integrating language arts throughout the school curriculum. 3 hours

AEDU 311 Teaching Reading in Grades 6-12
This course focuses on teaching reading in various subject areas. Specific instruction in reading strategies at the 6th - 12th grade levels with current theory and techniques for the teaching of reading in various content areas will be emphasized. Students will design lesson and learn to develop skills in improving reading specific to their content area. 3 hours

AEDU 312 Fine Arts in Education and Physical Education
This course introduces the adult learners to themselves, the worldviews that have shaped them, and an alternative: a biblical world-and-life view. The course involves self-examination, a study of worldviews that have dominated Western culture (both past and present), and an introduction to a biblical framework that answers life’s basic questions. Specific applications of this biblical worldview will be an important part of the course. 3 hours

AEDU 315 Elementary Methods — Mathematics
This course is a workshop in activities and materials for teaching mathematics at the elementary level. The course includes comparison of various approaches to the teaching of mathematics. The emphasis is upon workshop activities and experiences in teaching specific mathematics concepts. 1 hour

AEDU 316 Elementary Methods — Social Studies
This course helps the student to understand the place of social studies within the curriculum and to become familiar with its scope and sequence. Students learn to identify, design, and use a wide variety of concepts, activities, resources, and techniques relevant to elementary and middle school social studies education. 1 hour

AEDU 317 Elementary Methods — Science
This course is a workshop in methods and materials for teaching science at the elementary and middle school levels. It emphasizes constructivist teaching and inquiry teaching. 1 hour

AEDU 318 Elementary Methods — Science
This course examines the role of technology within the field of education. Topics include contemporary issues, worldview implications for teaching, and preparation for teaching. 3 hours
CENTERS HOUSED AT TRINITY CHRISTIAN COLLEGE

THE CENTER FOR LAW AND CULTURE

Established in the spring of 2001, the Center for Law and Culture is an Illinois not-for-profit organization located on the campus of Trinity Christian College. Although not formally a part of Trinity, the Center enjoys a close working relationship with the College. The Center has been granted federal tax-exempt status as an educational charity.

MISSION
To inspire students and other citizens to serve God faithfully in public life, particularly in the strategic fields of law, government, and politics. The Center does this by recovering the traditional Judeo-Christian understanding that law is based on a moral order grounded in God’s authority as Creator.

PROGRAMS
Through its two educational initiatives, the Law, Justice and Culture Institute and the Creation Care and Stewardship Program, the Center provides worldview training in the Judeo-Christian tradition. This training stresses formation of a vibrant, biblical view of public engagement, focusing on the threefold obligation to glorify God, serve our neighbor, and care for creation.

- **Law, Justice, and Culture Institute**: an exciting academic experience held at Trinity Christian College in May, leading to three credit-hours for students from participating institutions in the Council for Christian Colleges and Universities. One of the unique aspects of the Institute is that the Center actively recruits students from other Council schools by awarding generous scholarships. See Political Science 244, Law, Justice and Culture.
- **Creation Care and Stewardship Program**: a groundbreaking initiative providing resources that educate citizens and communities concerning their obligations to care for God’s creation.

PARTNERING ORGANIZATIONS
- The Council for Christian Colleges and Universities
- InterVarsity Christian Fellowship
- National Association of Evangelicals
- American Studies Program

COUNCIL SCHOOLS ENDORSING THE INSTITUTE
- Trinity Christian College
- Wheaton College
- Trinity International University
- Biola University
- Cornerstone University
- Covenant College
- Redeemer University College
- John Brown University
- Olivet Nazarene University
- Judson College

CONTRIBUTING SCHOLARS AND LAW FIRMS
- Theologians J.I. Packer and Harold O.J. Brown
- Federal Appellate Judge Michael McConnell
- Law Professor Phillip Johnson
- Bio-ethicists Nigel Cameron and John Kilner
- Political theorist J. Budziszewski
- Hoogendoorn & Talbot, LLP
- Ruff, Weidenaar & Reidy, Ltd.

The Alexander De Jong Center for Special Education

The Alexander De Jong Center for Special Education is a joint venture of Trinity Christian College and Elim Christian Services that began in 2004. Its mission is to prepare current and future teachers with the highest quality instruction and training to develop fully the God-given potential of individuals with special needs.

It was named in May 2005 in honor of Dr. Alexander De Jong, Trinity’s first president (1966-68) and pastoral consultant at Elim. The Center initiated its Summer Institute of Discovery in the summer of 2004 to give high school students firsthand classroom experience as teacher assistants in Elim classrooms.

Trinity and Elim are two unique Christian educational institutions whose mission statements reflect a shared heritage and Reformed faith. Both offer the highest quality instruction to prepare students for their future lives, callings, and careers by developing their potential in the context of their relationships to God, others, and all of creation.

The Center for Special Education has identified three major challenges to educating students with special needs:
- there is an acute shortage of qualified special education professionals who are academically qualified and prepared with practical experience and share the heritage of Reformed education
- current special education teachers require additional resources to empower them in promoting academic excellence
- there is a need for more research-based methods for teaching and learning in the special education classroom

By working together purposefully, Trinity and Elim can inspire, nurture, and train special education teachers for lives of Christlike service while enabling students with special needs to grow and thrive as children of God.
